

OTIS BEATON KILLED IN A WILD RUNAWAY

Man Well Known Here Meets Horrible Death—Married St. John Girl

Miss Christie, who resides at the home of Signal Master Morton Custom House, last night, received a telegram from New York, telling of the death of Otis Beaton, broker and real estate agent, which is well known in St. John.

The telegram was as follows:

NEW YORK, Feb. 8—Otis passed away at 5 o'clock, accident, **MRS. BEATON.**

Mrs. Beaton is the daughter of the late Captain Fred Pheasant, who was one of the best known sea-faring men in St. John. Mr. Beaton had paid many visits to this city.

Subsequently The Sun received the following wire from its New York correspondent:

Mount Vernon, N. Y., Feb. 8.—W. Otis Beaton, a New York real estate broker, with offices at 116 Broadway, and residing in Prospect Park, White Plains, is dead and Joseph Thornton, driver for Marshall's Livery is in the White Plains Hospital suffering from injuries he received this morning, when a team Thornton was driving ran away on Lexington Avenue Hill, and collided with a pole near Water street. Mr. Beaton sustained a compound fracture of the skull, and also had his right leg crushed between the knee and hip, and died at 5 o'clock. Thornton was badly cut and bruised. After the horses of the coach broke from the wagon, they kept on and at the corner of Mott street collided with a wagon of the White Plains Bakery Company, and the driver, N. F. Shelichman was thrown out and he received a five inch cut over the right eye.

Every morning Mr. Beaton was brought to the Harlem Station by a rig from Marshall's stables, and this morning Thornton went for Mr. Beaton as usual. Everything went well until the team was turned down the Lexington Avenue Hill, when for some unknown reason the horses started to run and Thornton was unable to hold them. They dashed down the incline across Post Road narrowly missing a trolley car, and several automobiles and carriages. Then the horses finally ran into an electric light pole, and the coach tumbled. Mr. Beaton was thrown out and crushed between the wagon and the pole, while Thornton was thrown twenty feet into the air, and landed against a picket fence. The coach was a complete wreck. The wheels were torn off, while the top was hurled twenty feet from the point of the smashup.

ARE YOU READY? IS DR. CHAPMAN'S QUERY

Rouses Bangor Audience to High Pitch—A Splendid Chorus

BANGOR, Me., Feb. 8—"And there went over a ferryboat to carry over the King's household," from Second Samuel, was the text which Dr. Chapman took at the night meeting in City Hall Tuesday.

Dr. Chapman gave many illustrations and told many stories illustrative of people of all sorts and conditions who, when the time came to go over the ferryboat, were ready, were not afraid. His sermon was short but directly to the point, which in part brought out by the question:

"Are you ready?"

Mr. Naffziger sang a number of particularly beautiful hymns and the latter part of the session was taken up with a song service. A chorus, "Fasten Your Eyes Upon Jesus," was written and the music composed by the talented pianist, Robert Harkness and after being tried over by the chorus, was sung with great effect by the whole congregation.

MISS DREXEL TO MARRY A SON OF ENGLISH EARL

Her Fiance is Guy Montagu George Finch-Hatton, Viscount Maidstone—His Names End There for the Present

BALTIMORE, Feb. 8—Announcement that Miss Margaretta Armstrong Drexel, only daughter of Anthony J. Drexel, of Philadelphia, is engaged to Guy Montagu George Finch-Hatton, Viscount Maidstone and heir to the earldoms of Winchelsea and Nottingham, was contained in a cable message received here to-day by relatives of Mrs. Drexel.

The news came from London, where the Drexels maintain a magnificent residence, and where for several seasons Miss Drexel has been prominent in the inner circles of English society. Since her presentation to court by the Duchess of Connaught in 1907 Miss Drexel has been one of the most popular and sought after beauties.

Recently it was reported that her hand had been sought by Prince Francis Joseph, second son of the Duke and Duchess of Braganza, whose eldest son, Prince Miguel, last September married Miss Anita Stewart, but the report was promptly denied. Miss Drexel was one of the witnesses at the marriage of Miss Stewart, who is her first cousin.

A year and a half gossip had it that Prince Christopher, sixth son of King George of Greece, was a suitor, and before that it had been freely whispered in court circles that Prince Francis of Teck had been anxious to wed the beautiful Philadelphia.

