THE BRITISH ATTACK IN THE ANCRE REGION.

PARIS, Nov. 14.

The British attack now in progress in the Ancre region, was preceded by four days of intense bombardment, and began in a dense fog, says Le Liberté's correspondent at the front. The British, he says, did not at first fire a shot, and were not perceived till they were upon the Germans. Rising from a creeping attitude when a few yards from the German trenches they charged with loud hurrahs. A French officer, who also was present, says he observed with astonishment the progress the British troops had made. Every man, the correspondent says, seemed to have a separate mission, and when he fell another immediately went after the same object. At the village of St. Pierre Division, where the fighting was bitter, the British delivered ten assaults. A whole German battalion, according to the writer, with a major commanding, laid down their arms. According to his correspondent the average depth of the front penetrated by the British was from 1,000 to 1,200 yards.

SERBIAN OFFICIAL.

SALONIKA, Nov. 14.

The following official communication from the Serbian headquarters was issued to-night: On Monday we fought sanguinary engagements with the Bulgars and Germans on the Cerina River, which are not yet concluded. The enemy offered stubborn resistance, hence certain trenches were repeatedly changing hands. At the close of the day we were in definite possession of very important enemy positions near Tepavits. Apart from enormous losses inflicted on the enemy in killed and wounded, we took 1,000 prisoners, including a German battalion commander and several German officers. The booty captured is important, but the details are not available.

UNITED STATES WILL TAKE NO ACTION.

WASHINGTON, Nov. 14.

The United States has not and probably will not join with Spain and the Vatican or the Netherlands in a protest against the deportation of Belgians into Germany. It was officially stated here to-day. The States will preserve its independence of action in this case as in many others which have arisen during the war. The administration is much concerned over the deportations, but has not yet taken official action.

chant submarine is to take the place of the Bremen, a sister ship to the Deutschland, which was lost with all hands on her maiden trip to the States is now being built in Germany. Definite information regarding the new vessel is lacking, but the submarine is said here to be purely mercantile in character, her arrangements being similar to those of the Deutschland. It is not known when the vessel will be ready for her first trip. The Deutschland, it was learned to-day, will not carry any regular mails from the States to Germany the coming trip. Negotiations for a trans-Atlantic submarine mail service have been carried on between the German Embassy and the post office department, but the operating company has not yet fully agreed to the service, because it is felt the submarine service, being in the nature of an extraordinary one, should command a higher rate, just as the States post office charges a higher rate for special delivery.

BRITAIN'S NOTE MADE PUBLIC.

WASHINGTON, Nov. 14.

The British reply to the latest American note protesting against the trade with black list, which was made public to-day by the State Department, states that the rights of neutral traders under international law have been ruthlessly cancelled, and defines the black list measure as municipal regulations, plainly concerning only the British Government and British citizens, and contends it is designed to shorten the war. The note fails to meet the American demand that the names of American firms be stricken from the black list, but attempts to convince the State Department that the British position is just and founded on law. It leaves open the door for further negotiations which are expected to follow.

COMMENT ON HUGHES' RESIGNATION.

LONDON, Nov. 14.

Commenting on the resignation of General Sir Sam Hughes, who raised Canada's Overseas Forces, the Westminster Gazette said editorially to-day: "The resignation is not surprising after the recent amazing speech of General Hughes. It is just conceivable our hospital arrangements may have broken down as far as some individual Canadians were concerned, but for the succour of all our wounded we have mobilized all our available civilian surgery. We don't even understand the suggestion that any were put at the mercy of first year medical students."

Ships of Stone

To Italy Belongs the Credit of Their Invention.

Editor Evening Telegram.

Dear Sir.—The article entitled "A Ship Made of Stone" and appearing in your issue of last evening is misleading as it gives the impression that the idea of a concrete ship is new and the invention of a Norwegian. Please permit me to draw your attention to an article in "The Shipping World" for October, under the title "Reinforced Concrete in Shipbuilding," which says that, "remarkable though this development undoubtedly is, it cannot claim priority in novelty and originality," and then goes on to say, "Italy and not Norway is the real home of the concrete floating carrier, and boats were being constructed of that material well over a decade ago, while various attempts to introduce it into shipbuilding practice have also been made in the United States. To Signor Gabellini belongs the credit of giving practical effect to this shipbuilding innovation in Italy."

