#### MONEY MARKET.

P. D. Browne.

NO now features present themselves. Money continues in abundant supply for all the legitimate requirements of business at previous rates. little good paper offering outside of the Banks, and readily discounted by the brokers at from 9 to 12 per cent. per annum.

Sterling Exchange is without change here, the rate in New York, however, baving advanced to 1921 for best Banker's Bills at 60-days sight, or 75-days date.

Gold Drafts on New York are quoted as previously

at i per cent discount.

Gold in New York up to Tuesday last, ruled at about 137. It then, partly owing to a strong bear movement, and partly to stringency of the money market, declined suddenly two per cent., and on Wednesday fell to 124, afterwards rallying to 1354 the closing rate. Greenbacks have fluctuated from hour to hour with the price of gold.

Silver is in moderate supply at from 4; to 3; dis-

#### THE GROCERY TRADE

Raldwin, C. H., & Co., thatman, Frank's Thee, Chille, George, & Co., Butchins, R., & Co., Strank & Kinthebe, Vathewson, J. A.

Mitchell, Jergas, Enbertain, David, Tiffin, Bros. Thompson, Marray & Co. Torrance, David, & Co.

THE business of the past week has been of a very trifling character, very few goods changing hands here, and out of fown orders coming in slowly.

TEAS .- The announcement of the cargo sale for account of Messes. D Torrance & Co., to take place yesterday, (of which we are unable to give a report in this issue) checked business. Demand for all grades have been very light, and although holders are more disposed to meet the views of buyers, it is difficult to effect sales.

Correr-Is without demand, and prices are unchanged.

Strann.-H. s been insctive. Holders of raws are more inclined to press sales but only limited business has resulted, and in the absence of transactions prices are hardly quotable. Refined remains unchanged, anh a fair demand and stoady shipments for Western Canada account.

Molasses .- With the exception of a small demand for refining purposes, the business of the week has been quite limited. Stocks, however, are coming forward slowly, and the supply not being excessive, holders are tolerably firm, and prices remain unchanged. Syrupsare also unaltered in price, although ike sugars, tales have been made to the Western trade to a considerable extent.

Favir - There is more firmness in fruit of most ands, owing partly to an anticipated shortness in the new crop, and partly to the revolutionary trouble in the Spanish fruit districts. There is no quotable advance in rates, however, but helders are not pressing sales and several lots embracing all descriptions have been withdrawn from the market for the present, awaiting more definite information.

RICE -The demand for the week has been principally from the West; in the city there is but little

doing Prices are somewhat firmer.
SALT-Has been arriving more freely, and prices ere the turn downwards. We now quote Liverpool Coarse 63s. to 70s., and Fine-old-70s. No new Fine Jet received.

Sricks-Quiet and unchanged. Holders are anxious to sell, but willing to make some concessions, but even under those circumstances, all kinds are difficult et sale

## THE EGGT AND SHOE TRADE.

A Nactive trade still continues to be done in summer goods, though there must soon be a falling off. We already note some large shipments of Fall heavy Roods. An advance on prioce a looked for, owing to the number of shoemskers who have been induced to Fo to the United States.

## THE HARDWARE TRADE.

Frathern & Caverhill. Erans, John Heury. Ferrier & Co. Hall, Kay & Co.

Committee of the second of the second

Morland, Watson & Co. Mulholland & Raker. Robertson, Jan.

BUSINESS has been very slack during the past week, and all kinds of hardware have had a most limited enquiry. Prices are entirely unchanged, and for the most part are firmly maintained.

The following are the shipments of Iron, Hardware, &c., from Liverpool to Montreal, for the week ending June 24th:-

1 cso cutlery, 1 cso flint glass; 35 cs window glass; 14 pkgs hardware; 85 tops bar and bolt fron; 96 tons hoop iron; 1 cak nails, 50 tons iron plates, 17 tons iron wire; 50 tons pig lead; 8 cases small wares; 52 tons steel: 422 boxes tin plates.

The shipments from Glasgow for same week were -1050 tons pig iron; £1,766 bar iron.

