

J. V. COOPER, OF PICTON,

BREEDER OF SHORTHORN DURHAM CATTLE
AND OXFORD DOWN SHEEP, ALSO SPEAKS
VERY HIGHLY OF BATTLE'S

Thorold Cement.

Barn of J. V. Cooper, Picton, Ont. Size, 31 and 46 ft. in width by 100 ft. in length. Basement, walls and floors built with Thorold Cement.

Read what J. V. Cooper says about Battle's Thorold Cement:
PICTON, ONT., Aug. 6th, 1900.

ESTATE OF JOHN BATTLE, Cement Manufacturers, Thorold, Ont.:
DEAR SIR,—It is with pleasure that I testify to the good qualities of your Thorold Cement, having used last season 160 bbls. in construction of basement walls and floors for barn, under supervision of Mr. J. Watson, a very competent man. Size, 31 and 46 ft. in width by 100 ft. in length. In basement are 19 sashes—6 lights 12x16—which makes basement both pleasant and healthy. While constructing, some were very little in favor of rock cement, but now they all make the same expression—both farmers and mechanics—and say that it is the finest basement they were ever in. As regards both wet and frost last winter, it proved entirely satisfactory; therefore I can honorably recommend it to any person for building concrete walls or floors.
Respectfully yours,
J. V. COOPER,
Breeder of Shorthorn Cattle and Oxford Down Sheep.

Correspondence solicited.

Estate of John Battle, Thorold, Ont.

THE NATIONAL FARM Cream Separator

Manufactured by the Raymond Mfg. Co. of Guelph, Limited, manufacturers of the celebrated Raymond Sewing Machines.

THE National is an up-to-date machine, leading all others in separating cream by centrifugal force. It is the farmers' choice, because it runs easy, skims fast and clean, and makes a perfect cream, containing any per cent. of butter-fat desired. It is also easier to clean than any other. The National is built of the very best material suitable for the construction of a high-speed machine, and with proper care should last a lifetime. The bearings are interchangeable and easily adjusted. Every machine is guaranteed to do good work, and a trial of the "National" is solicited before purchasing any other. The already large sale of the "National" and the growing demand for it, shows how much the Canadian farmers appreciate a Canadian-made machine that does its work so easily and well, and at the same time returns such a large profit on the small investment. Ask for the "National"; try it and buy it.

THE NEW CENTURY ALPHA BABY Cream Separators

Have never been beaten!

AN EVERYDAY STAND-BY.

SEE HOW IT TURNS UP.

SHELBURNE, JUNE 18, 1900.

The Canadian Dairy Supply Co., Montreal:
GENTLEMEN,—I have bought a No. 2 Alpha Separator from your agent, Mr. Hugh Taylor, of Shelburne, Ont. It is now working four months, and I am pleased to give you this testimonial.
Last March I got a DeLaval on trial, which was satisfactory. Just then the Melotte agents from Dundalk got me to try a No. 1 Melotte separator, saying it would "beat the DeLaval, as it had done often before." But it came far from giving the results which they claimed for it. My barn is about 8 rods from the house, and the weather being very cold at the time, I found the Melotte separator would clog at times as the milk was a little chilled. The agents then brought a No. 2 Melotte, which gave the same results. I found that the discs in the Melotte separator would start and clog, commencing at the bottom and continuing upwards the longer you skimmed. As a result of the trial, I bought a DeLaval, and would advise my fellow farmers to try a DeLaval Separator before buying any other, as it is a machine that is well constructed, and will skim milk at any temperature and not clog.
Yours truly,
SILAS MYERS.

CANADIAN DAIRY SUPPLY CO.,
