FRIDAY MORNING.

Moved by Mr. Ford, seconded by Mr. Keys, that 200 copies of the Municipal Laws on voting by ballot be printed for circulation amongst the several returning officers.—Carried.

The Report of the Road and Bridge Committee was read as follows:—

Your committee recommend that a by-law be passed assuming the Henfryn bridge as a boundary bridge, and that the sum of $300 be granted towards rebuilding it provided the County of Perth grant a similar amount, and that the County Engineer let the work as soon as notification is received from Perth that they will grant an equivalent sum.

With reference to the motion to put up a temporary bridge at Manchester, would recommend that no action be taken as the bridge will soon be finished.

We would recommend that the three bridges on the Ashfield Road, referred to in Mr. Armstrong's motion, be repaired or rebuilt if they are of the size and dimensions specified in the by-law.

As to the preparing of a by-law for maintaining a double track on roads during sleighing, we recommend that a by-law be passed for that purpose to apply to the Seaforth Road north to Walton and on the Road from Clinton to Blyth.

Would recommend that $200 be granted to the Township of Turnberry to repair Fisher's bridge, and that the Engineer be instructed to examine the locality between Fisher's and Graham's bridges for a suitable site for a bridge that would meet the requirements of all parties and report at the December meeting; also that the bridge between Hullett and McKillop be repaired or rebuilt, if a county bridge.

We regret to learn that so many of our bridges were damaged by the spring freshet, and we recommend that the Engineer use his own discretion in repairing the bridges he had reported on, and that he will attend to any bridge that is embraced in the by-law or under the jurisdiction of the County, to keep them in repair at least as far as the superstructure is concerned, without any special instructions from your committee or Council. In reference to Mr. Pope's claim on contract on bridge between Howick and Grey, we recommend that $30 be retained out of the contract price, and that Mr. Pope be paid the balance on condition of giving a receipt in full.

We regret that Mr. McVicar, in whom the Engineer had such confidence, should have erected such a miserable piece of work as the pier at Ben Miller bridge. We recommend that the pier be rebuilt, if the Engineer think it advisable, or that it would be suitable for a new superstructure.

We recommend that the Engineer's report be printed in the minutes for future reference.

THOS. SIMPSON, Chairman.

Council went into committee upon the above report, Mr. Girvin in the chair.

Moved by Mr. Gibson, seconded by Mr. Fisher, that the first clause of the report with reference to Henfryn bridge be amended by granting the amount recommended without assuming the bridge.—Carried.

Moved by Mr. Black, seconded by Mr. Hennings, that the 24th clause be amended by the rebuilding of Fisher's bridge at once.—Carried by a majority of five.

Moved in amendment that the amendment, by Mr. Wilson, seconded by Mr. Kelly, that the Engineer be instructed to build Fisher's bridge on condition that the Township of Turnberry agrees to give the people interested in Graham's bridge a satisfactory way to travel to and from church and school.—Carried by a majority of five.

The Warden resumed the chair when the report as amended was adopted.

A resolution was passed instructing the Clerk of the Peace to transmit a pair of handcuffs to each Reeve for the use of the constables, the Reeves to be held responsible for the safe keeping of the same.

Moved by Mr. Brown, seconded by Mr. Greenway, that this Council grant the sum of $100 to be expended on the boundary line between Lambton and Huron at the rear of Stephen, the County of Lambton to expend a similar amount. Referred to Finance Committee.

A number of motions asking for grants to make repairs and improvements on roads were referred to Finance Committee.

FRIDAY AFTERNOON.

The Finance Committee reported as follows:

Your Committee recommend that $100 be granted to repair the northern boundary line between Howick and Minto, the county of Wellington having granted a similar amount; that the petition of John Greaver, of Brussels, asking for reimbursement of lot sold for taxes and afterwards taken from him by the former owner whose expenses and price paid being $375, be not granted; but no action be taken in the matter of petition for compensation to John Chitrick, of Brucefield, who got his leg broken while crossing a temporary bridge over the Bayfield river, south of Clinton; that the $600 asked by the Town of Goderich as 6 months interest on the $20,000 to be paid for the Northern Gravel Road, from the time of purchase in December 1873, until the issue of debentures for said sum in July, 1874, be not paid.

We recommend that no aid be granted to assist the Huron Emigration Society to prosecute the work undertaken. Recommend that $450 be granted to Clinton and Goderich High Schools; that the Treasurer's suggestions, in reference to having an act passed to authorize the County Council to issue new debentures to meet road debentures amounting to $260,000 falling due on the 1st July, 1876, be carried out.

In the case of E. Squier vs. Corporation of Huron, plaintiff proposing to accept $160 and return of safe doors and payment of all costs so far, we recommend that it be paid without prejudice. With reference to the several motions asking for grants to repair roads, we recommend as follows:

$100 be expended on boundary line between this county and Lambton, at rear of Stephen, that it be not granted; $200 to repair road from Wroxeter station to Miller's tavern, that it be not granted; $200 to repair boundary line between Hay and Stanley, do; $300, on Bayfield concession from Turner's mill to Clinton, do; $400, on Lake Shore Road from Allan's tavern to boundary line, do; $300, boundary line between East and West Wawanosh, do; $250, between Blyth and Wingham, and $300, North of Walton 12 miles, do; Motion of D. D. Wilson, that for the keeping original County roads, &c., in repair, each Municipality through which such road passes shall spend, if necessary for its maintenance an average of——— dollars per mile each year, including statute labor, but should any more than that amount of——— dollars be required to maintain said roads, that the County Council shall pay the balance upon the County Engineer certifying that the municipality had spent the specified amount—on this subject we recommend that no action be taken; $200 on Base Line Road between Manchester and Clinton, be not granted; $200 to put in posts to prevent the slide on Dunlop's Hill, do; $300 on London Road through Exeter, do; $200 on gravel road between Clinton and Blyth, do.

With reference to the Treasurer's estimates of expenditure for the current year, amounting to $60,293, making the County rate very nearly 21-7 mills on the dollar, your committee regret the sum necessary to meet the current expenses could not be curtailed. Though about $5,000 less than last year, it is yet very large; and owing in part to the increasing number of boundary line bridges required to be constructed, repaired and rebuilt, it is found that unless the large expensive bridges be constructed so as to be more durable, the estimates must increase rather than diminish. We would recommend that the Clerk or Engineer ascertain whether durable iron bridges cannot be built at moderate cost, and report at the December meeting of this Council. Believing as we do that, had the Manchester bridge been built in a substantial manner it would have realized good for several years, we would therefore suggest that the County Engineer carefully watch the building of all bridges in every department of the work, and see that the contractors perform their work in a thorough and substantial manner.