The family into which Miss Drexel is to marry dates back to the reign of King Henry I. It is descended from the same ancestor as the Herberts, Earls of Pembroke. The first of the family to obtain a title was Sir William Finch, who was knighted by King Henry VIII for distinguished services in the French wars. The Earl of Winchelsea was created in 1621, and its first holder was Lord High Chancellor of England. Viscount Maidstone, Miss Drexel's fiance, was born May 18, 1885, and was educated at Eton and Oxford. He is a lieutenant in the Royal East Kent Yeomanry. His father, the thirteenth Earl of Winchelsea, succeeded his brother, the twelfth Earl, in 1891. He has an older sister, but his only brother is dead. The residence of the family is Harlech, Merionethshire.

Miss Drexel's brother, Anthony J. Drexel, Jr., recently became engaged to Miss Marie Louise Gould, daughter of George J. Gould.

TWO GROUPS HAD THEIR FULL FORCE AT WORK MONDAY EVENING

Noted Evangelists Make Their Appearance in Main St. Baptist Church and Fairville Baptist Church—Great Enthusiasm Prevails—Other Meetings Held

Monday night's meetings in connection with the great evangelistic campaign demonstrated very clearly the strength of the organization with which the churches propose to work. The people in most of the groups were well aware of the fact that the evangelists would not be present. In spite of that there were no slim audiences, and no dreary services. The big central churches where the people ordinarily sit in stiff and dignified silence were filled with men and women eager for the work in hand. The work of the musical directing and sometimes amusing. These men know what they want and they seem to know how to get it. The people usually regard their demands in you will stop to think about their value. The value of one man's life was estimated as great as that of a twenty-five million dollar expedition to Abyssinia, but what is one man's life to the worth of an immortal soul? There is nothing in all the world equal in value to a single soul.

There was a man in Georgia who appreciated the value of a soul. So much had he those of a certain group of men upon his mind that he arose from his bed one night and traversed the city to a certain place in front of the home of each, thus to pray burningly for the saving of those who lay asleep within. Need I tell you that there were many conversions among those men?

If there is any one among the officers and members of the churches here who has the burden of a soul upon his conscience, I think it may be saved soon. I don't think that you and I would be here tonight if we did not care for souls. Not to care for souls is criminal. But we must remember the cry, "None cared for my soul." That shows what they are craving. Go to them; let them know that you are there.

AT ST. ANDREWS.
St. Andrew's Church was well filled last night with an attentive gathering, who listened with close attention to an interesting and moving address by Rev. F. A. Robinson. At the beginning of the service it was announced that as Dr. Gray and Mr. Allen, who were to have been in charge of the service, had been delayed by a blockade on the railway and would be a day in reaching the city, Mr. Robinson would again take charge. The absence of the speaker was regretted, but it did not prevent the congregation from appreciating to the fullest the thoughtful address given by Mr. Robinson.

The speaker took as his text the words, "A name which is above all other names," and said in part:

"There are men who do not believe on the Bible, who ridicule the virgin birth of Christ, or the vicarious atonement, or other doctrines, but apart from what you believe you cannot deny that Jesus Christ is the highest type of human life."

He read an unbelieved who said that Christ's instruction to love your enemies was not reasonable, but admitted that if followed it would produce an ideal state of society. He is absolutely impossible," he said, to deny the power of Jesus Christ. If you could see the homes which have been transformed by the name which is above all other names you would find a reason for doing so.

When Jesus comes into homes where there are discords and unhappiness He will straighten out all the tangles. There are beautiful, yet not homes because of the lack of love. At the close of the regular service a half-hour prayer meeting was held, for hymns already becoming more familiar to the people and the hymns were sung with great heartiness.

AT CENTENARY.
At Centenary the service was held in the auditorium of the church, it having been found that the attendance was growing too large to be accommodated in the school room. Dr. McCall was the speaker of the evening. Dr. Sykes who is to be the evangelist permanently attached to the Centenary group had already reached the city. Dr. Sykes is expected to arrive in the afternoon and will have charge of the service.

AT FAIRVILLE.
The meeting in Fairville Baptist church was attended with much success. Rev. Lawrence Greenwood and Aubrey Peters, who have been assigned to the group, were present and made a very favorable impression. The church was crowded and the people showed great enthusiasm and interest in the campaign by the attention with which they listened to the words of the speaker and the enthusiastic way in which they joined in the choruses.

