Stomach Trouble

A Prominent Physician's Advice

"Eat good foods and plenty of them. Dieting, in many cases, is almost criminal. Get back to normal. To do so you must have the proper quantity of nourishment. You need it for brain or physical work. Probably there is nothing the matter with your stomach except acidity. That is merely an abnormal secretion of acid in the stomach. Neutralize that acid and your stomach trouble will end at once. Neglect may mean ulcers if not cancer of the stomach. Do not take patented medicines or pepsin tablets, for dyspepsia. Simply take a neutralizer of acid. Decidedly the best neutralizer is ordinary druggist's bisurated magnesia. You can get it at any drug store for a few cents, water after each meal. The relief will be immediate.