With reference to the debentures maturing on the 1st of July, 1876, for the gravel road debt, amounting to $260,000, your committee recommend that the Warden and Clerk be authorized to petition the Legislature to pass an Act to enable the County to issue new debentures for the redemption of the above, payable either in England or Canada, or a part in each country in twenty years or [illegible]. Your committee would also suggest that the Treasurer communicate with the holders of the old debentures and ascertain whether they will accept for them at par new debentures due in 20 years bearing interest at 6 per cent. The Treasurer's sureties have been examined and found satisfactory. All which is respectfully submitted.

A. S. FISHER, Chairman.

The above report was read and adopted.

Moved by Mr Black, seconded by Mr Hennings, that at the next meeting of the Turnberry Council they shall pass a By-law to open the street on the south side of the Maitland river, south of Graham's Bridge to the south end of Fisher bridge, and as soon as a copy of the By-law is delivered to the County Clerk the Engineer shall advertise for tenders and let Fisher's Bridge at once on the understanding that the Council accept this as satisfactory. Carried.

Moved by Mr. Fisher, seconded by Mr. Hunter, that the local papers advertising County Council meetings and for examination of teachers, that they be paid $1 for each Council meeting and $2.50 for examination of teachers. Carried.

Moved by Mr. Mullin, seconded by Mr Watson, that this council do assume control and keep in repair all the County roads, as the same should be under the supervision of the county Engineer. Lost on a division of 14.

Moved by Mr. Leckie, seconded by Mr. Willson, that the small sum of $300 be granted to the 33rd Battalion for the annual rifle match. Carried.

Moved by Mr. Mullin, seconded by Mr. Armstrong, that nothing be granted for the rifle match to the 33rd Battalion. Lost on a division by a majority of 31.

EQUALIZATION OF ASSESSMENT.

The committee on equalization of the assessment report as follows:

Your Committee have carefully examined the assessment rolls of the various municipalities comprising the County of Huron, for the year 1874, and have also made careful comparisons between such rolls and those of 1875, which your committee are happy to say approach much nearer a correct valuation of the County than those of previous years, and the result of your committee's labors appears in the schedules hereto annexed. From these schedules it will be at once apparent that an increase, at first sight perhaps enormous, but yet in our opinion justifiable under the circumstances has been made in the equalized values over those assessed. Your committee believing that the only safe method of rendering equable, over the whole County, the assessment of the County rates is to tax such rates upon the basis of such actual rather than fictitious value, have proceeded as far as practicable upon this principle. We do not pretend to say that the equalization as made by us is the actual cash value of the County, but we believe that we approached such value as nearly as, with the material before us, the results of assessments in some instances more or less defective, was possible. The result has not been reached we can assure you, without careful and laborious consideration, and while we do not expect that all the municipalities will be satisfied, we think we have reason to hope that the majority will concur with us in the opinion that our desire to do evenhanded justice has been accomplished.

While complimenting the various municipalities upon the great advance towards honest assessment, as apparent from the rolls of 1875, we yet deem it our duty, to still further secure this most desirable end, to remark that there is yet room for considerable improvement in this direction in several instances, particularly in East Wawanosh, Morris and Turnberry.

We have committed from the schedule relating to Township municipalities several columns of the form adopted and used during recent years. We have not distinguished, for instance, between cleared and uncleared land, a distinction, now that wood land has become so valuable, more nominal than real. Nor have we shown the increase of the equalized over or under the assessed value. The totals are in each case given, and each increase or decrease is therefore mere matter of calculation, quite open to the curious, upon the face of the schedule. These changes have considerably lightened the labors of your committee, without in any way, so far as we can see, impairing the usefulness or completeness of the result arrived at, and we hope will meet with your approval.

STATEMENT OF THE RESULT OF EQUALIZATION OF THE ASSESSMENT ROLLS.

Municipalities.	Area.	Rate per acre.	Total value of land equalized.	Personal property as equalized.	Total ass'd value.	Total equal. ized value.
[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]

The following table gives the equalized value of towns and villages:

TOWNS AND VILLAGES.

	Real.	Personal.	Total.	60 % of ass't.	Eq'lized value.
Goderich	$902,453	$113,530	$1,015,633	$609,379	$1,050,000
Clinton	367,916	89,350	457,266	274,349	450,000
Seaforth	165,665	35,850	201,515	120,909	400,000
Exeter	93,665	11,700	105,555	63,333	220,000
Brussels			138,835	83,301	220,000
Wingham	110,360	7,220	117,580	70,548	250,000
Wroxeter				88,556	120,000
Total equalized value of towns and villages					$2,720,000
" " of townships					25,414,623
Grand total					$28,134,623

J. T. GARROW, Chairman.

Council went into committee of the whole, Mr. Shannon in the chair.

Moved by Mr. Creswell, seconded by Mr. Hunter, that the report of the Equalization Committee be not adopted as in many points it is at variance with every principle of justice and fair play, but that the equalization of 1874, as made by Judge Toms be the equalization of the present year with the exceptions of the Townships of Ashfield and East Wawanosh, which shall each be reduced one half dollar per acre, and the village of Wroxeter have the equalization of the present year. Lost on a division by a majority of 10.

Moved by Mr. Girvin, seconded by Mr. Gaunt, that the value of West Wawanosh be reduced one dollar per acre. Lost on a division by a majority of 30.

Moved by Mr. Simpson seconded by Mr. Snell, that the report be amended by raising the township of McKillop $4 per acre. Upon the names being called, there voted for the amendment Messrs. Willis, Walker, Creswell, Simpson, Ford, Elliott, Fisher, Keys, Snell, Monteith, Mullin, Gaunt, Miller, Hunter, Girvin, Armstrong, Young, Malloy, 18. For the report Messrs. Shannon, Hays, Slemmon, Gibson, Wilson, Garrow, Strachan, Brown, Gidger, Leckie, Watson, Greenway, Willson, Potter, Sweetnam, Cooke, Wilson, Parsons, Hennings, Black, Taylor, Proctor and Kelley, 23. The amendment was lost by a majority of 5.

