WE HAVE THE PROPER SPOT NOW

Hantsport Advance

A move is again on foot to secure a water supply for the town. Some years ago a strong effort was made for such a service and then it was proposed to bring water from Davison Lake, a distance of eight miles.

Now a gentleman of the town, one who has the best interests of Hantsport at heart, has, gratuitously, taken the time to make a careful survey of a stream three miles away and is confident that it is just what we want.

Being near Hantsport, the cost of laying pipe, etc., will be much less than the first proposed location, and well within the finances of the town.

Mr. Tyrod—It's much more torturing when she doesn't know it.

Do you attend any cre-lene to the theory that men are developed from monkeys? said Willie Washington.

I rather think that some are, said Miss Gusher. The others appear to have remained stationary.

Protruding, Itching Piles

Rev. S. A. Duprau, Methodist Minister, Conson, Prince Edward County, Ont., states:—"I was troubled with itching and bleeding piles for years, and they ultimately attained to a very violent form. Large lumps or abscesses formed, so that it was with great difficulty and considerable pain that I was able to stool.

"Now, imagine how great and joyous was my surprise to find that just the one box cured me, so that the lumps disappeared, and also the external swelling. I feel like a different man to-day, and have not the least doubt that Dr. Chase's Ointment saved me from a very dangerous and painful operation and many years of suffering. You are at perfect liberty to use this testimonial as you see fit for the benefit of others similarly afflicted."

Dr. Chase's Ointment.
