CATALAN—HOGAN. Arthur, Oct. 17.—Miss Minnie E. Hogan, daughter of Mr. and Mrs. Michael Hogan, was wedded on October 7, to Mr. Will H. Catalan, of Arthur, at St. Peter's Church, the pretty little edifice situated on the eminence overlooking the village of Oustic. When the bride, accompanied by her father, entered the church to the peals of the bridal march, played by Miss Beatrice Cummings, of Rockwood, the edifice was filled with spectators from the vicinity and from a distance, anxious to witness the nuptials of a lady who has been a universal favorite in the community. The bridesmaid, Miss Amy Crowe, of Guelph, daughter of Alderman Crowe, preceded the bride, and the bride's three little cousins, Mary O'Brien, of Birge's Mills; Kathleen Hogan, of Brantford, and Master Vincent Hogan of Guelph, following behind, completed the bridal party...

LOCAL AND GENERAL NEWS. HON. EDWARD BLAKE RETURNS. Hon. Edward Blake, member of Parliament for Longford, left the city last week on his way back to England. REV. DR. CONSTANTINEAU. Rev. Dr. Constantineau has resigned the rectorship of Ottawa University, on account of ill-health, it is said. FATHER SINNETT AND WESTERN SETTLEMENT. Rev. J. Sinnett, chaplain with the Second Canadian Contingent in South Africa, has returned from a two months' visit of inspection to the Northwest Territories, especially in the vicinity of Edmonton. Father Sinnett has been offered a large tract of land in the vicinity of Edmonton on condition that he would bring a colony of a hundred families to settle upon it. A SEPTIC TANK INVENTION. Mr. Martin Quinn of the Public Works Department has invented an automatic flush valve to be used in connection with septic tanks for sewage disposal. The device is intended to secure the prompt emptying of the tank/retaining the liquids, and thus avoid the blocking of pipes which frequently occurs from neglect. The members of the Provincial Board of Health inspected a working model of the invention at the Parliament Buildings last week and pronounced themselves well satisfied with the simplicity of its action as well as its satisfactory mechanical construction. CHANGES IN A LEGAL FIRM. The legal firm of Cameron & Lee has been dissolved, the business having been taken over by the junior partner, Mr. W. T. J. Lee. Mr. Lee has formed a partnership with Mr. John G. O'Donoghue, B. C. L., L. L. B., son of D. J. O'Donoghue, ex-M. P. P., prominent in trades and labor matters. Mr. O'Donoghue's record as a student is a very creditable one, he having taken the gold medal at Trinity University, several scholarships at Osgoode Hall, and also the degree of L. L. B. at Toronto University. The firm have retained the offices, corner Victoria and Adelaide streets, formerly occupied by Messrs. Cameron & Lee. A YOUNG CANADIAN CANTATRICE. Among the old pupils who gathered together to honor the Golden Jubilee of their Alma Mater was Miss Theresa Korman, a graduate of St. Joseph's, now a vocalist of considerable fame and an artist of great merit. Miss Korman lately returned from Europe where she had gone by the advice of her former teachers to study under the best French and Italian masters. While abroad she won an enviable reputation and the complimentary paragraphs of European journals in reference to the brilliant Canadian contralto are most satisfactory to her Canadian friends. A pleasing incident of her stay abroad occurred during a visit she made to Lourdes. A number of Nuns from the Community of St. Joseph of Tarbes made a pilgrimage to the Holy Grotto and Miss Korman, as a graduate of a Canadian Convent of the Order, was invited to sing in the great Basilica. The young lady is the bearer to her Academy of a medal from Archbishop Mery del Val, also a gift to the Community in the shape of a plaque in Italian workmanship, bearing a copy of the inscription on the celebrated Obelisk at the entrance to St. Peter's. The former Delegate Apostolic has evidently not forgotten St. Joseph's warm greeting accorded him on his visit to Canada a few years ago, as his heartfelt wishes accompanying the gifts testify. It takes a good deal of time to eat or to sleep, or to earn £50, and a very little time to entertain a hope and an insight which becomes the light of our life.

