## Page Metal Gates=Good=Cheap

Page Gates have the best quality of steel frames, and are put together in a superior way. The filling is galvanized steel wire, and this filling is so fine in mesh that chickens or smallest pigs cannot get through. They have double steel braces, each having a strength of 3,500 lbs. Hinges and latch are of the best known design.

These are some of the reasons why Page Gates are the best.

We are now supplying these gates at only a little more than you would pay for hinges and latch at a store to make your own gate. THINK OF IT:—A complete Walk Gate all metal, everlasting, ornamental, perfect, for \$2.00 (see price list), or a large Farm Gate for \$5.25. At these prices you should show good business sense by using our gates everywhere on the farm that gates are needed. To prove what we say, look at the following prices for delivery at any station east of Port Arthur, at which we or our local dealer can supply you.

#### GOSSIP.

Messrs. Alex. Hume & Co., Menie, Ont., breeders of Ayrshires and Yorkshires, ordering change of advertisement, write: "Visitors say our stock is looking well. We might say we are through with Imp. Prince of Barcheskie, having so many of his get at breeding age. His stock, as you know, always win some of the best prizes at Toronto and other large shows;

he himself always winning, and was sweepstakes bull at London, 1903. It is a pity so good and sure a breeder should go to the butcher. Our young things are going on nicely, and should find ready sale at our low prices, considering their breeding, either to the breeders or dairymen. When at Guelph Fat-stock Show, we purchased a grand young boar from R. F. Duck & Son, same litter as their prizewinning young

sows. Our young sows are bred to him. We have on hand January litters that are doing well."
