

TO OUR SUBSCRIBERS.

We have omitted too long to intimate, that we are preparing a new PICTORIAL NUMBER, for the forthcoming volume of the *Record*, which we intend to present to all subscribers, that have paid up their subscriptions to end of 1851, and renewed their orders for 1852. This offer will remain open till the end of February, since we have been so late in making it known, and all who comply with the above conditions, between this and that time, will receive a PICTORIAL NUMBER.

We would also intimate to those that have not paid up for 1850, and thus owe two years' subscription, that we will not continue to send the *Record*, unless they communicate with us on the subject, taking this omission as evidence that they have no wish for its continuance beyond the present year. We hope, however, that we will have but few, if any, of this class, and would earnestly invite all to exert themselves to extend our circulation. We can do this without incurring the reproach of seeking our own interests, as we derive no pecuniary advantage from the publication; on the contrary, it is kept up at considerable expense, solely for the benefit of Sabbath-schools.

We direct attention to our list of Agents, on the two last pages of this number, so as to leave all without excuse, in forwarding to us either their names, or subscriptions.