Moved by Mr. Simpson, seconded by Mr. Snell, that McKillop be raised $3 per acre. Lost on division by a majority of one.

Moved by Mr. Keys, seconded by Mr. Simpson, that the report be amended by reducing Stanley $2 per acre. The names being taken the amendment was lost by a majority of 16.

Moved by Mr. Armstrong, seconded by Mr. Mullin, that one half dollar per acre be struck off the Township of Ashfield, being a reduction of $32000 off the whole Township. Lost on a division by majority of 29.

Moved by Mr. Creswell, seconded by Mr. Simpson, that Usborne, Stanley, Colborne, Hullett, Goderich and Tuckersmith be each reduced $1 per acre. Upon the names being called the amendment was lost by majority of 12.

Moved by Mr. Willis, seconded by Mr. Greenway, in amendment to the report, that the Township of Usborne be reduced $1 per acre.—Lost on a division by a majority of 22.

Moved by Mr. Willson, seconded by Mr. Kelly, that the report be amended by reducing the village of Wingham $25,000, and Brussels $20,000.—Lost on a division.

Moved by Mr. Sweetnam, seconded by Mr. Willson, that the report be amended by reducing the acreage of the Township of Howick 451½ that being the amount taken out of the township and incorporated in Wroxeter.—Carried.

The Warden resumed the chair.

Moved by Mr. Fisher, seconded by Mr. Simpson, that the report of the equalization committee as amended be adopted.—Carried.

SATURDAY MORNING.

Moved by Mr. Strachan, seconded by Mr. Shannon, that the Engineer be instructed to have the toll house and gate posts removed off the gravel roads immediately as authorized by a minute of this Council passed at the December meeting.—Carried.

By-law No. 7 equalizing the assessments was read and passed.

By-law No. 8 for raising the County rate was read and passed.

By-law No. 9 to make a double track in the winter upon certain roads in the county was read and passed.

Moved by Mr. Wilson, seconded by Mr. Creswell, that the Registrar of the County make out a Schedule of all the sales that take place after this date during the year 1875 in the several municipalities in the County, provided the Warden and Clerk can make a favorable arrangement with regard to cost of said schedule, such schedule to be employed by the equalization committee of 1876.—Carried.

By-law No. 10 to establish a public Fair in the village of Brussels was read and passed.

Council then adjourned to meet again on first Wednesday in December next.

CLINTON AND VICINITY.

From the *New Era*.—A man has been going around Clinton during the past few days soliciting alms, using as a recommendation to the charity of the people, a paper signed by the name of the Rev. T. Brock of this town. The man represents that he is suffering from dumb ague, and while asking assistance, acts as if his "ague" were dumb indeed. He is an imposter, and the signature of Mr. Brock is not genuine.

A few days since, as Mr. Geo. Fulton and a few others were engaged on his farm on the Bayfield Road, they were suprised to hear a bullet whistle past them and fall among a flock of geese a few feet distant. The bullett was that of an Enfield rifle, and is supposed to have been fired by some one target practicing at Atholcott Range, a distance of about three quarters of a mile.

One day last week, Mr. H. Young, collector, Goderich township, who had been suffering sundry losses among his fowls, set a trap and succeeded in catching a very large owl which at some former time received severe injury, as one wing was three feet long and the other only two feet six inches.

At the raising of a building on Mr. Mountain's farm, Londesboro, on the 21st, Mr. E. Manning had a narrow escape from being killed. As he was in the act of pulling under a rafter, he lost his balance, and then made a catch for a brace which was not properly put in its place; he was obliged to jump to save himself, but we are glad to learn that he will soon be able to leave his bed.

On Monday morning last as Mr. Arthur Cantelon, of the 7th con., Goderich township, was driving along a road, accompanied by his wife and child, an accident of a painful nature occurred. On coming to a hill, Mr. Cantelon and the child alighted, allowing Mrs. Cantelon to drive alone. When part way up the hill, the collar, in some manner, choked the horse, causing it to stumble and overturn the buggy, Mrs Cantelon falling underneath, and being dragged alone some distance before she could be released. She was found to have received several external injuries, but fortunately no bones were broken. Dr. Dowsley was called in, and did all in his power to relieve her sufferings. Hopes of her recovery are entertained.

During the heavy lightning storm on Friday, June 11, the lightning struck a valuable horse, belonging to Mr. Wm. Mulholland, of Hullett, killing it instantly. The horse was worth $150.

On Friday last, the horse of A. Sweet, fish pedlar, from Bayfield, took a run through town, with shafts and two wheels attached, which caused quite a sensation for a short time, from the narrow escapes experienced by two or three parties. The horse was standing opposite Knox's hotel when it commenced kicking, smashing the dash board and separating the front wheels from the rest of the body, with which it ran a short distance down the Huron Road, and then turned and ran towards Mr. Coats' store, before which stood a woman and a little girl, whom every one that saw the affair thought could not escape serious injury; but fortunately the horse turned without touching them, and at the same time became freed from part of the shafts and wheels, and soon was stopped without further injury. On the same day a pony and buggy belonging to Wm. Mason, of the Base Line, in which were two young ladies, ran away, throwing the ladies out, fortunately without much injury, but considerably damaged the buggy before its mad career was stopped.

CONFESSIONS OF A VICTIM.—PUBLISHED AS A WARNING and for the benefit of YOUNG MEN AND OTHERS who suffer from NERVOUS DEBILITY LOSS OF MANHOOD, VITAL POWER, etc., giving his rules of *Self-Cure*, after much suffering and expense, and sent free on receiving a stamp for return postage. Address NATHANIEL MAYFAIR, P. O. Box 153, Brooklyn, New York.

We shall be glad at all times to receive items of local news, reports of meetings, accidents, or any incident of interest either in the locality where it occurs or to the county at large. Such matter may be sent at the rate of one cent per oz. if marked Printer's Copy and not sealed. To ensure publication in any particular issue it should reach the office not later than Monday evening.

GODERICH, JUNE 30, 1875.

Important Sale.

We would again draw the attention of our readers to the public Sale by Auction of the handsome and substantial brick residence of the late J. B. Gordon, Esq. The grounds are beautifully laid out, are stocked with the choicest fruit trees and possesses a vinery comprising the finest varieties of grapes. To persons desiring a first class residence this is a rare oppportunity to secure one. The sale takes place at the Rooms of G. M. Trueman, Auctioneer at NOON to-day (Wednesday).

