Important!

Sir Robert Bond is in town to-day and we hope tomorrow to publish an important announcement from him.

The Tories Are in the Depths.

The depths of despair into which the members of the Morris-Morison nation regard the probability of Sir Robert Bond leading the united Liberal and Union forces may be judged by their tactics. They tried to move heaven and earth to prevent any arrangement being made. They cir- and affords a measure of the despera culated the story that Sir R. Bond was not in sympathy with the aims of the F. P. U. They told the public that Sir Robert Bond would not touch the President of that organization. They circulaed slanders about the proprietor and editor of The Evening Telegram with the obvious aim of fomenting differences between Sir Robert Bond and ourselves. They teld the people that there was a

that even if a merger was effected. Sir Robert Bond would not lead and Mr Kent, Mr. Clift and others would leave the party. All of these stories are absolutely fabricated from falsehood. They are stories woven with intent to deceive. There is not a grain of truth in them. The relations between Sir Robert Bond and ourselves have all along been of the most cordial and confidental character. Sir Robert Bond has been in sympathy with the

Main Alms of the Fishermen's Pro-tective Union.

For the past two years he has advised all the fishermen, particularly of his Luten burg own district to join the Union. The same sympathetic attitude has not only been shown by Sir Robert Bond nd Mr. Lloyd but by the other memand Mr. Lloyd but by the other mem-ers of the party who are declared to be dissatisfied. There is not nor has here been any difference between hem. There never has been any in-ningency. All these stories are fictions irculated to keep up the spirits of the members of the Morris-Morison party, who are down in the dumps. The publication of the appeal of the

the Union showed how far the Tory rumour-mongers had been out of their reckoning. Then began the base and slimy sectarian appeal. A lying falsehood was spread that Mr. Coak-

had agreed to establish non-sectarian schools. Mr. Cowan and Mr.

was brought out and wrested from its purposes and made to do duty to bolster up a rotten cause. To give further support to these dirty tactics, a notice of motion 26 years old was trotted out. How rotten this sectarian cry is may be seen from the fact that after this notice of motion, Sir Robert Bond was the head of the department of education for some sixteen or seventeen years and during the whole of that time maintained our system of vas brought out and wrested from i denominational schools. As we stated a day or two ago, and we state again. It is not part of the F. P. U. policy to change that system. It is no part of the policy of the Liberal Part to shange it.

Editor Evening Telegram.
Sir,—The editorial in this morning's News, which Donald Morison controls, News, which Donald morison controls, is really beautiful. It contains enough to make people put Morison in the back country where the timber grows and furnishes the key to the political ethics that Boss Morris believes in. ethics that Boss Morris believes in.
The News says don't displace "the business-like administration of Sir Edbusiness-like administration of Sir Edward Morris and his colleagues" to put in men "who have failed to display in opposition any of the talent for statesmanship necessary to govern."

Let us ask the Daily News how many talents has Donald Morison; and did he hide them all under a napkin, and how many has he left in his pockate or in his head?

Tory proof that Morris always refused to be a creature of circumstance? It can easily be furnished, no doubt. But when Morris issued his manifesto in 1908 he must have had some qualms in a Tory way. He then said he would take no salary as Premier. Did Morris realize that a good many

and how many has he left in his pock-et or in his head?
What is Donald Morison? He is a lawyer of thirty years standing and Boss Morris made him Minister of Justice. He told us he has been advising timber people about their tim-ber grants for twenty-five years. And yet when he became Minister of Jus-tice he told Sir R. Williams that he forgot the timber law—the timber law that he has been advising people in forgetting the law: Morison is lawyer for R. W. Strong, the timber omoter. Everybody knows who ald Morison. Strong goes to Boston trying to sell 14,000 square miles of timber land in which Morison had a big interest. Morison wrote Strong a letter—the Orange Bay letter—not as Minister of Justice, which he was at hat time, but as simple Donald Morison. He asks Strong to get a purchaser for this other timber in Orange Bay, White Bay. And he told Strong that a purchaser could cut away on the timber on the adjoining Crown lands. unds. Of course you can't help the aference that the purchaser could eep the Orange Bay timber and cut way on the Crown lands. Now of

keep the Orange Bay timber and cut away on the Crown lands. Now of course this was against the law, and that letter was written by Morison, whom Boss Morris made Minister of Justice. What a talent Morison has for statesmanship!

Afterwards Strong complained that Morison did not treat him right, wanted a larger share than he had, &c., &c., and in the end Strong was driven to do what he did. Mr. W. F. Coaker complained to Governor Williams—that repository of the political confidence of Donald and Ned—and Governor Williams asked Morison to explain himself. Morison told Governor Williams that he forgot the law when he wrote that Orange Bay letter; and never meant any harm—oh, Lord, no! Boss Morris also wrote Governor Williams and told him it would be perfectly ridiculous to think that Morison remembered the law when he wrote that letter. What talents they have! Oh shades of Greece!

That is the statesmanship the Daily News, Morison's paper, is stuck up with. That is the statesmanship that Governor Williams condoned and absolved. But it is not one of the reminiscences that Governor Williams put in "his book."
