POWER FARMING WITH THE SAMSON

The Samson Tractor is a product of General Motors, makers of such well known cars as the McLaughlin, Cadillac, Chevrolet, Oldsmobile, G. M. C. Trucks, etc.

The Samson is the last word in modern down-to-the-minute Tractor construction—a close coupled power unit from radiator to rear wheels.

The Samson will take the place of a barn full of horses. It has no lost motion for it is built and lubricated like a high-priced automobile. The even distribution of weight, compact unit design, and low center of gravity give the Samson great stability, making it hug the ground and preventing all danger of rearing up and tipping over.

The Samson Model "M" is the one tractor you should look at before you buy a Tractor of any make or kind.

The Samson line includes Tractors, Farm Implements, Motor Trucks and every device for power farming.

The Samson Model "M" will be at the Toronto Exhibition.
