

## FROST & WOOD No. 8 MOWER

### A Strong, Stay-Tight Connection Where Other Mowers are Weak

Seventy years' experience, plus a disposition to use the very best materials when it might seem more profitable to cheapen things, is why Frost & Wood implements excel from the "Quality" standpoint.

Take, for instance, the connection between the Cutter Bar and Main Frame of a Mower. Others use Small Pins, that wear quickly, thereby allowing connection to work loose, and eventually "bang" the machine into a blacksmith shop. We use "large" Bearings for our "stay-tight" connection (see illustration). They

fit accurately and there is no opportunity for wear, because Cutter Bar has no chance to work loose from Main Frame. No time lost on the field—no bills to foot.

Another example of Frost & Wood "Quality" is the Pitman Connection of Forged Steel and "the Ball and Socket Joint"—strongest, firmest connection on the market.

Roller Bearings, with heavy boxes to maintain them in perfect position, make the No. 8 run easier than others. Every connection is neat and accurate. The "Internal Gear" cuts out the necessity of a "flying start"—knives commence cutting with first forward step of horses.

The No. 8 Mower is built in both Standard and Vertical Lift Styles.

## AN ORNAMENTAL AND DURABLE WIRE FENCE

Cheaper than wood. Nothing will improve the artistic appearance and enhance the value of your property like

### Cyclone Wire Fences

Our many styles of Ornamental Fences, one of which is shown in the above cut, are made from heavy No. 9 steel spring wire uprights. CYCLONE Ornamental Fences are dipped in green or white enamel. These fences have a special distinctive feature, which totally removes the chance of sagging or bagging. This has been arrived at by the use of two No. 12 wires twisted together to form the lateral wire: thus making a perfect lock or joint at the intersections. Booklets describing our full line of farm fences and gates suitable for lawns, parks or gardens will be sent you free on request. "If our goods are not represented in your district write to us for our agency proposition."
