INTERNATIONAL LESSON NO. 111. APRIL 15, 1906

Jesus' Power Over Disease and Death—Luke 7:11-17.

Commentary.—I. The centurion asks aid of Christ (vs. 1-5). II. The day after—Soon afterwards.—R. V. Much people—Jesus was now reaching the height of His popularity. 12.—The gate—Nearly all towns and villages were surrounded by walls as a protection. Carried out—With the exception of kings, all burials were outside the city. Much people—Here was a large company of mourners. Main is approached by a narrow, rocky path; there was only one entrance to the city; the two processions met on the western slope of the hillside. 13. Had compassion—He did not wait for her to ask for help, for probably she did not know him. Her needs and sorrows were her silent prayers. The fact that this youth was 'the only son of his mother' and that she was a widow would convey to Jewish notions a deeper sorrow than it even does to ours, for they regarded childlessness as a special calamity, and the loss of offspring as a direct punishment for sin.—Farrar. Weep not.—The large company came to weep with her.

14. Touched.—Here again, as in the case of the leper, our Lord sacrificed the mere Levitical ceremonialism, with its rules about uncleanness, to a higher law.—Farrar. Bier.—Jewish coffins were open, so that the dead could be seen; but in the case of the poorer classes there would be no coffin, but merely a board supported by two poles on which the dead would be laid. I say—Life and death are controlled by the will of this "I." Arise.—At last death has met its Master! It is the same voice that shall hereafter awaken not one, but all the dead. The Lord of both worlds, who holds the keys of death and of Hades, has spoken.

15. Began to speak.—Which proved that he was fully restored to life. To his mother.—But such a miracle would have a far deeper significance than the temporary concealment of a mother. This miracle teaches us I. That there is a life beyond that of the soul continues to exist when separated from the body. 2. That Jesus is the source of immortal life (John xi. 25, 26)—in fact, of all life. 3. That we shall hold our identity in the other world—the same persons, only "changed."

16. Came a fear.—A sense of solemnity and reverential awe. Glorified God.—The miracle was witnessed by a large company of people, and they all recognized the hand of God on the one who could perform such mighty deeds. Great power.—The Jews were at this time expecting Elijah, Jeremiah, or one of the great prophets to appear. 17. This rumor.—It appears that the report of this miracle spread throughout all Palestine; it reached the ears of John the Baptist, who was imprisoned as Castle Macherus.

For Thin Babies

Fat is of great account to a baby; that is why babies are fat. If your baby is scrawny, Scott's Emulsion is what he wants.

The healthy baby stores as fat what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every ungentle touch. They delight in Scott's Emulsion. It is as sweet as wholesome to them.

THE SCLATER MURDER TRIAL.

Detective Says Mrs. Sclater Made a Clean Breast of It.

One of the most noted, successful and richest men of this century, in a recent article, has said, "Whatever I am and whatever success I have attained in this world I owe all to my wife. From the day I first knew her she has been an inspiration, and the greatest helpmate of my life."

Three Rivers, Que., despatch (Special).—Most important and telling was the evidence given this morning in the Sclater murder case by ex-Constable Beaulieu, for it was the most terrible evidence that has yet been given during the whole trial. If effect, the constable stated that Mrs. Sclater had made a clean breast of the whole affair to him, intimating a conspiracy to kill her husband; that she had told him McCraw told her on the fatal Sunday that he was going to kill Sclater, and when she demanded that this would involve her also, he had told her not to be afraid, as he would be the one to suffer, but that in any event he had so arranged things that it would look like suicide. During Beaulieu's recital Mrs. Sclater sat in the dock with lowered head, hidden behind the desk, but evidently weeping violently.

Beaulieu was closely cross-examined by Mr. Greenfield, but stuck to his story with great exactness. The defence was expected to be quite short, but to-day's developments may alter the course of the trial considerably.

Toronto Live Stock. Receipts of live stock since Tuesday, as reported by the markets, were 74 calves, consisting of 117 cattle, 1113 hogs, 130 sheep and 14 calves. The quality of fat cattle was none too good, taken altogether, too many half finished and too few good to choice lots. Trade was fair at Tuesday's quotations.

Exporters.—Outside of these exporters bought for butchers' purposes there would not be more than a couple of loads which sold at \$4.85 to \$5 per cwt. Export lots sold from \$3.50 to \$4.25 and a extra quality at \$4.30 per cwt. Butchers.—Choice picked lots of butchers' cattle under 1200 lbs. in weight, sold at \$4.75 to \$5.10 per cwt.; medium good at \$4.50 to \$4.75 per cwt.; medium at \$4.25 to \$4.50 per cwt.; cows at \$3.25 to \$4.10 per cwt. Feeders and stockers.—Mr. Murby reports a little better tone to the stocker and feeder market. Prices didn't advance any, but there were more looking for a price advance than had any quality sold recently. Mr. Murby bought about 250 head this week: one-half of these were feeders weighing from 250 to 1200 lbs., costing from \$3.90 to \$4.70 per cwt. Below are his quotations: Best short horns, \$5.00 to \$5.25 per cwt.; \$4.50 to \$4.75; medium short-horns, \$4.50 to \$4.75; best Jerseys, \$4.50 to \$4.75; medium Jerseys, \$4.25 to \$4.50; best Friesians, \$4.25 to \$4.50; medium Friesians, \$4.00 to \$4.25; common stockers, \$2.75 to \$3.

