The well-fed boarders of the Tecumseh House yesterday defeated nine bankers in a game of baseball on Mike Ward's diamond down the river. The bankers came within 31 runs of beating the boarders, the score standing 38 to 8. W. Holman's great pitching and the center field play of A. Neighorn were wonderful to behold. and the aquatic programme almost abandoned. A double-outrigger race—Fred Beltz and Will. Lind vs. Bob Lind and Harry Spence—was the only event, the former proving victorious. The banquet, however, was a great success, at which many acquitted themselves more creditably thau they might have done in the races. Commander Bart. Howard took the head of the table, Rev. Canon Davis and Rev. M. P. Talling, as distinguished quests, taking the right and left of the chairman. A capital lunch was appreciated in the most practical way. Earnest and appropriate present and by Secretary Sayer. Speeches and songs by Bob Lind, R. A. Brobner, Harry McIlwan, Will Lind, Fred Beltz and others followed, and a rousing tosat to the commander elicited a response. The rain still continued, preventing anything in the pytotechnic line. Some of the party went home in the steamer, and the remainder assembled in the dining hall, singing "Wait Till the Clouds Rell Bro." The sumplication of the song was shortly granted; a number of the lights were strung up, colored lights and candles were brought into play and the return trip was made in splendor.

Getting on a War Basis.

VIENNA, Aug. 28.—An inspired pamphlet which has appeared here advocates an increase of the imperial military credit from 16,000,000 florins to 18,000,000 florins. The pamphlet dwells upon the contingency of an unexpected war, in which only a few weeks would elapse between the mobolization of the troops and the first engagement. The Fremdenblatt supports the proposal.

Emigration from Italy continues on a vast scale. Many of the emigrants are going to Brazil. The Lake Shore is experimenting with a compound locomotive just turned out from the shops of the Brooks Locomotive Works at Dunkirk. The engine is modeled after the new ten-wheel engine just built by the works for the road. It has five-foot drivers and is equipped with both air and steam brakes. The high-pressure cylinder, 12x24 inches, is on the left side of the boiler, the low pressure, 28x24 inches, being placed on the right-hand side instead of having the high and low pressure cylinders on each side as in other compounds. The engine has made two round trips on freight with very satisfactory results, but will be sent back to-day for several changes which service has shown to be necessary. While it is in the shop an findicator will be attached. The result of its workings will be watched with interest by railroad men.

Thirteen-Year-Old Leo Lowenstein is in

the Ward's Island Asylum Now.

Leo Lowenstein, New York, is 13 years old and for many years has smoked cigarettes. His father punished him often for indulging in the habit, but the boy kept on smoking. He soon began to look ill and grew thin. From a condition of physical disorder he seemed to grow mentally deranged. He talked in a queer way to his parents. Mr. Lowenstein took Leo to the Harlem Court, where Justice Meade committed him for examination as to his sanity. Monday he was taken to the insans pavilion, where he was examined by Dr. Douglas, who said he was insane. He has been sent to the asylum at Ward's Island.

The physicians think that after a few months of rest and cessation from cigarette smoking the boy will be improved and may eventually recover.