The same issue of "The Shipping World" shows the barge *Liquiva* being built on a floating pontoon. This craft built in 1905, is 54 ft. in length and 18 ft. in beam. "Moreover," says "S.W." "the Italian Government some years ago experimented with a 300 ton cargo boat built to its order," and "an order for more of the same type was an index of the success attending her use."

Yours truly,
ARTHUR ENGLISH.

The Concert and War Masque so successfully placed before a Carboniferous audience last week will be repeated here to-night for the benefit of the W. P. A. Fund of this town. No doubt the affair will be well patronized.

The K. E. B. attended service at Christ Church last evening and were addressed by Rev. E. Andrews.

A Sunday school service was held in St. Andrew's Church yesterday morning. The very hearty service was enjoyed by the congregation present.

A concert and tea will be held in the Methodist School, at Bristol's Hope, on to-morrow, Tuesday evening.

The Jumble Sale held by the K. E. Brigade on Thursday last was indeed a grand success. The public responded nobly, and as a result the cash receipts up to the present amount to \$215.49. The Brigade feels grateful to Messrs. Bowring Bros. for the handsome donation of \$20.00, and to all the other kind friends who contributed. All amounts will be acknowledged later. On Thursday night at the hour of opening the Armoury was well filled with friends of the Brigade. The auctioneer, Mr. Paul Higgins, having taken his place, bidding commenced and kept on briskly until all the articles had been disposed of. Mr. Higgins is deserving of special thanks for the able way he conducted the

EUROPE'S WAR.

It seems as though the dreary war will never have an ending; the peace the world is longing for, no white-winged dove is sending. A year ago we hoped and prayed that ere another summer the soldier would have sheathed his blade, and gone to work as a plumber. We saw the winter months advance, and as the spring drew closer, we hoped that he would soak his lance, and open up as grocer. And when the vernal freshets roared, we watched the man in armor, and hoped that he would can his sword, and get a job as farmer. Alas, our hopes were all in vain; the world is mad and dizzy, and Europe, counting up her slain, is still supremely busy. It seems to me if kings and czars would hold a friendly meeting, and pass around some good cigars, first one, then 't'her treating, they soon might end the beastly scrap that's kept the world affrighted, and fix the blamed dip-swizzled map so all would be delighted. But horse sense is a sacred thing, a cure for war and dangers; to which the captain and the krig have evermore been strangers.

Mr. Nath. Yetman, R. N. R., and Mr. Nath. Snow, R. N. R., were in town for a couple of weeks on a visit to friends. They left on Saturday's afternoon train to join the "Briton."

A number of men who work in the woods in winter time went in on Saturday to fix the road so as to make their work easier for horses and men. They spent the day in repairing the road, but will find the advantage of that repairs all through the winter while hauling wood to their homes.

"I received a wedding announcement, and in the lower left hand corner is written: 'At home after July 1st.' What shall I do in response?" asked Doris anxiously.

"It is not necessary to acknowledge announcement cards but is proper to leave cards or call on the bride's parents within two weeks after receiving the formal announcement. You should also call on the bride on or after the date of her receiving day," replied her aunt.

Household Notes.

Save the rows of buttonholes from shirtwaists and stitch them as a fly onto other waists.

Heavy salads have no place with the dinner. They had better be served with luncheon.

A tumbler of water taken the first thing in the morning is particularly good for the digestion.

Your Boys and Girls.

Charming pinafores of colored linsens or of white, embroidered in colors, make pleasant work for those who plan ahead for Christmas gifts for little friends. The stamped patterns are really attractive; fluffy kittens, procession of ducks and floral designs are all appropriate and amusing both to donor and recipient.

Frocks for wee girls made of bared or plain lawn stamped for embroidery and already made up and hemmed cost very little.

Linens and chamber's cost more, but any of these are a boon to a mother who likes to scallop and add the fancy touches, but is not clever at cutting out and putting together the dress itself.

Wine color, mulberry, ashthe and mustard are among the most favored winter colors.

The edge of the straight-brimmed hat may be trimmed with a row of beads or a band of fur.
