MR. SCHIVEREA.

THE special meetings carried on during November by Mr. Schiverea, are drawing to a close. The attendance has been very good, averaging about 100 each evening. The interest has been marked, over one hundred young men professing faith in Jesus Christ. Mr. Schiverea's addresses have been most earnest, and his pointed appeals must have reached many hearts. We are in receipt of letters from young men in different parts of the country, expressing gratitude to God for blessing received at these meetings.

There will be a meeting on Monday evening for those who have received blessing, together with our Christian workers, for the purpose of saying farewell to Mr. Schiverea, who has been so much owned of God in Toronto.

MEDICAL TALKS, ETC.

WE desire to draw special attention to the announcement concerning the Medical Talks to be given this month, by Drs. Geikie and Canniff, also the lecture by Rev. P. McF. McLeod, and the readings by Hanibal Williams. These meetings are for the members and their friends, and are free to all with the exception of the talk by Dr. Geikie which will be for men only.

QUEBEC Y. M. C. A. BUILDING.

THE Association building at Quebec, erected in 1879, at a cost of \$37,000, and against which there is still the burden and heavy debt of \$17,000, is in imminent danger of being lost if the greater portion of this amount is not speedily paid. The Association there has strong claims upon the Christian community throughout the Dominion.

The Protestant population is small and decreasing year by year. The long continued depression in trade has rendered it impossible for them to raise this amount, so the appeal is sent forth for financial help in their hour of need. Thus the building may be secured to the association and continue to be, as it has so efficiently been in the past a beacon light, amid the surrounding darkness and superstition. If any of our readers are disposed to contribute anything toward the accomplishment of this end, Mr. R. Kilgour, Treasurer, will gladly receive the amount.