Tory Consistency.

The principal cry with the Opposition party during the late election campaign was the extravagance of the present government. Every means was taken to represent the finances of the Province in the most unfavorable light, and unscrupulous manipulation of figures was restored to for that purpose. In comparing the expenditure of Reform administration with that of Conservative administration no notice was taken of the progress of the country, and the expenditure of eight and twelve years ago were compared with that of later years, —as if the country had been in a Rip-Van Winkle dose during a long period and progress had been at a stand still—to show that the Reform government had been extravagant and were unworthy of public confidence. The sense of the public was keen enough, however, to penetrate the sham arguments, and the policy of the government received a hearty support from the electors. Our Tory cotemporaries are still pursuing this line of inconsistent argument and fall foul of every action of the Parliament. How they ridiculed the pensioning of the veterans of 1812 because the sum voted for their benefit was found not to be a fortune for each individual; how the government has been abused for not spending money on a "wild cat" railway scheme to Fort Garry; the dress of our volunteers has been held up in ridicule of the penurious nature of the administrators and they have been twitted on innumerable occasions for not spending money where in Tory wisdom it was deemed it should be poured out lavishly so as to furnish a better pretext for abuse.

How different will be the tune when another election takes place. Will not the present Government be "the most corrupt that ever cursed a down-trodden country;" they have spent money and allowed it to run from the treasury like water; wont the term of swindler and black-leg be too good to be applied to Reform representatives; wont they be too depraved amongst honest politicians to be worthy of trust? We may rest assured that the Tory press will say all this of Reformers, affirm it—and substantiate it by fabricated evidence. It is said

"Sweet are the uses of adversity."

But the misfortunes of the Tory party belie the statement and instead of being taught patience and charity, the tone of the press would indicate that their temper is sadly soured and can bear nothing with patience except a daily repast of abuse and political scandal.

Political Notes.

The election in Monck on the 22nd, to fill the vacancy caused by the unseating of Dr. Haney, the Reform representative in the Local House, has resulted in the triumphant return of Dr. Haney. This result was fully anticipated by all parties.

Mr. James Fisher has been nominated by the Reformers of North Perth as a candidate for a seat in the House of Commons. The nomination was of an enthusiastic character, as Mr. Fisher is very popular throughout the County.—He is a prominent lawyer having graduated from the office of Hon. Edward Blake, and is a man possessed of a superior education. His prospects of success are very encouraging, since his agreeable manner and general intelligence has won for him much esteem and will secure for him support from many of the opposite party.

An appeal against the decision of Hon. Chief Justice Draper in the Halton election case, has been argued in the Court of Error and Appeal. Objection was taken to the evidence of the Robins family by Mr. Blake, counsel for the appellant, and affidavits were filed discrediting the veracity of the family.—Decision was reserved, but it is believed the judgment of Justice Draper will be reversed.

The trial of the North Middlesex petition has been postponed until December, in the absence of certain witnesses.—The London election case was closed on Thursday, the judge dismissing the petition with costs and confirming Mr. Meredith in his seat. Some of the evidence looked very damaging, particularly in the case of one Knightly who visited a voter for the purpose of influencing him in behalf of Meredith and gave him small sums of money to buy beer and pressing him to keep the change. This person's agency was disproven, on the ground that agents having been appointed only to canvass certain wards and Knightly having been furnished with the authority of an agent to a certain district he was not deemed an agent in any other ward, and this act having been performed out of his own ward the respondent was not responsible therefor. This looks a little like hair-splitting and leaves a loophole of escape which the framers of the Election Act did not anticipate.

Mr. McCallum, Conservative, lately unseated in Monck, has been again elected, defeating Mr. Edgar by a majority of four votes. There were 42 rejected ballots, and the official announcement was delayed and it was expected by some that Mr. Edgar would be elected. However, his gain since the last election is gratifying. Mr. McCallum's majority has fallen from 35 in the last election to the paltry majority of four. This deserves to be placed amongst the list of Conservative "moral victories."

Yankee Audacity.

Our cousins across the line are noted for enterprise, shrewdness and cool effrontery. We are pleased to accept the occasional flattery they may bestow upon us and our institutions, as a young and promising nation would naturally do with pleasure from a bigger and further advanced people, but occasionally our Yankee neighbor gives way to his vanity and talks of out-lying countries as plots of ground to be seized upon and added to the "Great United States" when his Yankee Excellence may please to do so. This spirit does not represent the feeling of the entire population of the country, but there is a large portion who think their country stands out sight above every other country on the face of the earth and when they speak the rest of the world may stand from under. Canada has been ill-treated by its neighbor, but a sense of justice possesses a portion of the press, and our interests have been advocated honestly in matters of negotiation between the two countries. The iniquitous violation of the Washington treaty by the imposition of a heavy tax upon canned fish has been cried down by a goodly number of papers in terms none too mild for such a scandalous breach of national faith.

Our progress has been marked closely, as the language of one of the New York papers indicates, and with a flattering mention of our increasing importance and the increasing clearness of the picture of our great future, the New York *Evening Express*, one of the "spread eagle" organs, thus settles our destiny:

"The nine or ten provinces may, under the fostering care of England, become a rival Confederacy to our own, and well connected with railroads. Already it is called by the French *La Puissance du Canada*, which means something more than a dependency. The late Sir George E. Cartier also gave it that designation, intimating to his political friends that the Dominion might in time become an independent country with an English Prince at its head; and it really seems as if this scheme were being quietly but persistently carried out. The English and Germans are noted for persistency in any scheme they undertake, and whether it be Disraeli or Hartington, this scheme on our continent will be realized, if our Government should not step in to prevent it; that is, if peace should continue to favour the enterprise; but much depends upon the relations between our Government and that of England, for there is no doubt of our ability to stop this well-laid scheme by seizing the North-West Territory, thus severing the connection of the Colonies and isolating the Pacific Province from the rest, which would give us the Island of Vancouver. A Democratic Administration may be in power when this scheme of creating a monarchy is maturing, and it may see fit to veto the little game."

How truly thankful we should be to our self-constituted guardians for thus kindly arranging definitely our future career, and so generously giving gratuitous service in settling our little affairs. But the country which has but lately grown to covet our prosperity will find itself vetoed in its little game of compulsory annexation and be taught that though we pay but slight attention to their bombast, an agressive movement on their part will call forth an unmistakable expression of public sentiment.

