BUTTONS AND SLEEVES

Any number of buttons are used on the new tailor mades for both morn-ing and afternoon. They apparently fasten the front, the back or the side seams of a skirt and decorate the top of a raised belt. Rows of buttop of a raised belt. Rows of but-tops and simulated holes outline the slashed sides of the coats and some-times the back and front forms, while sleeves apparently are closed from shoulder to wrist in like fashion.

CLEANING PANTRY SHELVES.

Ideas concerning the arrangement of pantries are changing under the influence of schools of domestic sci-ence. The majority of housewives want white, paper spread on the ence. The majority of housewives want white, paper spread on the shelves and edging in addition, but sanitation dictates a finished surface which can be wiped clean with a damp cloth. If your shelf is finished in hard finish keep it immaculate without paper. The first exclama-tion is, "But it will get dusty!" So will the paper get dusty, for the dust falls upon anything it can. Just try once to clear a shelf completely, put on paper and replace everything, and then try setting things aside enough to wipe the shelf without having to clear it all and see which is the less labor. If your shelves have not a hard finish cover them with oilcloth Floor oilcloth-you can get it al-most white—is the best, cut carefully to fit each place. It wears for years, is not marred easily by some-thing het being and the set being the shelf without having to to fit each place. It wears for years, is not marred easily by some-thing hot being placed on it, and is washed easily.

One may be very merciful in one's One may be very merciful in one's judgments upon those who fail in some ways, and very unmerciful on those who fail in others. Many peo-ple are quite pitiless towards those whose temptations are not their own. Again one may be full of pity and toleration of the faults of those one loves and absolutely inclorant one loves and absolutely intolerant of those one does not love. A man may be the most gentle man in the man and dear to him, and positively cruel to others. This is not the virtue of to others. true mercy.

MAKING JAM.

The primitive method of stirring, jam for hours while preserving it has given place to a more simple method which is not only much less difficult, but the fruit has a more natural fla-vor. Mash the fruit thoroughly with a wire potato masher, add the same quantity of sugar, pint for pint, and place in a granite kettle on the stove to boil. As soon as it has tho-roughly boiled it can be removed and the jars immediately filled and seal-ed. ed.
