The Home That Was Broken Up by a Meddling Mother-Shall She Forgive Her Philandering Husband?-How Can a Conceited Flirt Re-win a Boy's Attentions?

Dear Dorothy Dix-I am a married woman with one child, a boy ten Many Londoners found their way give instruction in occupational ther- years old, who is very bright and who will make a fine man if he is properly trained. My mother never treated my husband right. She was always

telling me some horrible tale about him, and finally separated us, so now we are living apart. I am staying in my mother's home, and my life is most unpleasant.

My husband thinks, it is best for us to live together, and bring up our boy as he should be. Do you think I should go back to my husband? He and I never had any trouble except that brought about by my mother. Can I raise a boy without his father, and make him the same type of a young man he would be if he had had a father's

WORRIED MOTHER.

Answer:
I should think there would be no doubt whatever that you and your husband should kiss and make up and set up a new

away as far as possible from your meddling mother. Both you and your husband have had a bitter lesson which should have taught you to be more patient and forbearing with each other, and the folly of listening to the tale-bearer, even if she is your own mother.

How any mother can be so cruel and wicked as to deliberately wreck her daughter's home and stir up trouble between her and her husband only the devil himself knows. But many mothers do it. The first suspicion of her husband that many a trusting young wife has is generally implanted by her own mother, who feels it her sacred duty to tell Mable that she thinks it very strange that Thomas has to go off on so many business trips and that it is extremely odd that he has to have such a pretty young girl for a stenographer. Also mother gets in her deadly work by criticizing her daughter's husband and calling attention to his every defect until she

works daughter up to the point where she finds her husband unendurable. In every broken-up home the children are the chief sufferers, and so wherever it is possible for a husband and wife to come together again and patch up their difficulties, it is their bounden duty to do so, for neither a mother nor a father alone can give a child the right environment or raise

Truant officers and the officials in the juvenile court all unite in saying that nine-tenths of the delinquent children and youthful criminals are the boys and girls who were raised in homes of strife or that they are the children of divorced parents.

Certainly no woman, no matter how devoted a mother she is, can rear a boy properly, because no woman can understand the psychology of a boy. She is either too weak or too strict, and the result is that she makes a hoodlum or a sissy of him. Every boy needs a father's firm hand over him, a father's understanding and advice. Don't deny your son that privilege, Worried Mother.

Dear Miss Dix-I have been married eight years and have four darling children, the oldest five years and the youngest five months. Now, Miss Dix, two years ago I found out that my husband was going with another girl, but he begged me to forgive him, which I did for the sake of my darling babies and he promised that he would never be unfaithful to me again. But he has not kept his promise. Now there is another woman. I J. Burns, W. R. Thomson, J. C.

Schram, who has been managing the
Schram, who has been managing the schram and the schra

The problem of the philandering husband is one that you must settle for yourself, my dear. No human being can take the responsibility of telling you what to do at this most critical time of your life, for it takes Almighty Wisdom to know which is the right course

The first is, that the man who is unfaithful to his young wife end who has no sense of responsibility toward her and the four babes that he has brought into the world is a pretty poor type of man, with little in him of good to which to appeal. Also that the man who is a born philanderer, to whose sensual nature and fickle fancy every passing petticoat appeals, is not likely to change.

No matter how many times his wife forgives him, she will have to forgive again. No matter how many promises he makes of reformation, he always breaks them. When such a man finally does come home to his wife to stay it is because he is old and broken and needs a nurse to take

The second point is that no wife has any duty toward an unfaithful husband. She is under no obligations whatever to stick to

Sometimes you jump from the frying pan into the fire. You have four babies. Probably you have no profession or trade by which you can support them, and even if you have, who would take care of them while you were off at work?

If you divorced your husband, the courts would award you alimony, out unless your husband is a man of wealth, it would be a meagre sum, not enough to live on even if you could collect it, and alimony is the hardest money in the world to collect.

As you are, whatever the heartache, your husband provides you and the children with food and shelter, a comfortable living, and these you would forfeit if you left him. So think over all these things carefully before you make your decision. And God pity you and all the other wives of faithless men! DOROTHY DIX.

Dear Dorothy Dix-I am sixteen years old, very beautiful and attracive and full of magnetism. I am very popular and have loads of company. Wherever I go people always want to meet me. I change fellows about every two weeks, and therein lies my trouble.

There is one boy who has been devoted to me. I could pick him up when I wanted and put him down when I wanted. Finally, however, he realized that he made a fool of himself over me and got angry, and now he does not come near me. Please tell me how to win this boy back, for I

Mrs. Edwards, in common with the women of the district, has felt the need of a rest room in London for farmers' wives and is a strong advocate of the proposal to erect such a building on the Market Square. The city council has promised to pay part of the cost, if the district will raise the balance of the money. And it is for the purpose of raising money toward such a rest room that Mrs. Edwards has entered The Advertiser

Such a rest room is greatly needed by farmers wives who have no place in which to wait for their husbands, while they complete the day's business in London. The stores are their only place of refuge and when they are closed, there is no place. The girls coming in from outlying districts to attend high school, commercial and technical schools are also stranded for a place to wait before t is time for their trains to depart.

The agricultural department of the London Chamber of Commerce is working in co-operation with the farmers wives of the district, to try and secure such a rest room, the committee being Mrs. George Edwards of Komoka, Mrs. A. T. Edwards and Miss Mary Grant of this city and Mrs. Smith of Crumlin.
