

"I Want You to Have My New Portable Granary"

"I have a money-saving invention--- handy granaries to allow field threshing over your farm. Move them about each year. You save long hauls at harvest time. In spring you scatter small straw stacks---no burning of straw."

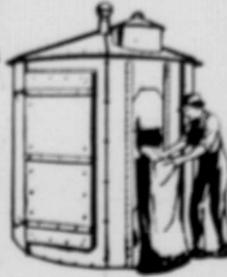

"These granaries come in compact bundles. A boy can set up and bolt one together in a few hours. Four padlocks protect the grain. Separator delivery into a spout on the side or into roof manhole---saves work during threshing. Your grain is protected from vermin, wet and thieves. Sell it when you are ready, loading direct from the granary into your wagon, or bagging it. No musty or heated grain. Get my granary and be independent of elevators for selling. Sell at the highest price, no matter how long you store your grain. The Pedlar Granary protects you."

CONCRETE ROLLER

ATLAS PORTLAND CEMENT

"THE STANDARD BY WHICH ALL OTHER MAKES ARE MEASURED"

Stick to Atlas. You don't want the concrete job you did this Spring different from the job you may do next Fall. Atlas Portland cement never varies. The same quality, the same fineness, the same binding power---last year---this year---next year.

As to quality---remember that the two biggest jobs in the United States are being done with Atlas---the Panama Canal and the Mississippi dam---and the quality requirements on both are severe.

Be Prepared!

Every stable should have a supply of reliable horse and cattle remedies on hand for emergencies.

Dr. Clark's White Liniment is valuable in a hundred and one ways. Read what Chas. W. Colvill, Clarkville, says:---"We used your Dr. Clark's Fire Blister on an old mare that was hardly able to get around. She was stiff and crippled with both sweeney and spavin; now she is running around fine. It is good stuff. Next time I go to town I am going to get some Dr. Clark's White Liniment and St. John's Horse Worm Powders."
