The Mexican Situation.

Special to Evening Telegram.

MEXICO CITY, April 27. (To the International News Service of New York City). "The Republic of Mexico has always fulfilled international obligations at every crisis and will defend its rights trampled upon by the Government of the United States. Signed Huerta." The foregoing despatch from Huerta was in reply to the following despatch sent him on Sunday—"Chile, Argentina and Brazil offer mediation between the States and Mexico. Will you accept?" In his answer Huerta makes no direct reply; but his declaration is said to have only this meaning, that Huerta will fight.

WASHINGTON, April 27. A thousand gallons of oil are spreading over the land around Tampico, and it is feared will be ignited, turning the entire district into a sea of fire, which would flow to Tampico entirely consuming the city. So says a despatch from Admiral Mayo, to the Navy Department. Mexican soldiers demolished the faucets, checking the flow of oil from the wells. Two enormous gushers are now spouting inflammable substance.

Close of Sealing Voyage.

On Friday, May 1st, the sealing voyage will close. The only steamers now out are the Diana and Kite. Both vessels are expected to arrive within the next day or two.

There is a little fullness in the lower portion of the skirt in some of the new models.

Two and a Half Hours on Operating Table

Specialist Could Not Remove Stone in the Bladder

GIN PILLS PASSED IT

JOLIETTE, P. Q. "During August last, I went to Montreal to consult a specialist as I had been suffering terribly with Stone in the bladder.

He decided to operate but said the stone was too large to remove and too hard to crush. I returned home and was recommended by a friend to try GIN PILLS.

They relieved the pain. I took two boxes and went back to the specialist. He said the stone was smaller but he could not remove it although he tried for two hours and a half. I returned home and continued to take GIN PILLS, and to my great surprise and joy, I passed the stone.

GIN PILLS are the best medicine in the world and because they did me so much good, I will recommend them all the rest of my life."

J. ALANER LESTER, 170, goes a box—6 for \$2.50—at all dealers, and money back if they fail to give relief. Sample free. National Drug & Chemical Co. of Canada, Limited, Toronto.

WARD'S LINIMENT CURES DIS-

THIRDS.

More Fires.

Fires provoke immediate sympathy for the sufferers and also thankfulness for personal escape. Another thought should be whether one is personally and sufficiently protected? An insurance policy with Percie Johnson would provide for you this desired security and at small expense. Have you enough insurance?—ap17, f.

The Nickel Draws Large Audience.

The Nickel programme last evening attracted hundreds of patrons, young and old, who were delighted with the programme. The pictures were up to expectations and everyone present enjoyed them. "A Change of Administration" is an American political story of intense interest. "The Ranch Owners Love Making" is a pretty story with a popular ending. For genuine fun, bright and wholesome it is hard to beat "The Hardup Family's Bluff." Miss Gardiner sang a new American ragtime: "Since Mrs. McNott Learned to do the Turkey Trot," which proved popular. It is an action song and Miss Gardiner was heard to advantage in it.

This evening the programme will be repeated.

NASCOP'S MOVEMENTS.—The

S. S. Nascope will leave for Bell Island the latter part of the week to load ore for Sydney where she will load coal for here.

Special to Evening Telegram.

HELFAST, April 27. A consignment of about 40,000 rifles and half a million rounds of ammunition from Germany was landed at points on the coast of Ulster during Friday night, and distributed by means of 200 autos to various headquarters in Ulster. Volunteers who declare themselves determined to offer stern armed resistance to Home Rule were mobilized early last night and guarded the landing places and roads until the distribution of the arms had been completed. The police were powerless to interfere and all communications were interrupted.

DUBLIN, April 27. The Dublin social season is practically wrecked by the political situation. Important members of society unless officially obliged, do not attend drawing rooms. No balls have been given by Lady Iveagh or Lady Paget, who set the pace for Dublin gaieties. Dances and dinners are all informal, in order that Unionists can ignore their political opponents. Except for one charity ball, attended by Earl and Countess Aberdeen, and the vice-regal staff, none of the dances expected last week were given. It is intended to put off the proposed entertainment by Lieut. Col. Sir Arthur and Lady Paget at the Royal Hospital.

LONDON, April 27. "This grave and unprecedented outlook" was the term used by Asquith to-day in replying to questions as to the gun running exploit of the Ulster Volunteers, who under a strong armed force, landed 40,000 rifles and 500,000 cartridges at various points in Ulster on Friday last.