Bradstreet's on Trade. Montreal: There is rather a brighter tone to the trade outlook than was evident a week ago. Country retail dry goods men are likely to carry over heavier stocks than usual, and the chances favor heavier demands for credit than have been general. The outlook for spring trade, however, is so encouraging that no fear is felt in this regard. Cotton prices are very firm and there is some expectation of advances. The hardware trade continues active, there being a good general demand from all parts of Canada. Metal prices are firm. The grocery trade shows little change, with staple lines moving fairly well. Country remittances are generally fair and city collections show improvement. Winnipeg: The spring trade was somewhat delayed by the cold weather of last week, but there has been an improvement lately, and wholesale trade generally is now brisk in all directions. Price declines are noted in cut nails, Canada nails and many other lines. The spring trade is more active and the outlook for spring is bright. The hardware and ironmen's Spring trade is now showing well in all lines. Consignments by Provincial industries continue to create a good demand for wholesale lines, and particularly for hardware and hardware. The spring season for many goods is also moving

EARN CASH

In Your Leisure Time

If you could start at once in a business which would add a good round sum to your present earnings—WITHOUT INVESTING A DOLLAR—wouldn't you do it? Well, we are willing to start you in a profitable business had we don't ask you to put up any kind of a dollar. Our proposition is this: We will ship you the Chatham Incubator and Brooder, freight prepaid, and

You Pay No Cash Until After 1906 Harvest. Poultry raising pays. People who tell you that there is no money in raising chicks may have tried to make money in the business by using setting hens as hatchers, and they might as well have tried to locate a gold mine in the cabbage patch. The business of a hen is to lay eggs. As a hatcher and brooder she is out-classed. That's the business of the Chatham Incubator and Brooder, and they do it perfectly and successfully.

The poultry business, properly conducted, pays far better than any other business for the amount of time and money invested. Thousands of poultry raisers—men and women all over Canada and the United States—have proved to their satisfaction that it is profitable to raise chicks with the

CHATHAM INCUBATOR AND BROODER.

Yours is the first incubator I have used, and I wish to state I had 62 chicks out of 62 eggs. This was my first lot, truly a 100 per cent. hatch. I am well pleased with my incubator and brooder. Trus. McLaughlin, Chatham, Ont.

"My first hatch came off. I got 170 live chicks from 190 eggs. Who can beat that for the first trial, and so early in the spring. I am well pleased with incubator, and if I could not get another money could not buy it from me. Every farmer should have a No. 3 Chatham Incubator.—W. KANSAS, Dundas, Ont."

The incubator you furnished me works exceedingly well. It is easily operated, and only needs about 10 minutes a day to run. I have had 110 chicks from 110 eggs. J. McGuffee, Moose Jaw, Assa.

The Chatham Incubator and Brooder is honestly constructed. There is no humbug about it. Every inch of material is thoroughly tested, the machine is built on right principles, the insulation is perfect, thermometer reliable, and the workmanship is best.

The Chatham Incubator and Brooder is simple as well as scientific in construction—a woman or girl can operate the machine in their leisure moments. You pay us no cash until after 1906 harvest. Send us your name and address on a post card today.

We can supply you quickly from our distributing warehouses at Toronto, Brandon, Regina, Winnipeg, New Westminster, and all other points in Canada. Address all correspondence to Chatham, Ont.

SALOON KEEPER KILLED

HAD BEEN BEATEN TO DEATH WITH A BILLIARD CUE.

New York, April 2.—Fordham Spruecker, a saloon-keeper and a man of unusual strength, was found dead in his saloon on Trinity avenue to-day. He had been beaten to death with a billiard cue some time after 1 o'clock this morning. The place presented a scene of much disorder, tables and chairs being overturned and glasses smashed as if they had been used as missiles. The police believe that either revenge or hatred inspired the murder, since more than \$200 in cash was left untouched in the barroom of the saloon at regular intervals last night, finding it locked each time, and hearing nothing to excite his suspicions.

GIFT TO ST. MARY'S CHURCH. Unknown Friend of Old Country Forwards Fifteen Hundred Dollars. A Stratford despatch: Knox Church, St. Mary's, received surprise yesterday in the form of a gift of \$1,500 from an unknown friend in the old country. One thousand dollars goes to the organ fund of the new church, and the remainder to the Ladies' Aid Society. The donation comes as the result of a little missionary work on the part of Mrs. (Dr.) Matheson, St. Mary's, who while abroad last summer, told her friends how fortunate the congregation were in having the church formed three times. This donation reduces the debt on the newly erected church to about \$5,000.