The meeting opened with prayer by the pastor, Rev. G. A. Ross, who introduced the speaker and musical director and formally turned the meeting over to them. After the singing of the campaign hymn Rev. Mr. Greenwood gave a most Scriptural lesson when the address of the evening was rendered. Mr. Greenwood chose as his subject "Revival Meetings." Just at the time when everything seems blackest, the said, was the time to do God's work. There was need of a revival all over the country at the present time. Because a minister had a well filled church was no reason for him to suppose that his work was complete as there were more people outside of God's church than there were in it. To fight God's battles all forces must be united. Rich and poor must unite in this great fight against the wickedness of the world. When one body starts the fight all classes should unite and rush to the scene of action. The most necessary attribute to the success of the simultaneous evangelistic campaign was prayer. A good way to get results from the campaign was to bring the subjects to the meetings. In movements like the present one the churches were always crowded with people who were earnest Christians. The campaign was not intended for those, but for those who were living lives of sin, and if they could not be induced to attend the meetings the movement would have been in vain.

Head Bookkeeper Must Be Reliable
The chief bookkeeper in a large business house in one of our great Western cities speaks of the harm coffee did for him.

"My wife and I drank our first cup of Postum a little over two years ago, and we have used it ever since, to the entire exclusion of tea and coffee. It happened in this way:

"About three and a half years ago I had an attack of pneumonia, which left a memento in the shape of dyspepsia, or rather, to speak more correctly, neuralgia of the stomach. My 'cup of cheer' had always been coffee, or tea, but I became convinced, after a time that they aggravated my stomach trouble. I happened to mention the matter to my grocer one day and he suggested that I give Postum a trial.

"Next day it came, but the cook made the mistake of not boiling it sufficient, and we did not like it much. This was, however, soon remedied, and now we like it so much that we never change but Postum, being a food beverage instead of a drug, has been the means of curing my stomach trouble. I verily believe, for I am a well man today, and have used no other remedy.

"My work as chief bookkeeper in our Co's branch house here is of a very confining nature. During my coffee-drinking days I was subject to nervousness and 'the blues' in addition to my sick spells. These have left me since I began using Postum and I can conscientiously recommend it to those whose work confines them to long hours of severe mental exertion."

"There's a Reason."
Look in page for the little book, "The Road to Wellville."

These women are only a few of thousands of living witnesses of the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases. Not one of these women ever received compensation in any form for the use of their names in this advertisement—but are willing that we should refer to them because of the good they may do other suffering women to prove that Lydia E. Pinkham's Vegetable Compound is a reliable and honest medicine, and that the statements made in our advertisements regarding its merit are the truth and nothing but the truth.

Provident Fund Board Elections

300 I. R. G. Employees Voted in St. John Yesterday

The novel voting for the election of Intercolonial employees to the Provident Fund Board of the railroad was yesterday conducted here and along the line between this city and Moncton.

As provided by the statute governing the fund, a special train sped from Moncton at seven in the morning and arrived here at twelve o'clock noon. From that time until three o'clock the employees at the Island yard polled their votes, after which the cars proceeded to the depot, where voters went on from four o'clock in the afternoon to eight in the evening. Three hundred railroad men voted here.

There are six candidates for the positions on the board. They are Philip C. Began, chief clerk; John H. Cochran, conductor; John A. Fraser, machinist; Willard C. Hutchinson, train dispatcher; James W. Nairn, engineer, and W. Millidge Thompson, conductor.

Mr. Thompson and Mr. Nairn are the present employees' representatives on the board. According to report, however, Mr. Nairn is not likely to continue as such for he has opposed moves for superannuation and has changed to such an extent as to draw on himself the strong disapproval of his fellows. Mr. Thompson is likely to be re-elected. He, Mr. Cochran and Mr. Hutchinson are running strong for the positions, but it will be some time yet before the result is known.

The voting will occupy a month or more. It was commenced on Feb. 1st, and so far only Moncton alone has been covered. The car left here last evening with No. 10 express and will now cover Nova Scotia, going thence to Montreal. The tale will be all in on about March 3rd.

OPENING REVIVAL SPEAKERS

Mr. Powke (St. John) was an accuser of the government. He concluded by only way to meet his claim. He said that the naval parliament was an accuser of the government. He concluded by only way to meet his claim. He said that the naval parliament was an accuser of the government.

There is no medicine so universally used in the family for biliousness, headache and stomach troubles as Dr. Hamilton's Pills. Refuse a substitute for Dr. Hamilton's Pills of Mandrake and Butterick. See the best all dealers, or The Cataract Co., Kingston, Canada.

Nothing except food is so essential to the maintenance of health as regularity of the system. Neglect this, and the certain result is pimples, boils, bad blood, dark rings under the eyes, and a host of ailments. Those who neglect regularity have headaches, languor, listlessness, despondency and live short, unhappy lives.

It is both a duty and a necessity to use medicine to make the system active. The old-time idea of "letting nature take its course" is a dangerous one. It is a duty and a necessity to use medicine to make the system active. The old-time idea of "letting nature take its course" is a dangerous one.
