GOVERNMENT REPORT OF CANADA'S CROPS

Ottawa, Aug. 10.-The census and statistics office gives out today its report for the end of July. Field crops and live stock, it says, are not uniformly good, but they denote on the whole very satisfactory conditions for all parts of the Dominion. Timely rains at the end of June and frequent showers throughout July proved to be very helpful, and there are only a few localities where all crops are under an average.

Fall wheat has done well in the parts of Ontario where it is chiefly grown, it was cut early and gathered in fine condition. Reports of threshings already made show averages ranging from 20 to 35 bushels per acre, and the estimated average for the province is 231/2 bushels for an area of 581,000 acres in crop. Alberta is the only other province growing a considerable

quantity of fall wheat, and there fully one-third of the area

sown was killed by the hard winter weather. The 81,000 acres harvested has an estimated yield of 23.40 bushels per acre. It was too early at the end of July to get estimates of spring grain for the Maritime Provinces; but for Quebec, Ontario, Manitoba, Saskatchewan and Alberta, with an area of 7,022,200 acres in spring wheat, the estimated yield is 22.07 bushels per acre, which make an aggregate of 159,662,000 bushels. Spring and fall wheat in the five provinces show a total of 175,223,000 bushels, grown on 7,684,300 acres. Last year the area in wheat in the same provinces was 6.610,300 acres, and the estimated

yield at the same date 130,263,000 bushels. For Manitoba, Saskatchewan and Alberta the estimated yield this year is 157,464,000 bushels, and last year, at the same time, it was 110,524,000 bushels.

you. Under its influence the brain becomes active, the comples, blotches and ulcers heal up; the nerves become pimples, blotches and ulcers heal up; the nerves become face full and clear, energy returns to the body, and the moral, physical and mental systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars.

NO NAMES USED WITHOUT WRITTEN CONSENT. THREATENED WITH PARALYSIS.

Peter E. Summers, of Kalamazoo, Mich., relates his experience:
"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who leaked at me guested my secret. I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis I took all kinds of medicines and tried many first-class physicians, wore an electric belt for

physicians, wore an electric belt for three months, went to Mt. Clemens for baths, but received little benefit. While at Mt. Clemens I was induced to consult Drs. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many