OBITUARY.

On Sunday last, William Torrance Hays, Esq., died of congestion of the liver, at his residence at Goderich. For some time past his health had been very poorly although he was able to be moving about, and his sudden death caused surprise.

Mr. Hays came to this County when five years old, his father settling in the Township of McKillop. His father was for many years a member of the County Council. The deceased studied law with M. C. Cameron, Esq., and after graduating followed the legal profession in Goderich for a number of years with great success. He was elected to the Council Board on the first occasion of his sitting with that body by a very flattering vote, and he continued in the position of Councillor for a number of years, until elected to the position of Mayor, which office he held for three years. In 1867 he ran in the Conservative interest, in opposition to T. Gibson, M. P. P., for North Huron and was elected, representing that constituency for four years. In the next succeeding election he was defeated, by Mr. Gibson, and in 1871 he was appointed Registrar for the North Riding of Huron. In this capacity he officiated for three years, until the abolition of the office when the Government granted to him the amount of $7,000 as compensation for the sacrifice of the position.

The deceased was captain of the first Rifle Company formed in Goderich, which the oldest residents well recollect was a crack company in its day. Mr. Hays was a genial, sociable and intelligent man, and but for the fatal disease which ended his life, might have lived to occupy a still higher position than he had yet attained, as he was still in the prime of life. He was 37 years and 10 months old at the time of his death. He belonged to the Order of Oddfellows, and stood high in the society. The members of that order attended the funeral on Tuesday, together with a large concourse of friends and relations.

EVERY PERSON was surprised on Friday to read the announcement in the *Daily Liberal* that the last issue of that journal had appeared. The publishers announced that this step was made in order to escape being involved in financial difficulties by continuing the uphill work of building up a newspaper of its dimensions in the midst of the general depression which prevails in the country. None seemed to suspect such an event, as the paper was generally accepted as a solidly established journal. Few expressed pleasure as its death and many regret to bid farewell to the neatly printed, spicy and honest journal, and its absence will create a blank in the catalogue of the daily press which but few would believe so recently established a journal could fill. It is to be regretted that so promising and laudably conducted a paper—it was certainly a model—should thus early cease to exist; but we shall hope the good principles of journalism which it inaugurated will continue to be regarded by the press generally. *Requiescat in pace.*

LOCAL NEWS

SCHOOL CLOSING.—The High School closes for the summer holidays to-day.

FAN FOUND.—The lady who dropped a fan on East Street, on Monday morning or Sunday evening last, may have it by applying at this office.

BLOWN DOWN.—The large bill-board between the British Exchange and Williams' barber shop was blown down on Thursday by a sudden gust of wind.

COURT OF CHANCERY.—A sitting of the Court of Chancery will take place in Goderich, on Friday, 12th November next. Vice Chancellor Proudfoot will preside.

GROCERIES cheaper than ever. Trull & Field have determined to sell the whole of their large stock of fresh Groceries and Liquors at a small advance on Cost for cash or farm produce. Give them a call before purchasing elsewhere.

A VALUABLE DISCOVERY.—Recently while workmen were boring for water at the Point Farm, a strong sulphur and magnesia spring was struck. This will prove a valuable acquisition to the other attractions of the Point Farm, and will be fully utilized by the enterprising proprietor.

PERSONAL.—Hon. Malcolm Cameron, M. P., gave us a call last week. His visit here was partly on business and partly on pleasure, and he was a guest at the wedding of Miss M. Kay and Mr. Anderson.

—Last week we had a visit from a brother chip, Mr. Ernest A. Hempstead, editor and proprietor of the *Journal*, Meadville, Pa. He is travelling for the benefit of health, and seems very much pleased with Canada.

WEST RIDING AGRICULTURAL SOCIETY.—At a meeting of this society held at Rick's Hotel (late Bingham's), on Tuesday of last week, the prize list was revised, and the days of the show were named, 5th and 6th of October next.

GOOD RYE.—Mr. Gordon Young, of Colborne, has sent us a few stalks of rye just headed, which measures 5 feet 2½ inches in length. The stalks were not picked, and the grain is uniform height. Who can beat that?

FOREPAUGH'S CIRCUS.—The grand *entree* of this exhibition will be made this morning. The ground, selected is that in rear of the old circus ground, on the Huron Road. Mr. Stephen Andrews has got the contract for supplying the animals with meat.

HERRING FISHING.—A school of herring has been cruising around the head of the piers the last few days. Friday and Saturday proved good days for fishermen and decidedly unfortunate ones for the poor herring. Quite a large number were caught with hook and line.

PROPERTY SALE.—We understand that Messrs. Henry Wells and Wm. Potts have purchased from the estate of the late Sheriff McDonald 10 acres of the flat lying above the Maitland bridge on the Colborne side, for $1000. It is the intention of Mr. Wells to erect a brewery upon this spot.

THE ARMY WORM.—From Bayfield we learn that this worm has stripped a large number of trees of foliage and even eaten the tender branches. The Malloy farm in Colborne at present unoccupied, has had its orchard completely stripped of leaves and fruit.

PAINFUL ACCIDENT.—An accident of a rather serious nature occurred in the saw mill in Walton on the morning of the 22nd. A young man named John Connors, while engaged in cutting lath, his right hand, by some means, came in contact with the saws, completely severing the thumb and almost cutting the hand off. The wound dressed very successfully, and it is believed the hand will be saved.

DOMINION DAY.—The arrangements are all completed for the celebration of the day, and the programme freely circulated throughout the town and neighborhood gives all the necessary information. The propellor Benton will make excursions on the lake, and excursions from Brantford, Stratford and intermediate points have been arranged for by way of the Grand Trunk Railway. With the many attractions provided there is no doubt this will be one of the grandest gatherings of visitors that the town has ever seen.

MAYOR'S COURT.—Mathew Mathieson was brought before the Mayor on Monday on a charge of being drunk and disorderly. Fined $2 and costs. Abraham Wilson was discovered by the night-watchman on Saturday evening slightly bewildered and having four dead hens on his person. He was taken to jail and on Monday was tried, on the charge of stealing the hens from Mr. T. J. Moorehouse, and was committed for trial. A charge of making way with a pick-axe is also pending against him.