The Premier said: "The House must assured that the Government without delay, will take proper steps to vindicate the authority of the law and protect the officers and servants of the King, and His Majesty's subjects in the exercise of their duties and the enjoyment of their loyal rights." The Premier spoke gravely as though foreshadowing taking steps which possibly will entail serious results. Over one hundred questions were put to Asquith to-day, in his dual capacity as Premier and Secretary of War. All referred to the Ulster situation, but the replies given were mostly bare negatives or colorless reiterations of what have already been established relative to the recent precautionary disposition of troops in Ireland. The Premier declined to answer several questions with regard to reports of the situation in Ulster, or in connection with orders issued as consequences. He took the ground that the orders given were confidential as to the despatch of troops to Ulster. Asquith explained the Government did not share with General Paget's apprehensions that the movement would set the country ablaze, and though it was the Government's duty to safeguard the stores and arms, all together during the question period, opposition obtained only a small amount of material for two days' fighting, which began in the Commons to-morrow. Carson was only listened to during the interlude, during which the Premier was being catechized, and was greeted as King Carson by the Nationalists, who called out, "Hats off to the King." Immediately after he had finished replying to the questions asked, the Premier left in a motor car for Buckingham Palace to have an audience with the King. In leading Ulster papers rumors are again current that the Government has issued warrants for the arrest of Carson and Captain James Craig, Ulster leaders, but it is believed these rumors are unfounded. The Cabinet will hold a meeting to-morrow to reach the final decision as to the course to pursue in Ulster. In addition to five small cruisers off Larne, there are seven dreadnoughts at Londonderry, within three hours' run from Belfast. The nature of the steps which Asquith announced in Parliament the Government intended to take in Ulster, is not yet known, except that General Macdonald, of the Adjutant General's staff of the War Department, has taken over the command of the police forces in Belfast district. No troops have yet been moved, although it is understood certain regiments have been named to hold themselves in readiness. Five warships trekked off Larne yesterday, and to-night are playing their searchlights on the town.

WASHINGTON, April 27. England, Germany and France have advised Huerta through their ministers in Mexico City to accede to the demands of the States, according to announcements made here to-day.

EL PASO, April 27. Americans from Torreon confirm the report that Maurice McDonald, an American, caught by the federales in the battle of San Pedro, had the soles of his feet cut off, was marched through the streets, and finally burned at the stake. American refugees say that reliable Americans who were at San Pedro at the time, verified the report that McDonald was killed and tortured before being shot. His home was at Berkeley. He was a gunner for Villa.

WASHINGTON, April 27. A journal of acceptance by the Huerta Government of the offer of Argentina, Brazil and Chile to use their good offices to bring about an amicable settlement of the difficulty between the States and Mexico, was cabled to the Spanish Ambassador here to-night, by the Foreign Minister in Huerta's Government.

Makes Hair Grow

The time to take care of your hair is when you have hair to take care of. If your hair is getting thin, gradually falling out, it cannot be long before the spot appears. The greatest remedy to stop the hair from falling is SALVIA, first discovered in England. SALVIA furnishes nourishment to the hair roots and acts so quickly that people are amazed. It destroys the dandruff germ, the little pest that saps the life that should go to the hair from the roots. 5

Car Wandered Way

Some years ago, at Nelson, B.C., a freight car was discovered quite by accident in ten or fifteen feet of water off the dock.

If the railway company had ever missed the car there was no record of it at Nelson, and the only explanation that the local agents could make was that some careless switching engineer had bumped the car off the track and had failed to report its loss, possibly through fear of being reprimanded or losing his position.

The contents of freight cars frequently disappear equally mysteriously. Some years ago a valuable consignment of ore from a Canadian mine was sent to New York for delivery to a local smelter. The ore did not arrive, and the usual "tracers" sent out from both ends failed to find the missing shipment. Months afterward this was discovered. Through some oversight the papers were missing when the freight train drove into the New York terminal, and the car was shunted to a sidetrack to await information. It happened that this track was one where car-loads of cinders from the round-house were accumulated.

When these cars were ready, a switch engine coupled them all and took along also the car of ore, which was dumped with the cinders into the mud. The discovery of a few pieces of rich silver ore among the ashes attracted the attention of track-walkers or others, and led to inquiry. Of course it was impossible to rescue the ore, and the railway company had to pay the shippers for its estimated value.

Where Responsibility Lies.

No matter how large, or how small, a business may be, nobody can deny that its Office is the nerve centre of the firm. Every transaction, important or trivial, must be recorded at the Office. An order is received at the Office, its history is recorded at the Office, and finally payment is received at the Office. If the Office makes an error the firm stands the loss. That's why you must be sure that your office is modernly and dependably equipped for the care of all important papers. To do this effectively you need the up-to-date equipment of the "GLOBE-WERNICKE CO." When sixty offices in St. John's have found this necessity this equipment can surely be of use to you. Mr. Percie Johnson represents this world known firm in Newfoundland.—ap17, f.

Cambridge Wins Meet.

London, March 27.—Cambridge University today won the annual athletic contest against Oxford University by 5 events to 4. H. M. MacRae of Cambridge won the 100 yards in 12.2 seconds. The hundred yards race was won for Oxford by B. T. Adams, a Rhodes scholar from Texas, who threw 123 feet 7 inches.

The 120 yards hurdle race was won for Oxford by V. B. Havens, Rhodes scholar from New Jersey, in 17.15 seconds.

The half mile was won for Cambridge by R. E. Atkinson, who beat the American Rhodes scholar Norman S. Taylor, by 12 yds. in 1 min. 56.2-5 seconds.
