GREAT EXPECTATIONS
German Community Hopes To Secure Vast Sum of Money.
London, March 3.—Great expectations seem to be spreading epidemically in the Rhine region. A short time ago a couple of hundred people formed a company to follow up as heirs claims they imagine they can establish to the \$200,000,000 fortune of a Dutch general, Paul Wirtz. The base of the society's operations is Cologne, and now at Frankfurt on the Main, another company of claimants has developed with similar intentions on a supposed fortune of \$400,000,000 imagined to have been left by a peer and Baron the Tonnus Mountains, named Johann Christoph Kelp.
Kelp, like Wirtz, is said to have emigrated to Holland and there, to have made his heir as a token of gratitude. That was a hundred years ago, and the accumulation of capital and interest since then has caused the inheritance to mount to the figures mentioned.
The first meeting of claimants took place on Feb. 13 in Kellheim, in the Taunus district, and 280 persons appeared at it. A committee of seven, ten was finally chosen, with Dr. Horbach, of Frankfurt, as legal adviser.

Storekeeper's Guide for Buying a Bicycle
REPUTATION—Is the wheel well known as having given satisfaction for years? We can tell you of "MASSEY" Bicycles that have been in use for fifteen years and still going fine.
MATERIAL—Is the frame of the best seamless tubing? And are all joints reinforced as in the MASSEY "Silver Ribbon"?
PROTECTION OF FRAME AND PARTS—The MASSEY frame has four coats of enamel over a coat of rust-proof. The bright parts are heavily nickelled over copper. The spokes are of best piano wire, and rust-resisting. A wheel for use in all kinds of weather should have similar protection.
GUARANTEE—The MASSEY is fully guaranteed for one year. Insist on having a guarantee.

THE FARMERS OF PERTH ARE FOR RECIPROCITY
Will Now Have Two Markets Says Mr. Valentine Stock.
Toronto, March 3.—At a largely attended meeting of ward one Liberals last night, Mr. Valentine Stock, M. P. spoke as an erstwhile farmer of the view which the farmers of Perth have upon the subject of reciprocity. "The farmers," he said, "think it a good thing, hitherto they have been dependent on a single market, that of Britain, and have had to take the ruling price in England."
"Reciprocity will give them two strings to their bow, and they will welcome it, and sell their goods in the best market and get the best prices for them."
"It seems nonsensical to look for markets half-way round the globe, each way, in Australia and Great Britain, when there is a market waiting right here alongside the kitchen door."
"The present Ontario government have done some good work," he continued, "but in these cases they have followed along the lines of the old Liberal Government."
"They have increased the expenditure enormously. In the 33 years of their office the Liberal Government increased the expenditure only two and a half millions, while in the short time the Conservatives have held the reins the expenditure has doubled."
"I am simply amazed," said Mr. G. Ritchie, K. C., "that men like Sir Edmund Walker should support a resolution like that recently passed by the board of trade. As if reciprocity would affect the loyalty of the Canadian people! Liberty is only a name in the United States, where the Congressional candidates are tied by contract to the ward bosses, and if they disobey the latter's orders stand no chance."
"There is no more possibility of our becoming a portion of the United States than of water running with the tide, as soon as we introduce the trade measure the Conservatives simply begin flag-waving."
Mr. W. F. Summerhayes said reciprocity would benefit the farmers, and not affect the manufacturers at all, and to show that this is the opinion of farmers, respectively, Mr. Summerhayes said the president of Markham had told him that servants had said "they were going to support the measure."
"Why should the railways suffer?" continued Mr. Summerhayes, "when the country is increasing so rapidly in extent?"
Referring to the annexation talk of ten years ago, the speaker challenged anyone to find a real annexationist in anyone to find a real annexationist in the whole of Canada, and called the loyalty which the Conservatives make so much of simply "political poppycock."

RELICS OF ATLANTIS
Statement of German Explorer Starts a Controversy.
London, March 3.—The recent announcements made by the German explorer, Professor Dr. Heinrich Schliemann, regarding the discovery of the lost city of Atlantis, have aroused much controversy in Germany. Some scholars maintain that Atlantis was not situated in the Atlantic Ocean, but in the Mediterranean Sea, and that the city was destroyed by the eruption of the volcano of Thera, which took place at a geologically speaking, very recent date. It has not been very long since, however, that the theory of the existence of Atlantis, as a lost city, has been revived, and the German explorer, Dr. Schliemann, is now claiming that he has discovered the city of Atlantis, and that it was situated in the Atlantic Ocean, and that it was destroyed by the eruption of the volcano of Thera, which took place at a geologically speaking, very recent date. It has not been very long since, however, that the theory of the existence of Atlantis, as a lost city, has been revived, and the German explorer, Dr. Schliemann, is now claiming that he has discovered the city of Atlantis, and that it was situated in the Atlantic Ocean, and that it was destroyed by the eruption of the volcano of Thera, which took place at a geologically speaking, very recent date.
