EIGHTH YEAR

THE BATTLE O'ER THE SE

HE COERCION CAMPAIGN GROWN YERY WARM.

ONDON, April 20.—Lord Salisbury, in an ress before the Primrose League at Albert ace last night, said the hollow agitation ried on during the Easter holidays by the was the country's. The Government in Ireland facing a vast machine, pro-g terrorism and crime, against which lovernment intended to struggle with all Gladstone's imagination deceived him when he attempted to prove that his party's prospects were very bright. The Irish Crimes Bill would not compare in stringency with Gladstone's bill of 1881. Under the latter measure troubs latter measure people were imprisoned with-out trial. This could not be done under the out trial. This could not be done under the present bill. The suppression of crime in Ireland did not mean the suppression of liberty. The policeman in arresting Bill Sykes did not interfere with liberty. Yet m. Gladstone condemned the Repression Bill. A danger of the present day lay in catch words. Mr. Gladstone, who had spent like life in changing his opinions, mentioned those who separated from him in the tone of a father lecturing his children. He preached at and almost prayed for them, but it never occurred to Mr. Gladstone that perhaps they had something to complain of. They were unable to change their opinions in a night as he could. Lord Salisbury prophesed that Mr. Gladstone would find it difficult to gather around him any new recruits. His present adherents had gone too far to recede. What had Mr. Gladstone gained? He gained the eighty six very devoted followers of Mr. who

been assisted with funds subscribed by men who advocated murder. When a man was accused in such a man the it was not open to him to put the accusation aside with the copious use of the elegant vocabulary his friends had introduced into the House of Commons. He was bound to enter the witness box and deny the charges against him most solemnly. How could Mr. Gladstone go before the country associated with men who refused to submit such a question to the judgment of an English jury? Lord Salisbury did not believe in the Gladstone horoscope. The victory Mr. Gladstone obtained in 1880 was won by a fund of misrepresentation that could not be repeated. The Conservatives were now an organized party, powerful enough to refute falsehood and disseminate the truth. This condition of the party was largely due to the work of the Primrose League. The present Government would, when it left office, hand down unimpaired to their successors the great trust of the Envirse committed to their care. (Cheers). ired to their successors the great trust of the

LIBUT, DANENHOWER DEAD.

Found in the Military Academy at An-mapelis With a Builet flote in His Head. Annapolis, Md., April 20.—Lieut. John Danenhower, of Arctic fame, was discovered at 10 clock this morning dead in his quarters at the National Academy, with a bullet hole at 10 o'clock this morning dead in his quarters at the National Academy, with a bullet hole in his right temple. He was found lying on his rug in front of his fireplace with a tag tied to his button-hole, saying "Send to my brother at Washington." Although he has had mental trouble since he returned from the Arctic region, what immediately led to the suicide is thought to have been the recent grounding of the Constellation on its way to Norfolk, of which he had charge, and for which, it is supposed, he liad a fear of being courtmartialed. Furthermore, he was very intimate with young Robert W. Gatewood, who recently committed suicide on the Carolina, and whom he saw in death. It is supposed this death suggested the mode to him. His wife, formerly Miss Sloan, daughter of Senator George B. Sloan of Cawego, is away with her parents. Lieut, Danenhower leaves two children. He was about 35 years old and an intelligent and polished officer.

Danenhower Was Insane.

WASHINGTON, D.C., April 20.—Secretary Whitney to day received a telegram from the Arctic region. What immediately led to the suicide is thought to have been the recent grounding of the Constellation on its way to Norfolk, of which he had charge, and for which, it is supposed, he liad a fear of being courtmartialed. Furthermore, he was very intimate with young Robert W. Gatewood, who recently committed suicide on the Carolina, and whom he saw in death. It is supposed this death suggested the mode to him. His wife, formerly Miss Sloan, daughter of Senator George B. Sloan of Cawego, is away with her parents. Lieut, Danenhower leaves two children. He was about 35 years old and an intelligent and polished officer.