THE MARKET REPORTS. Better Tone in Wheat—Live Stock Trade—The Latest Quotations. Tuesday Evening, Oct. 22. There has been a very good movement in whole sale trade circles at Toronto this week. The reason is getting well advanced now, and the fallers of the season are very unsteady, that with the first smart drop in the temperature there will be a large increase. It is expected that the goods will be about half sold by the end of the season, and will be a great help to the retail merchants. The demand for goods for such an increase in sales. The demand for goods from the jobbers to sort stocks has been quite steady, and there is besides the usual increase in the demand always experienced at this season for shipment of goods to interior water points before the close of navigation. Value of staple goods continue steady to firm, and the position in most departments of trade is very satisfactory. The jobbers generally have a steady trade. Country commitments are fair. There is a good demand for funds and rates are steady at 4 1/2 to 5 1/2 per cent. for call loans. Toronto St. Lawrence Market. Trade was a little dull on the street market today. Prices generally remained steady. Grain receipts were large, 15,500 bushels of wheat, 10,000 of barley, and 10,000 of oats. Wheat—Was steady, 2 1/2 bushels of red selling at 65c to 70c per bushel, 2 1/2 bushels of white at 62c to 70c per bushel and 500 bushels of good at 55 1/2c per bushel. Barley—Was a shade firmer, 3,500 bushels sold at 40 1/2c per bushel for the usual, and 55c to 55 1/2c for malt. Oats—Were steady, 1,500 bushels selling at 50c to 45c per bushel. Hay—Was steady, 20 loads selling at \$10 to \$12 50. Straw—Was steady, 4 loads selling at \$11.50 to \$12. Butter—Was steady 5 loads selling at \$3. Eggs—Were firm at 18c to 20c for pound tolls and 16c to 18c for crocks. Poultry—Were a little easier, selling at 50c to 75c per pair. Hogs—Were lower and now sell at \$7.75 to \$8 per cwt. Cheese Markets. Campbellford, Oct. 22.—Campbellford Board met this morning, 1,425 boxes offered. Sales were as follows: Coal 350, Hodgson 320, Alexander 250, Breton 60, all at 9c. Balance unsold. Board adjourned for two weeks. Toronto Live Stock. Trade was a little steadier in some classes at the Toronto cattle market today. But in export cat and stockers there was only a drizzle and the live market. The export cattle suffered chiefly on account of the heavy demand, and as a result only the choice offerings would sell. The reasons of demand is a result of the condition of the live market, which at present is being overstocked. Yesterday there were no less than 4,000 cat in Toronto at the wholesale trade. The Toronto market also affected the trade in exporters today. In butchers' cattle the trade was good and good animals sold well with a tendency to advance. Feeding cattle were steady, but also showed strength. Heavy ones sold at 12c to 13c and some of lighter grades went a bit stronger. Stockers were dull and slow in sale. The offerings are light and there is but little demand. Steers were steady. Lambs were easier, quite a number being unsold. Hogs were steady, showing no change since Friday's decline. There were 37 loads of hogs, which included 1,340 cattle, 1,301 sheep, 509 pigs, 20 calves and 100 horses. Export Cattle—Were very dull. The lack of demand is keeping prices low. There were many fat cows, but only a few of better quality. Choice exporters will bring \$1.50 to \$1.60 per cwt. The latter price being paid today for export cattle. Butchers' Cattle—Were steady and perhaps a trifle firmer. The highest price for picked lots was \$1.50, but most of the market sold at \$1.40 to \$1.50 per cwt. Choice butchers' cattle brought \$1.50 to \$1.60 per cwt. Feeding Cattle—Were firm, particularly in the lighter grades, which sold well at \$1.30 per cwt for animals. Steers brought from \$1.30 to \$1.45 per cwt. Stockers—Were dull and inactive. The demand for this class of cattle is very light. Heavy ones sold at \$1.10 to \$1.20 per cwt. and off-cuts and bulls \$1.75 to \$1.85 per cwt. Hides—Wood milled cows were scarce. Those offered sold at \$25 to \$25 each. Hides for export steady, selling at \$3 to \$3.25 per cwt for cow hides, and \$2 to \$2.25 per cwt for sheep skins. Hogs—Were easier, selling at \$3 to \$3.50 per cwt; about 300 were unsold.
