JOHN FISHER

409 Lumsden Building

I have in my possession a prescription for nervous debility, lack of vigor, weak-ned manhood, failing memory, and lame back, brought on by excesses, unnatural drains, or the follies of youth, that has cured so many worn and nervous men right in their own home—without any additional help or medicine—that I think every man who wishss to regain his manly power and viling the power and viling the power and viling severy man who wishss to regain his manly power and compy of the prescription free of charge, in a plain, or dinary sealed envelope, to any man who will write me for it.

This prescription comes from a physician who has made a special study of men, and I am convinced it is the surest-acting combination for the cure of deficient manhood and vigor failure every put together.

I think I owe it to my fellow men to send them a copy in confidence, so that any man, anywhere, who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what I believe is the quickest acting restorative, upbuilding SPOT-TOUCHING remedy very devised, and so cure himself at home quickly. Just drop me a line like this: Dr. A. E. Robinson, 3933 Luck Building, Detroit, Mich... and I will send you a copy of this splendid recipe in a plain, ordinary envelope, free of charge. A great many doctors would charge \$3.00 to \$5.00 for merely consultation. I send it entirely free.

SUFFERS GREATLY

Heavy Buying in All Grain Options on Damage Reports.

CHICAGO, June 27 .- Official statements that excessive dryness had set back Kansas wheat as much as 26 per cent, in the last month put the market today in an upward whirl. There was a nervous close at an advance of 1-4 to 3-4 cent. Corn showed a gain of 1 1-2c to 1 3-4c over last night and oats a rise of 1 1-8c to 1 3-8c. Provisions finished unchanged to 12 1-2c decline.

Trading in wheat, as in other grains, reached a volume considered by some to surpass that of any previous day this season. Bullish figures on the Kansas crop were available before the opening and had a powerful effect from the start. It was estimated the yield in that state would not amount to more than 72,000,000 bushels, whereas speculators had been counting on about 90,000,000 bushels. Heavy selling checked the upturn, but the top prices of the day were current within fifteen minutes of the close. The late strength was influenced by assertions that rains northwest had failed to appear where most wanted in South Dakota. It also was believed that the continued advances in coarse grain would help the rise in wheat. Trading in wheat, as in other grains,

King's Quicksilver Mining Company, Limited, Stock at 70c Per Share, Offers an Exceptional Money-making Opportunity.

The King's Quicksilver property is one of known and proven merit. The ground is held under United States patent, and the title is, therefore, perfect, and splendid equipment is being installed. The property is being developed under the supervision of a highly efficient and thoroughly experienced mining engineer. A systematic development campaign was outlined, which has been vigorously prosecuted for the past eight months, with phenomenal success, and the engineer reports that he has now over 100,000 tons of ore blocked out and ready for extraction. which is sufficient to keep a 30-ton plant going to its fullest

It is upon these facts that we make the statement that the King's Quicksilver Mining Company, Limited, stock at 70c per share is, in our opinion, a safe investment, and one which should return a very large profit. In fact, we consider KING'S QUICKSILVER MINING COMPANY, LIMITED, stock at 70c per share one of the very best opportunities in the market to-day for making a big profit from a small investment. It is entirely within the limit of possibilities that the property will be should be small investment. bilities that the property will develop into a mine of such proportions that it should stock a value of many dollars per
