

ITALY AND FRANCE THOROUGHLY OPPOSED

Papal Encyclical Condemns the New Law Regarding Church and State

Rome, Jan. 11.—The Osservatore Romano today published the text of an important encyclical addressed by the Pope to the French Catholics.

In this document the pontiff said that his chief object in addressing the faithful in France was to comfort them in their sufferings, which he felt deeply. There was, however, great consolation in the fact that the Catholics of France were united. The French government's declaration of war was simply a religious war, involving no political considerations. The Pope said that the efforts of the enemies of the church to dissolve this union.

Contrary to the statements made on the subject, the church did not desire a religious war, involving violent persecutions. Being a messenger of peace, the church did not wish to see her children suffering. Regarding the encyclical, the Pope had abandoned them. The French government had imposed upon French Catholics an organization which was simply a law of confiscation, and in regard to the exercise of public worship, it was an atheistic measure. Therefore, the people contended it.

In conclusion, the Pope appealed to the judgment of history, which he said, will recognize that the church does not wish to humiliate any official or oppose any government, but will defend the work of the divine founder of the church, demanding respect for the hierarchy and the inviolability of its property and liberty.

One of the highest officials at the Vatican said: "In the encyclical the Pope states that the minimum possible for accepting the separation of church and state in France is separation as it exists in Great Britain and the United States."

Paris, Jan. 11.—The eagerly awaited papal encyclical, in which the Pope explains his position regarding the separation of church and state, was published here today. This formally places the seal of official condemnation on the new law, and will constrain the government to meet on Jan. 15 to declare against the law on all points.

Toronto, Jan. 11.—Many people in Ontario are looking anxiously for news of William L. Norris, who appeared in the city for the first time since his departure as the representative of the Northwestern Construction Company. He had been capitalized at \$50,000, for the purpose of building a town, to be known as Lena City, Alberta. He sold lots for \$25 each in parcels of five, on each parcel demanding a cash payment of \$100. The company had a large staff of business in this vicinity. Bradstreet and Dun have no trace of any officers of the company.

Lethbridge, Alb., Jan. 11.—Southern Alberta today is in the grip of the storm. About midnight yesterday's chinook played out and a storm descended from mountains and spread rapidly eastward. Both the Crow's Nest branch and the line of the A. R. & I. Co. report it stormy with strong winds, while last night they reported clear weather. The weather hardened very quickly, and the net result will undoubtedly be that cattle will be further from range grass than ever.

The storm blast the hope of cattlemen, who now admit that the mortality on the snowbound ranges will probably be heavy and costly. The winter has already proved itself the severest for years, and the snowfall breaks the record for recent years.

Should the winter maintain its present character for the balance of the season, it is safe to say that the ranges would be almost denuded of cattle. Such an uncommonly severe winter, however, is hardly to be expected.

The fire was caused by a gas stove in the kitchen. The store was valued at \$100,000. The fire was the worst in the city for years.

Toronto, Jan. 11.—"We thought 1905 was a banner year in the dry goods trade," said a prominent merchant here today. "But 1906 has surpassed it by the head and shoulders." The merchant said that the trade was very brisk throughout the year, and that he expected 1907 to be even better.

SUN AND SNOW Sometimes Help the Hair to Go

In any changeable climate the hair is apt to become brittle and break off at the roots. This makes a hair-dressing almost a necessity, especially in winter, when the hair is apt to become brittle and break off at the roots. MR. MCINNES' RECORD IN HIS YUKON OFFICE

Eulogy of His Administration is Entirely Foundationless and Absurd

Ottawa, Jan. 4.—A well known Yukoner at present visiting the Capital strongly reverts the statements which appeared in the Vancouver World of Dec. 28, laudatory of "Governor McInnes." Among other things, this article says Mr. McInnes has proved himself to be an administrator of rare ability and exceptional honesty, and the World points to his career in Yukon with a feeling of pride and confidence, and trusts he will and that rule of graft and illegal handling of public lands in Yukon.

The intention of the article is to present Mr. McInnes before the electors of British Columbia as a man who has done things which are worthy of being mentioned in the World's history. Upon his alleged Yukon record, based upon other things the World attributes to Mr. McInnes, the record of his Yukon record are the following:

Cost of government was reduced, and unnecessary officials were dismissed. Before Mr. McInnes became governor of Yukon, and so announced in the House by Mr. Oliver.

Mr. McInnes never abolished a sinecure; on the contrary, he added such to his administration in the form of a legal adviser to the council.

Mr. McInnes never opposed any graft; on the contrary, he added such to his administration in the form of a legal adviser to the council.

Yukon had the smallest gold output last year since 1897. This is an evidence of prosperity. Mr. McInnes came to it. The fact is that the government policy, endorsed and carried out by Mr. McInnes, was to destroy the gold mines of the Yukon.