BOY DROWNED.—A sad case of drowning occurred near Hilliard's mill, on Wednesday afternoon last. Two brothers, sons of Mr Hezekiah Hale were fishing above the old dam standing on a narrow ledge at the foot of the steep cliff which skirts the river at that point. Stephen, the boy who was drowned, had caught a fish and in taking it off the line he turned suddenly about and struck his arm against the rock, lost his balance and fell into the water. The bank is quite perpendicular and the water is deep, and the boy in his struggles drifted from the shore. His brother tried his best to save him by reaching a pole to him, but the assistance proved futile. Twice the poor fellow sank out of sight, and on rising the last time he turned his face towards his brother on the bank and cried out "good bye, Willie," and sank out of sight. The coopers who were working in the shop a short distance away hearing Willie's shouts for assistance, rushed to the spot but only in time to aid in recovering the body, which was taken out of the water a short time after sinking the third time. The lifeless form was taken to the residence of the parents, from whence had gone but a short time before a sprightly boy in all the vigor of youth to return a corpse.

UNION MEETING.—A meeting of a very interesting character took place, on Monday evening last, in St Andrew's Church, to celebrate the union of the different bodies of the Presbyterian Church. The audience was small, which fact was owing in a great part to the short notice given of the meeting. Mr. Wm. Kay was called to the chair, and after devotional exercises, Rev. R. Ure was introduced. In a short address he referred to the great event which had recently been consummated in Montreal which united the strongest religious body in the Dominion. It is now the largest in point of numerical strength, comprising 100,000 church members and about 600,000 adherents; but no boast was made of this fact, since all recognize that churches, like truth are to be weighed and not numbered. Viewing the union in the importance of its numbers we became aware of the fact that the event was pregnant with great issues and that a great future lay stretched before it. The united Church had set out under favorable circumstances, congratulated by other bodies upon the happy consummation of the new relationship; and although holding a preference for a denomination, the spirit which prompted and carried out the union makes the response of "God bless them," hearty and earnest.

Rev J. Seiveright and Rev. C. Fletcher next followed with short but impressive addresses, expressive of the important nature of the union. The church had now really commenced its proper work, and it was the duty of every member of it to lend every assistance towards more closely cementing the bond of union and extending its influence, and to pray for the hastening of the day when every christian denomination would unite in a universal church. Our limited space precludes the more lengthy report which we would desire to give of this interesting meeting which we much regret. The choir of Knox's Church under the able leadership of Mr. Henry Horton, was present and ably supplemented the interest in the addresses by their excellent singing. We shall give fuller reports of the addresses next week.

POINT FARM.—On Dominion Day, the pleasure yacht "Tommy Wright" which is "itself once more," will make regular trips to the Point Farm.

PRESBYTERY MEETING.—The first meeting of the Huron Presbytery, after the union, will take place on Thursday next, at 11 a. m., in the basement of Knox's church.

THE GREAT SHOW.—Don't fail to see it at Crolts & Johnston, where a magnificent collection of Tweeds, Coatings, Dress Goods, &c. are on exhibition. Admission free to all the different departments. A splendid view of the procession can be had from our stores.

STRAWBERRY FESTIVAL.—Our readers will please note that a strawberry festival in aid of the Mission Sabbath School will take place at the Y. M. C. A. rooms on Thursday next, Dominion Day, from 9 a. m. to 1 p. m. and from 7 to 10 p. m. Admission free, cake, strawberries and cream, 10 cents, music will be furnished by the choir. All who desire to see the good work prosper, should make it a point to be present.

INSTALLATION OF OFFICERS.—The officers elect of Maitland Lodge, A. F. & A. M. were installed at the Lodge room by Worshipful Master I. F. Toms, on Thursday evening last. The party shortly after the ceremony was over, adjourned to Hooker's hotel where a bountiful and tempting repast was prepared in Mr. Hooker's usual excellent style. A very pleasant evening was spent, and the party enjoyed themselves until a late hour.

FAREWELL SERMON.—Rev. J. Graham preached his farewell sermon on Sunday evening last to a large congregation. The sermon was very impressive, and was listened to with deep attention. Mr Graham and family leave town to day to take up their residence in London. Rev. Mr. Henderson will conduct service in the North Street church on Sabbath next. No provision has yet been made for holding service in Brock street church, since Mr. Nugent's departure.

GREATEST BARGAINS EVER OBTAINED.—During the past week excellent bargains have been obtained by our citizens at Downings old stand. Mr. John O'Donohoe is engaged selling off a large bankrupt stock of dry goods, boots and shoes, &c., to wind up the affairs of a recently bankrupt wholesale firm in Quebec. This sale will continue until the whole stock is disposed of, and as the goods are going off very rapidly our citizens should at once take advantage of this opportunity to get goods at low figures. Every article is warranted genuine or the money refunded. This is a rare chance for working men and mechanics. ADVERTISEMENT.

THE WEATHER AND CROPS.—The recent wet weather has proved very acceptable and beneficial to growing crops. Farms and gardens were beginning to show the effects of the dry hot air. The hay crop has suffered much from lack of rain and in this locality is very short; but the other crops look exceedingly well and fruit is particularly promising. The potato bug is beginning to manifest his devastating presence with a vengeance. Paris green has a powerful effect upon them, but the poison penetrates the leaves of the plant and becomes infused into the sap and effects the health of those who eat the potato. A cheap and safe remedy is to mix 1 pound of lime, 1 pound of sulphur with 4 gallons of water and sprinkle the plants. The bugs partake of this greedily and die in a short time.

SEAFORTH AND VICINITY.

The congregation of the Methodist Church in Seaforth presented their pastor, Rev. C. Lavell, M.A., who is about to leave them, with a well filled purse accompanied by an address.

Mr. F. Seegmiller, with his family, left town on Tuesday last. Mr. Seegmiller has purchased a fruit farm near the town of Goderich, and intends cultivating fruit of all kinds on an extensive scale. Mr. Seegmiller is an enterprising, go-ahead business man, and while we much regret his removal from Seaforth, we trust that his new business may prove abundantly remunerative, as well as satisfactory to him.

A very severe accident happened on Friday evening of last week to a young man by the name of Thomas Smith, who works in Mr. Van Egmond's carding mill, by which he nearly lost his left hand. It seems that he was cleaning one of the carding machines, when by some means or other he got his hand caught in the wool "pickers," and it was terribly lacerated, the teeth of the machine going right through to the bone tearing the flesh completely off his hand, and nearly severing it from the arm.—*Expositor.*

(From our own Correspondent.)

