WOMEN LABOR
IS UNIVERSAL
THRU GERMANY

Empire in Wartime Has Be-
come Dependent Upon
Its Females

Rotterdam, Netherlands, Oct. 19.
(Correspondence of The Associa-
ted Press)—The German Empire, to
some extent, has become dependent
upon women's labor, due to a Ger-
man correspondent of the Nieuwe
Rotterdam Courant. In the hospitals,
at railroad stations, in shops and in
offices, even in the most responsible
positions, the work is principally
done by women. In even first-class
restaurants girls and women have
replaced the waiters. The traveller
who enters a hotel encounters a por-
ter in long skirts, who carries with
his hebeasts as quickly as before.
Street traffic is largely in the hands
of the women. Women conductors,
drivers and inspectors are dressed in
the uniform of their male colleagues
but with skirt or bloomers.

Passengers meet with better treat-
ment than was the case with the
male staff. On the railroads women
are serving in booking offices, as
guards on the trains, or porters.
Letters and telegrams are delivered
by women and girls. Most of the few
automobiles are driven by women.
But the main work of women is
in the factories. The skilled work
has now more and more passed into
their hands, as well as carrying of
heavy loads. At the turning bench,
at the furnaces, everywhere they are
met with. Their wages at 7 or 8
marks a day are equal to men's earn-
ing for like labor. They work in
blue smock frocks and bloomers with
a sort of sailor's cap or cloth on
their heads, with black hands and
rolled-up sleeves; and in the meal
hour they are more and more to be
seen in the streets, even with bar-
bells, for stockings are a superfluity
in factories, at the furnaces and
such like occupations.

The results of women's work in
the mining industry are termed very
satisfactory. The sorting of sweep-
ings, old iron and brass, the un-
loading of freight-cars, is performed
by woman's hands and arms, and a
newcomer, as aimed at the way in
which she clambors about and lifts
and shoulders loads. In agri-
culture, women have always supplied
auxiliary labor, but now also do the
heavy work like mowing, plowing
and threshing.

Dress has naturally been brought
into accord with the new work. On
the railroads, and partly on the
street cars, skirts have been re-
placed by bloomers and gaiters, and
beribboned and feathered hat or cap
or headcloth. But there is a sailor's
collar for the uniform jacket, a
flower in the buttonhole, the jacket
is open at the neck, the cap is worn
in slanting fashion, a watch-chain is
fastened on the breast, a bit of lace
adorns the sleeves.

HOLLAND HAS
MIDAS TOUCH

Netherlands Are Obtaining
More Money Than They
Have Use For

The Hague, Netherlands, Oct. 19
(Correspondence of The Associa-
ted Press)—The position of Holland
is beginning to show an uncomfort-
able resemblance to that of Midas,
at whose touch everything turned
into gold. In stead of the urgently
needed goods, more and more gold,
not to mention \$200,000,000 worth
of credit paper, has been sent to
Holland by her belligerent neigh-
bors.

This is far more than she can em-
ploy, with the result that the gold
stocks of the Netherlands Bank have
quadrupled since the outbreak of
war amounting now to some \$265,
000,000. This means that the cen-
tral bank's directly callable liabilities,
in the form of bank notes and
current account balances, are back-
ed by gold to the extent of 77 per
cent., which compares with only 17
per cent. in Germany.

"But of what use are our big
gold reserves," Hollanders are be-
ginning to ask, "if our productive
capacity is being more and more re-
duced, ever more business is being
brought to entire or partial
standstill for lack of raw materials
or coal, workmen dismissed, the
supply of foodstuffs cut off, and our
colonies, one of the nation's main-
stays, likewise hard pressed by the
prevailing circumstances?"

If he need further evidence that
the world has turned upside down,
the Hollander may find it in the
curious fact that his normally
much-coveted gold is declined with
thanks in Sweden, whole gold ex-
ports to Spain, are impossible on ac-
count of the obstacles in the way of
shipment. The unpleasant result is
that the Swedish exchange has risen.
Holland's exports thither are too
small to balance her imports from
Sweden. Nothing would appear
more logical than to pay in gold for
the excess imports, but the Swedish
Bank refuses to accept it.

From practically the commence-
ment of the war the Swedish govern-
ment has taken the standpoint that it
wants roads paid for in roads, the
population needing foodstuffs and
other necessities rather than gold.
Hollanders are beginning to keenly
feel the strange limitation which has
been placed on the powers of gold.
Holland's huge gold debt, which
stood at \$440,000,000 before the
war, has nearly doubled in the past
three years. The added burden
amounts to date to \$326,000,000. It

New Method of Applying
the Law is Followed with
Close Interest

Ottawa, Oct. 19—Legislators are
following with unusual attention the
work of the Military Service
Council, a non-partisan body, in ex-
plaining to the Canadian people the
provisions and operation of the Mil-
itary Service Act. This is the first
time in Canadian history that such
a method of placing a law in opera-
tion has been adopted, with every
newspaper and magazine in the
country carrying the message to
the citizens.

HEAVY MEAT EATERS
HAVE SLOW KIDNEYS

Eat Less meat if you feel Backache
or have Bladder trouble
No man or woman who eats meat
regularly can make a mistake by
flushing the kidneys occasionally, says
a well known authority. Meat forms
uric acid which excites the kidneys,
they become overworked from the
strain, get sluggish and fail to filter
the waste and poisons from the blood
and then we get sick. Nearly all
rheumatism, headaches, liver trou-
ble, nervousness, dizziness, sleep-
lessness and urinary disorders come
from sluggish kidneys.

The moment you feel a dull ache
in the kidneys or your back hurts,
or if the urine is cloudy, offensive,
full of sediment, irregular of pas-
sage or attended by a sensation of
scalding, stop eating meat and get
about four ounces of Jad Salts from
any pharmacy; take a tablespoonful
in a glass of water before breakfast
and in a few days your kidneys will
act fine. This famous salts is made
from the acid of grapes and lemon
juice, combined with lithia, and
has been used for generations to
flush and stimulate the kidneys, al-
so to neutralize the acids in urine so
it no longer causes irritation, thus
ending bladder weakness.

Jad Salts is inexpensive and cannot
injure, make so delightful efferves-
cent lithia-water drink which every-
one should take now and then to
keep the kidneys clean and active
and the blood pure, thereby avoiding
serious kidney complications.