Whitney to-day received a telegram from stating that Lieut. Danenhower had commit-ted suicide. The news created a sehsation. The telegram stated that the unfortunate man was undoubtedly insane when he took his own life. Lieut. Danenhower's career was eventful and his sufferings on the ill-fated Jeanette Arctio, expedition are even now fresh in the public hand. He was born about 37 years ago in Illinois, and entered the naval' service in 1866.

officers have just made another seizure after officers have just made another seizure after watching their "firm" for fully two years. It seems that last Thursday fifty-one barrels of whisky, marked vinegar, and belonging to E. & A. Robitaille of Quebee, wete seized for infraction of the excise laws in that city. On Friday last two car leads, 120 bbls., of "vinegar," consigned to their order, were received at Hochelags, via Canadian Pacific Railway. A neffort was made to test the barrels, but the man in charge refused to silow it. Customs Officer Brosseau kept close watch upon the consignment, and fifty-nine barrels were seized by the exciseman in a vacant store on De Bresoles-street, and were all found to contain whisky, all marks, excise and shipping having been obliterated. The balance of fifty one barrels is being traced. The balance of fifty one barrels of whisky is nearly \$10,000; as vinegar the tax would be \$192, a difference of \$9818. The amount of tax on that seized at Quebre and in this city gives a sum of \$15,000 as a total claim.

organization and reorganization to come up together.

Questions of ministers produced the following results:

The Government will not grant money for a military demonstration in honor of the Queen's jubilee, but any of the corps may demonstrate at their own expense if they so desire; that it is not in the public interest to say whether or not the Government know that the manufacture of whisky is being illegally carried on in Quebec; that the Government does not propose to repair the wharf at West Point, P.E.I., this season, nor the wharf at Cascumpeque; that the fisheries papers will be down on Friday or Monday at the latest; that the salaries of revising officers have not been fixed, but that up to date \$44,000 have been paid out on account. About a dozen returns of various kinds, none of particular interest, were asked for and granted.

The lobbies and smoking-room down at the Parliament Buildings were rife with "sheriff talk throughout resterday and last night. And the Government during the day; it came from an unexpected quarter. And again it was a sheriff. Sheriff John Fitzgeral Clarke of the Thunder Bay district died at Port Arthur on Tuesday evening. Mr. Clarke has been sheriff of the district for eight years. He sat for two terms in the Assembly as the representative of Norfolk, the present seat of Mr. Freeman, the popular Government whip. The news of Mr. Hudspeth's election was received very quietly in the House until Sir John in made the annoancement, when there was a round of checken.

As for the city shrievalty, the choice seems to be narrowed down to two gentlemen. "Gordon Brown would have stood a gilt-edge a chance for the office but for one reason," is a remark The World heard last evening. Mr. Brown is evidently displeased with his present of the fire that be has frequently shown his displeasure by "cutting." Mr. Mowat and his entire Cabinet. The Attorney-General has been a hard worker in the provincial service. Of course he would not be a party himself to his own son's appointment, but it is well-known that such a choice would be very popular with the Reform members of the House, and outside of it, too. The World does not see that it could be construed into an improper use of patronage on the part of the Cabinet to appoint Mr.

Salisbury's Proposition Not New.
Washington, April 20.—The subject matter of the proposition reported to have been made to the United States by Lord Salisbur in relation to the fisheries question is not exactly new in diplomatic circles, the same proposition having emanated from a Canadian source some time ago. Well-informed persons incline to the opinion that the offereferred to in the cablegram has been thus in directly and unofficially made as a "feeler," to ascertain in advance of an actual tender how such a proposition would be respected by the American people. As the representatives of the United States on the commission, which fixed the award made for the use of the Churadian inshore fisheries, expressly denied that the privilege accorded to United States that the privilege accorded to United States on the commission of the Churadian inshore fisheries, expressly denied that the privilege accorded to United States on the concession made to Canadian fisher men of a like privilege in waters of the United States and free entry of their fish, it is safe to assume that the Department of State never entertained the fidea of renewing the Treaty of Washington with the understanding that a cash indemnity was again to be paid to Great Britain for the right to enjoy the inshore fisheries of Canada, Secretary Bayard to-day said that the was glad to note the increasing interest manifested in the subject. He felt that the people of the country outside of Massachus etts had never realised its importance or approciated the gravity of the alternative left to the administration—a declaration of non-intercourse, if it failed to effect a peace-able adjustment of the difficulties between the actly new in diplomatic circles, the same
