Consumption Cured.

SINCE 1870 Dr. Sherar has each year sent from this office the means of relief and cure to thousands afflicted with disease. The correspondence necessitated by this work besoming too heavy for him, I came to his aid. He now feels constrained to relinquish it entirely, and has placed in my bands the formula o that simple vegetable remedy dismula o that simple vegetable remedy discovered by an East India missionary, and found so effective for the speedy and permanenut cure of Consumption, Bronchitis, Catarrh, Asthma and all Throat and Lung Diseases; also a positive and radical cure for Namons Debility. tive and radical cure for Nervous Debility and all Nervous Complaints. Its remarkable curative powers have been proven in many thousand cases, and, actuated by the desire to relieve suffering humanity, I gladly sesume the duty of making it known to others. Address me, with stamp, naming this paper, and the enlightenment which must follow to and I will mail you, free of charge, the recipe of this wonderful remedy, with full directions for its preparation and use, printed in German, French or English.—W. A. Noves, 149

Power's Block, Rochester, N.Y. 16-13eow

REST AND COMFORT TO THE SUFFERING.

Essence for afternoon use.

WORKING WOMEN'S WAGES. INADEQUATE AND UNJUST COMPENSATION FOR PEMALE LABOR.

tom do to 350 fate quality. Asa la

The lucome of working women as com-pared with those of men are in so many cases. so disproportionate and manifestly inequitanle that the subject has already attracted no little attention from thinking people; but the thought which has been given to the matter, and the consideration it has received, are by no means commencerate with its importance. Twenty years ago women were shamefully under-paid for their labor; and though much improvement has taken place since that time, they receive to-day an unjust and inadequate compensation for their efforts in nearly every field which their labor is employed. It is, a matter upon which public sentiment has but to be aroused by the presentation of facts secure a

WIRE AND JUST BOLUTION.

The unfortunate state of things referred exists not in any one city, but throughout the whole country, and that the public may be enabled to judge in telligently, we cits one well authenticated case. In Montreal there are living to-day a widow and two daughters. The early life of the latter was passed in comfert, in a home provided by the industry of a loving father. They were given excellent oducational advantages and are in every way refined, and after disheartening sourch for employment, mother and daughters finally secured an opportunity to make shirts for a large and prosperous dry goods establishment. Their sewing machine was their stock in trade, and they set about their new labor with energy and industry, thankful that they are enabled to carn some little money with which they can support themselves. The word support, however becomes a

HOLLOW MOCKERY

when it is known that they received thirty-five cents per dezen for making the shirts, with a reduction of ten cents. for every drop of oll which may be found upon one cannot escape the conclusion that the firm which pays such prices, and is scrupulously exacting in its reduction for oil spots, is guilty of nothing less than heartless cruelty. It is zition and public spirit of the country, that such facts exist-not in a single or few cases, but in large numbers; and it is to be coped that the day is not far distant when men who employ women will come to a realization of justice and of the underlying principles of humanity. Public attention is scready awakened, and as the cause is one of right it must triumph, though the victory be slow in coming.

Liver Pills.

MALARIA! MALARIA!!

THE CAUSE OF DISEASE IN THE STOMACE. KIDNEYS AND NERVOUS SYSTEM!

Below will be found a brist Summary of a Lecture upon the Liver, delivered before the Eclectic College of Medicine, by

DR. J. HAYDOCK.

The Liver has been known as the great blood maker and blood-purifier of the circulation. From its size and spangy structure, it plays a most important part in the annual economy, as regards assimilation and nutrition. Food taken in the mouth and acted upon by the digestive organs of the stomach is converted into Glucose or Peptone, and in those forms enters the Portal vain. Here, by the action of the Liver, these substances are converted into a form of sugar and pass out of the Liver by a large vein, called the Hepatic vein, into the general circulation. The new material now formed serves two purposes, viz: the maintenance of heat in the body and assisting in the cell growth of the system.

Dr. Murchlson says:—"The composition of bile and its secretion is very complex. It is constantly being secreted by the Liver, and, increasing suddenly before eating, gradually decreases as soon as the appetite is ratisfied and feeding ceases." New, it this most important organ of the body becomes torpid, or the passage of bile interfered with emnetation and disease ensue. I note eight marked peculiarities that now occur, and which we all know of:

1. The national compilates of a feeting of weight and furthers of the outgest in the constant of the outgest in the con

1. The patient compinies of a feeling of weight and fullness of the epigastrium.
2. Distention of the Stomach and Bow Is by Wind.

2. Distention of the Stemach and Bow is by Wind.
3. Heart-burn.
4. A feeling of weariness, pains in the limbs, and great sleepiness after meals.
5. A bad taste in the mouth, especially in the morning, and furred tongue.
6. Constipation, with econstonal mtacks of dearrhose.
7. Headache in front of head.
8. Depression of spirits and great melancholy, with lassitude and a disposition larger white for morney.

to leave everything for to-morrow. All of the above symptoms go to show functional derangement of the Liver; and now comes

All of the above symptoms gotes now innerconderangement of the Liver; and now comes the great importance of any error made as to the condition of the patient. He should immediately provide himself with a LIVE of STAULANT, the most common form of which is a Pid. Daily experience shows that this, when the Pid is compounted properly, is the readist mode of inciting and prometing the action of the Liver, and can be almost always relief don. I have devoted many years of my life, as many or you now before me know, to compounding a Pill that will act readily and systematically as a Bilious Remedy. I do not believe in great purgatives, and therefore have made a Pill, one of which is an active and thorough dose. I have called it

Dr. Haydock's New Liver Pill.

The People Know Them! The People Use Them! The People Praise Them! WHAT HUNDREDS OF LETTERS SAY FROM PATIENTS ALL OVER THE HABITABLE GLOBE.

Dr. Haydock, your new Liver Pill has aid me of all biliousness.

No more noxious doses for me of the or ten pills taken at one time. One of your pills cured me.

Thanks Doctor. My headache has left me.
Send me another vial to keep in the house Our doctors treated me for chronic constipation, as they called it, and at last said I was incurable. Your new Liver Pills cured me I had no appetite: Dr. Haydock's New Liver Pills cured me I had no appetite: Dr. Haydock's New Liver Pills gave me a hearty one.

Dr. Haydock hascured my headache that was chronic.

Musical Instruments, &c.

THE WEBER BABY CRAND.

RECEIVED HOME.

"THE WEBER PIANO"

Is generally acknowledged the grandest instrument of music which has ever appeared in the household, or adorned the Lyric Stage. Its tones are pure and beautiful beyond all others. It is sweet, sympathetic and plaintive, or loud, grand and majestic, at the will of the performer. In its capacity to portray feeling, and in its wonderful power of expression, it stands absolutely without a rival. The duration of its tones, quick responsive action, and perfect mechanism. place it, in the estimation of all musical people, above and beyond all its competitors. For many years the "Weber" Piano was used only by the wealthy and musical aristocracy of the United States; but since the Philadelphia Exhibition, where it was first placed before the public in competition with the great makers of the world, the demand for it has been unprecedented. The first second-hand instrument of this maker, offered at public competition

in Montreal, though a square several years in use, realized \$515.00. This was far above the price reached by any other piano, and shows that a good piano, like a good painting, will always command its price.