DISEASE.—Scarlet fever and measles are still "doing" the township of McKillop. No deaths yet.

ACCIDENT.—Joshua Russell, near Winthrop, met with an accident in the woods, by which he believed his leg was broken. Dr. Campbell was sent for, who upon examination found the leg badly bruised, but not broken.

A CUT FOOT.—Mr. Harry Hart, of McKillop, cut his foot, but not seriously, on the 20th inst.

ACCIDENT AND INQUEST.—A sad accident happened on the 24th inst., on the 8th con. of Tuckersmith, by which Wm. and Robt. Papple lost their lives. It seems they had been digging a well and had reached a depth of 52 feet on the 23rd. They had inserted a blast in the rock, which did not go off. On the evening of the 24th, William, the eldest, went down to ascertain the reason, and when about 20 feet down he cried to his brother to draw him up, which he did at once, but when about 15 feet from the surface he fell out of the bucket. Robert then called to a man on the road to come and let him down into the well, which he did, but when within three feet of the top Robert also fell out of the bucket. Information was laid before Dr. Campbell, of Seaforth, coroner, requesting him to investigate the sad affair, and an inquest was held the same evening at 6 o'clock, the verdict of the jury being that both persons came to their death from fracture of the skull, caused by a fall, and that the cause of their falling was the accumulation of carbonic gas in the well. They were both buried the following day, the funeral being one of the largest ever seen in Tuckersmith.

EXETER AND VICINITY.

From the *Times*.—On Monday evening last, as Mr. John Hanley was assisting in moving a barn in the vicinity of Bethesda, a hay-knife, which was sticking unobserved in one of the beams fell, cutting Mr. Henley's left ear almost off and gashing his face.

On Tuesday evening last, Mr. G. Tapson of Stephen was in his stable attending to his horses, when one of them, a vicious brute, attacked him in the stall, knocking him down, and trampling upon and kicking him in a horrid manner. Some of his ribs were broken and his face badly mangled.

A few days since, Mr. Thos. Werry, of Usborne, sold a splendid "Scotch Miracle" colt to a gentleman in Tuckersmith for the very handsome sum of $500.

On the night of the 17th Kilpatrick's woolen mill in Exeter was burned.—About two o'clock in the morning Mr. Kilpatrick's daughter told him she thought the mill was on fire, and he rushed out to find that the corner of the mill farthest from the engine was in a blaze. He immediately dashed in a window, and tried to enter, thinking to save some of the wool nearest the door, but was immediately hurled back by the smoke and flame, which were now spreading with great rapidity. So inflammable was the material, and so greedily did the fiery fiend devour it, that, in half an hour from the time the fire was first seen, it was all consumed. The loss will be over $3,000; insurance about $800. It was caused either by an incendiary or by one of the many stragglers who are now prowling around, having taken rest on some waste material under the mill, and lighting his pipe.

WINGHAM AND VICINITY.

IMPROVEMENTS.—Mr. Inglis' woolen factory is rapidly approaching completion, and it is expected to be in running order by the 1st of July. Mr. L. J. Brock and Messrs. Scott & Bell are busy preparing their separate establishments for work, the former erecting a saw mill and the latter fitting up the furniture factory.

UPSET.—The Harriston "pop wagon" was upset the other day in attempting to make a too sharp turn. Most of the bottles were empty, and a number of them were broken.

FINED.—Jas. Thompson, who by his furious driving, upset a buggy in which Messrs. R. Willson, Reeve, and A. Bolen were seated and throwing them both out, was fined $40 for his carelessness.

PRESENTATION.—Rev. Mr. Bowers of Wingham circuit, being about to remove to another field of labor, was on the evening of the 22nd made the recipient of a handsome address and purse amounting to $27, as a token of esteem and respect from the friends in and around Belgrave.

LUCKNOW AND VICINITY.

PAINFUL ACCIDENT.—On the 15th inst., Mr. Hugh McKenzie, 4th con. of Kinloss, was digging a pit to bury a stone 2 ton weight, and had it about 5 feet deep, when the stone rolled in on top of him. It struck his shoulder and crushed him to the ground. He lay in this position for about an hour, and when taken out Dr. McGregor attended him and he is recovering.

NARROW ESCAPE.—On Tuesday, 22nd inst., Thos. Little, son of Mr. Joseph Little of this place, was going out to his work on the railway track and whilst passing over the bridge a short distance out of town, the stick he had in his hand caught, and he was thrown over. He jumped and lit on the track and a gigger coming along at the moment passed over his body, breaking his collar bone, and otherwise badly bruising him. He is recovering, but the wonder is that he was not instantly killed.

WARNING TO BOYS.—On Tuesday evening, 22nd inst., a son of Mr. Denoon, about 6 or 7 years old, attempted to get on the back of a passing waggon, without a box on. It is thought that in doing so his foot caught in the wheel and got caught between it and the stake of the waggon. His screams at once attracted the attention of the driver, who stopped the horses immediately, but the leg could not be taken out until the wheel of the waggon had to be taken off. The poor little fellow suffered terribly, and is fearfully mangled, though the leg is not broken. Several stitches had to be put into the flesh, which had been torn off the bone.—*Sentinel.*

Communications.

We wish it to be strictly understood that we do not hold ourselves responsible for the expressions of our correspondents.

"Point of Beauty."

FOUR MILES NORTH OF GODERICH.

This manificent point, bluff and bay has been, with great taste and wisdom selected by "Joe Wright," formerly mine host of the Huron Hotel, for a summer resort for health, peace and ease seekers in Canada and the United States. He purchased over 300 acres, that his guests might have a great range, endless variety and great freedom. The land is in itself a fortune, every foot of the farm being of very superior quality; his barn, stables, &c., are good, and the grand park where the hotel is placed is made lovely by a fringe of shrubbery on the edge of the bluff, which Joe has carefully preserved by a neat fence, ornamented by a railed platform for stump speechifying, where political and clerical visitors may be seen from 4 to 5 a. m. practicing with great energy the roar of the wave or the calm music of the lake on the gravel, as the wind may be at the time, reminding one of Demosthenes of old—and really many of them would be better of a mouth full of stones. In the gully leading to the lake and at one or two other points in the fields are water tight bowers where visitors can sit and sing themselves into perfect oblivion of business.

