THE HAMPTON SCHOOL MEETING WAS LIVELY Trusiees Censured for Spending

Ratepayers Refused to Adopt the Report But Thanked the Board for All That Had Been Done

HAMPTON, Kings Co., Oct. 19,-In

the hall of the new Consolidated school

this morning at ten o'clock there had

assembled over one hundred of the ratepayers of the new school district No. 2 in the parishes of Hampton and rton, formerly known as Districts No. 2 and 3, Hampton, and No. 8, Norton. The meeting was called by Inspector Steeves upon the order of the chief superintendent of education, Dr. J. R. Inch, as "the annual meeting," a term repudiated late in the morning by Mr. Otty as incorrect, this being the organizing meeting of the new district. For an hour before the meeting the people roamed through the ms and expressions of pleasure at the ample provision made for carryon the work of education in an -to-date manner were freely given by those who for the first time saw hew thoroughly the work of the temporary board had been carried out. Captain Percy B. Belyea was called to the chair and J. M. Scovil was secretary. The latter read the report of the temporary board of trustees, which included extracts from the minutes of the board of education, showing the union of the Village and Station Districts, and subsequently the inclusion Hendricks district, so as t bring the new arrangement under the provisions of the act establishing con-solidated schools. In much detail the report showed the course pursued in the selection of a site, and all the following incidents of their work, un til the appointment of the governme quota of the permanent board of trus tees, and the calling of the presen meeting to ratify what had been done to elect the two members required t upon the amount of money to be as sed on the consolidated district f

the purposes of the current year.

The following synoptical statement covers the financial side of the report Expenditures, Cost of land and grading ..\$1.570 grounds...

them as collateral. The bonds were sold privately par, and the ordinary commis were thus saved. The rate of interis 41/2 per cent. After all the details had been clea

set forth, a motion was made to ad the report. This was most vigorous opposed on the grounds that pled and been given that the districts I power to elect their trustees-all them if they so decide—that the tricts were to be asked to decide the extent, style, and cost of the posed building when the site was cured, and that the estimated limit been set at \$11,000. Now, without sulting the people, the government dragooned one district into the un and deceived the others, taking people by the throat, as it were, saying, "You must pay." These th ere very vigorously set forth in mated addresses by F. M. Sproul, W. Smith, George Stratton, Mr. honey, C. A. Frost, Wm. J. Br and others, and as vigorously

Messrs, Otty, Lloyd, Scovil, S. Flewwelling and others tried to the tide, but on the motion to adop report being put it was turned by a vote of 28 to 13.
