Big Falling Off in Figures Is! Shown by City Hall Statistics.

STORK HAS BEEN LAZY

-The Figures for June and the First Six Months of the Year.

There was a tremendous slump in the number of marriages for the month of June this year as compared with the number for June, 1908. In June of last year there were 107 weddings, while during the present month, hor-rid to relate, only 54 men mustered sufficient courage to take unto themselves a bride. There will surely be a tax on bachelors if this keeps up. It's enough to

make the dear things want votes, so as to assist in the passing of such an But City Clerk Baker comes to the rescue and says that the figures for June, 1908, were unduly inflated by the fact that Rev. Mr. Livingstone saved his entire crop of the year, and brought them all in in June, thereby

rolling up a tremendous list for that For the six months of this year ending today, there were only 184 marriages, as compared with 246 for the same period of last year.
