BRAINS TELL

In every business now-a-days. Boys can't get along to-day as their fathers did. There is keener competition. In farming and stock raising as in every other business, active Brains, well trained, bring success. Read Hon. G. W. Ross's address—a masterly one. We will send it free on receipt of a post-card, and with it something about our School, which has a special mission to farmers' boys—and girls too. We've trained hundreds of them, and placed them in positions of usefulness and success in life.