# MONTREAL PRODUCE MARKET.

Akın & Kirkpatrick Dawes Brothers & Co.

Mitchell, Robt.

WiTH steady demand and better prices in the English markets, there has been more animation here, and generally higher quotations at the close.

FLOUR. - During the early part of the week a steady consumptive demand continued, prices gradually improving from the lowest point attained. Later on. more favourable Cable despatches have again oreated s speculative feeling, and the several grades have advanced 10c. to 20c. Extras have sold at \$4.90 to \$5. some cut-down Extras going at \$4,90 and Fancies at prices ranging from \$4.75 to \$4.90. Western Supers have sold at \$4.75 downwards, according to sample. Strong Baker's have in a few instances touched \$5 but at these rates there is no speculative demand. The range at the close may be given at \$4.75 to \$4.90. Any sales of city or Welland Canal brands have been mostly on private terms. No. 2 has sold at prices ranging up to \$4.60 for best samples. Fine and the lower grades in a like proportion. Low grades, however, are somewhat difficult to place at their relative value, on account of the large supplies of Western. Bags have advanced in about the same proportion as Supers, and are held firmly at \$2.45 to \$250 for good samples. Nothing doing in Catment beyond limited sales at previous prices

GRAIN .- Wheat-Comparatively little business has been reported. Some transactions have taken place, but mostly on private terms. Sales of U.C. Spring may be noted to a limited extent at \$1.07 to \$1.09. closing at \$1 68 to \$1 (9, according to sample. Nothing doing in red or white Winter. Pease are scarce and asked for. Choice samples would command 92jc. to See per 63 lbs. If on the spot Afair business done in Oats at 41c. to 42c. Corn nominally unchanged. Barley-Nothing doing.

PROVISIONS.—The general features of the market continue unchanged. Pork has a fair demand, confined, however, to consumptive wants; rates as formerly quoted. Lard has a limited rotall enquiry at former quotations. Butler, owing to the state o the weather, has been sparingly supplied, and the market has become semewhat bars of suitable table sorts, and for such an advance of ic. would be given. There is no shipping demand, and were the market better supplied, prices would recede. In Cheese, beyond the supp', mg of local consumptive wants, there is nothing doing; no sales of shipping parcets to

ARMES-Have mot a fair competition. Pots have slightly improved, closing with fair demand at \$5.45 to \$5.50, secording to tares. Pearls have continued steady at \$5.65.

## THE LEATHER TRADE.

Akin & Kirkpatrick. N. S. Whitney. Seymour, M. B.

DUSINESS in this branch of trade is exceedingly daill, and will be for two or three weeks, when the cutting for the fall trade will commence.

One of the benefits of Chinese immigration, hitherto overlooked, is just coming into notice. It utilizes rais, heretolore one of the mest useless as well as destructive of the animal creation. The Chinese will est them, and reader the whole race extinct.

A Texas contleman has received a quantity of effective morneggs from France through the post. Some of the eggs hatched on the way, and the worms were living on their arrival.

## ITEMS OF NEWS.

The cotton worm has appeared in the plantations o South Carolina, Florida and Georgia.

Business in Idaho is languishing. At no time since 1863, have such dull times been known.

The South Lee Paper Co., is manufacturing wood pulp, dry, at the rate of 40lbs, per hour.

Imitation calicoes composed of paper, which are said to wear well, are made and sold in England.

A daily paper, with \$21,5600 capital, to advocate Free Trade, is said to be contemplated in Boston Four hatters at Danbury have been fatally poisoned by the coloring of some of the hate they were finish-

The Detroit Board of Trade talks of a ship canal about the Falls having only a single lock of three hundred and twenty feet lift.

Rotten chips, decayed leaves, muck, hardwood ashes, lime, and old woll-retted barn manure are the best fertilizers for orchards.

More peas than corn can be grown on an acre, and six bushels of peas will fatten as much pork as ten bushels of corn. So say some Canada farmers.

John T. Alexander, of Jacksonville, Ill., shipped to the New York market last year 03,000 beeves. He is probably the largest dealer in cattle in the United States.