The hotel is *sui generis*, a speciality of Joe's fertile brain—230 feet long, three stories high with veranda 14 feet wide and a broad stair leading to the tower, from which, as also from every northern window you see two bays of the lake, Clark's Point and Lighthouse. The lovely bay formed by the "Point of Beauty" is one of the most picturesque on Lake Huron, bounded on the south by the Goderich pier. There is very good water for drinking and a fine mineral spring, recently discovered in boring for spring water. This spring is sulphur and magnesia, and is aperient, and would in itself build up a watering place.

But, to return to the hotel—there is, in addition to the grand veranda, a hall 14 feed wide in the rear and the full length of the house. The rooms are airy, well ventilated and very clean, and has telegraph office, and mail brought out twice a day. The accommodation is easy for 250 guests, and the whole Dominion does not possess a watering place so beautiful, so accessible, so near a town of 5,000 inhabitants, good gravelled roads in every direction and railroad and steamboat facilities for leaving every day.

But the presiding spirit is, of course, Joe himself—no ordinary man nor of ignoble blood. The famous Mr. Spurgeon was the successor of Joe's father, who after superannuation came to Canada. Mr. Wright is, in fact, a farmer, and one of the advantages of his house is an unlimited quantity of milk and cream. [There is a paragraph here which we would like to read to Mr. Wright himself, as it interests him personally, and being advice from a high authority might be very acceptable.—ED.] Joe gets much good advice.—Some say who come to live by the lake 'we want to see it—cut down that wood."—Another says "when we come to live in the country we want woods—why did you cut down so much, Then he gets letters from every place in the Union, enquiring,

"How is your house situated—is there a water fall?"

"Yes," says Joe, "when it rains."

"Have you music?"

"Yes," says Joe, "when it thunders."

"Have you solitary walks?"

"Yes," says Joe, "the beach—10 miles each way."

The truth is everything is reasonable, —horses, carriages, bathing houses, good doctors and soothing syrup to keep an hundred children quiet—all can be had of Joseph Wright, Esq., Point of Beauty, Lake Huron.

P. S.—Mr. Wright is sensitive. He has a big brass field piece, and he salutes the Northern transportation lines regularly. Not one of the reporters or scribblers who write of Sarnia, Goderich, Saugeen, the Sault, and Thunder Bay ever notice the Point of Beauty or the polite salute from the brass field piece—one of the very guns that saluted the Prince of Wales.

P. Q.

BAYFIELD.

MARINE.—Arrived. scow Snow Bird, Capt. Vasey, from Toledo, with 200 tons of coal for the dredge.

THE HARBOR.—The first crib for the new pier was sunk on Saturday.

THE NOBLE ART OF SELF DEFENCE.—The young men of the village are about to start a boxing club, for which purpose they have been around collecting lately, and have had no difficulty in raising the funds to buy gloves, &c. The idea is a good one, as Bayfield is becoming quite notorious for pugilistic encounters, several of our merchants having been indulging in that innocent amusement lately, but as a little more science is requisite with them, no doubt this club will have a beneficial effect.

NEARLY SUNK.—A little stir was created on Sunday morning about 3 o'clock, by the dredge being found rapidly sinking owing to a leak. Fortunately however, it was discovered in time, (but only just in time to save her), and a number of men were at once engaged to bail till such time as the water was low enough to start the steam, as the grates had been entirely covered.

A Song for Dominion Day.

Written in 1867.

A song for the proud and stately bark,
Now gallantly launched to sea,
A song for the flag that floats above—
The standard of the free.
Now gallantly launched to sea, boys,
All staunch and sound and brave,
'Mid rocks and shoals and breakers,
To stem the ocean wave.

Chorus—Hurrah! for the proud and stately bark
Now gallantly launched to sea;
Hurrah! for the flag that floats above—
The standard of the free.

A song for the brave and noble crew,
All hearts of British oak—
Our fathers bore that flag, of yore,
With Nelson, Howe and Broke.
Then run it aloft to the royals,
Let Fenian and foeman see—
Hurrah! for our good ship CANADA,
Hip, hip, boys—three times three.

A song for the New Dominion, boys,
A giantess at her birth,
She'll write her name on the page of Fame,
'Mid the brightest names of earth.
A song for the broad majestic floods,
Her forests of tow'ring pines,
The wealth of her fertile fields above,
Beneath in her golden mines.

And when we shall muster our crew, boys,
From stormy Labrador
To where the sun bids earth farewell,
On Columbia's golden shore.
When millions shall crowd our deck, boys,
Our standard still shall be,
"The flag that's braved a thousand years"—
The standard of the Free!

—*N. R.*

BRUSSELS AND VICINITY.

From the *Post*.—The only signs of animation to be seen now in this locality are people rubbing mosquito bites.

On Monday evening a number of young people in connection with the Methodist Church of this place met at the parsonage, and presented their esteemed pastor Rev. R. Davey, with a handsome study chair, costing $16, and an address expressive of the regrets of the congregation at having to soon bid farewell to their pastor. Mrs. Davey was also made the recipient of a handsomely bound volume of the *Sunday Magazine*.

On Wednesday last a son of Mr. John Long, con. 13, Grey, was run over by a loaded waggon, and narrowly escaped death. As it is he is under medical care but considered out of danger.

Wm. Duke, 12th con., Grey, met with a distressing accident on the 19th, while returning from the field where he had been working with his team. One of the horses kicked him in the face, breaking his jaw and knocking out some of his teeth. His eyes were also seriously injured.

A disgraceful row occurred on Turnberry street, a few nights ago, growing out of an old feud existing between a family named Durnion and one Hector McLean. In the fight a disinterested party, in endeavoring to separate the three Durnions from McLean, was badly beaten and a little boy, who was watching the melee was struck by a stone on the jaw. A constable stood by and watched the affair through.

Mr. John McPherson, lot 28, con. 4, Grey, killed a wild cat on the 22nd inst., which had killed a number of his sheep. The animal measured 3 feet 8 inches from tip of nose to tip of tail and weighed 38 lbs.

TORONTO HOUSE.

MISS M. MILLER

Has just received and is still receiving a New Stock of

MILLINERY,

Of the latest Spring Styles,

HATS, BONNETS, RIBBONS, FEATHERS, FLOWERS, LACES, &c., &c.
