POTASH MEANS PROFIT

Every farmer, market gardener and fruit grower, who has not already done so, should test the truth of this statement by using POTASH this year.

NO BETTER RESOLUTION CAN BE MADE FOR THE NEW YEAR.

Potash is an absolutely Indispensable Ingredient of a Complete Fertilizer, and may be obtained from all leading fertilizer dealers and seedsmen in the highly-concentrated forms of

Sulphate of Potash and Muriate of Potash.

If there is no dealer in your locality who handles fertilizers, write us, and we shall advise you where you can get supplies. For the benefit of dealers and others requiring POTASH in CAR-LOAD LOTS, we would mention that our Head Office has established a Sales Agency at Baltimore, which will sell such quantities at CONSIDERABLY REDUCED PRICES.

Write us for particulars and FREE copies of our bulletins, including:—
"Fertilizers: Their Nature and Use"; "Fertilizing Orchard and Garden";
"The Potato Crop in Canada"; "The Farmer's Companion," etc., etc.

NO NEED To Be Fooled

Choosing the best cream separator is easy. The simplest is the best. No need to be fooled by claims that complicated machines are modern. Those who are misled by such claims are not satisfied until they discard their complicated machines for simple, sanitary Sharples Dairy Tubulars. Tubulars probably replace more common separators every year than any one maker of such machines sells. Disks and other contraptions cause work and trouble and are not needed in properly built separators.

This is the Proof!
Sharples Dairy Tubular Cream Separators—the only simple, sanitary, easy to clean, modern separators made—easily and constantly outskim and outlast all others. That is because Tubulars are different. Tubular sales exceed most, if not all, others combined. The World's Best. The manufacture of Tubulars is one of Canada's leading industries.
