

pamphlet), ready to afford to them assistance in making a suitable purchase. There is no class to which Ontario offers a better field for settlement than to the tenant farmers of Great Britain and Ireland, who, having saved some money, are anxious to change their position to that of landowners.

There is a constant demand in the country for farm labourers; for mechanics, such as carpenters, stone-masons, bricklayers, shoemakers, and tailors; and for good female servants. Besides this, the unsettled parts, where Free Grants of Land are to be obtained, will absorb a large influx of emigrants, especially of the Agricultural class. These Grants are offered to all settlers over eighteen years of age, without distinction of sex, on terms which are explained in the pamphlet. The map indicates the Free Grant Townships, and the highways of communication therewith; the railways and the gravel roads, &c., &c.

Particulars regarding the route from the United Kingdom to Canada, and the cost of passage by steamer, are given on the cover, at the end of the pamphlet.

The Government of Ontario is fully alive to the importance of getting the newly surveyed districts of the Province filled up, by a good class of emigrants, as rapidly as possible, and is desirous of promoting by every means which can reasonably be employed, a healthy Emigration.
