## A Pleasing Program.

The pleasing programme presented at the "Crescent Picture Palace" last night attracted quite a large number of patrons who were highly pleased with the whole show.

"The Flaming Arrow," the two reel feature is a first class Indian picture one of the Bison Biograph Company's best productions; the photographic scenes are immense and the battle scenes are full of life and action.

"Be it ever so humble" is a Nestor rural drama that contains a very pretty story and one that appeals to the sympathies of everybody.

A very fine comedy drama is "His Vacation," the story of an office clerk who is secretly in love with his employer's daughter and dreams of a vacation he would like to have.

On Monday a Gaumont graphic, "Great Britain at War," be shown this film has just been received, by the Crescent from London, and contains some fine London recruiting scenes.

## Doctors and Gas Fires

In an article which recently appeared in the London "Evening News," Mr. W. G. Faulkner stated: "In making my inquiries I discovered one significant fact. This was that one company—the Gas Light and Coke Company—had among their consumers 2,500 doctors who had gas fires installed in their houses, some as many as ten or a dozen; that 1,500 of these doctors had become users of gas during the past three years; and that not one had ever given them up."

Professor C. V. Boys, F.R.S., says, in the "Standard": "Sentiment and inertia are the only obstacles against the general adoption of gas fires and cooking appliances. Wonderful strides have been made, in spite of deep-rooted prejudice. A gas fire, burning with a tile, is an admirable agent for heating a room; and, as a scientist, I fail to understand how such a gas fire dries the air in a room more than any other fire."—*Nov. 17, 1914.*

## Hr. Grace Notes.

The last schooner from Labrador, the Elizabeth, John Keefe, master, arrived last evening. The schooner was five weeks on the way, and seems to have been beset by storms the whole way.

Fresh beef is very plentiful in the market to-day, and selling at 12c. to 14c. per pound.

At the C. of E. Sale of Work last night the handsome sum of \$150.00 was realized. The ladies are to be congratulated on the result.

The man William Brassfield, who was arrested on Tuesday on a defamatory charge was sentenced by Judge Johnson yesterday to five years hard labor in the Penitentiary. The sight of a little four-and-a-half year old little girl in the court was something to move the heart of the hardest.

The court left this morning for Carbonear where several civil cases are to be heard.

The Patriotic Address delivered by the members of the Supreme Court here at St. Paul's Hall last night were very interesting. The speakers did full justice to the subject, and all present were well pleased with the meeting. A collection for the Patriotic Fund was taken up at the close.

A number of our young men have lately volunteered for service in the Navy. These young men will go forward at once to St. John's to join the Cadets.

## Have You an Itchy Spot?

Somewhere on your body? If so, attend to it at once. In Eczema and itchy spots, whether dry and scurfy, or moist and inclined to "weep," are generally eczematous—delays are foolish, allowing the disease to spread and affect more of the good skin. Your best chance for a cure is to use Eylex, which will give almost instant relief, and if used in the earlier stages of the trouble will almost certainly bring a cure, and in any event will greatly ameliorate the trouble. Ask your druggist about it. Price 50c. a box. Eylex Soap, 25c. a cake.

## Big Sensational Detective Story

AT NICKEL THEATRE.

The week end pictures at the Nickel Theatre as shown last evening won the admiration of hundreds of ladies and gentlemen as the building was well filled for each performance. Many pronounced them to be the best collection for some time. The two-reel feature film was a splendid photo-play, with high class acting and most appropriate settings. It is entitled: "The Secret Formula," and is a sensational detective story. It is full of life and attracts attention from the start. It is well worth seeing and no one should miss it. The other pictures were also favourably commented on. This evening they will be repeated for the last time. This will also be the last chance to hear Mr. Huskins sing: "Then You'll Remember Me." Attend to-day or you will miss a great treat.

## Petroleum Supply Running Short

And Germans Use It Sparingly.

Copenhagen, Nov. 20.—Germany is experiencing a scarcity of petroleum, due in part to the loss of supplies from Russia and Austro-Galician oil fields, but mainly to the breakdown of arrangements for imports from the other side of the Atlantic.

Throughout provincial Germany and in many towns as well, local policemen have been instructed to interview consumers of petroleum for heating and cooking purposes and warn them that in future oil must be used for lighting only, and as sparingly as possible. Retail dealers also have been privately warned not to supply petroleum to strangers.

It is a criminal offence to sell even a few bottles of oil without a special police license.

## England's Resources.

Philadelphia Public Ledger.—England's resources in money seem to be inexhaustible. She has already loaned \$215,000,000 to her allies and friends for war purposes; \$50,000,000 to Belgium, \$4,000,000 to Serbia, \$3,000,000 to Greece, besides large cash advances to Canada, South Africa, Australia and New Zealand. These loans are without interest so long as hostilities continue.

When the European nations took up arms against Napoleon, England pursued the same policy. She financed country after country until the menace of a one-nation tyranny was banished. There is no doubt that Great Britain is in healthy financial condition and better able to stand the drain and strain of a long war than other Power. And her financiers prophesy that when peace comes she will be in even better condition than when the struggle began.
