\$3.00 and up—American Plan. ed? Winter Picnic.

The young people of the High Park Avenue Methodist Church took possession of Ravina Rink last night at their first annual "winter picnic," and occupied the ice, seats and standing-room. The two chief features of the evening were a ladies hockey game between two fair teams, styling themselves the "Speeders" and the "Sharpahoters, respectively, and a basebali-

Gagnon. "I had to quit work I was so weak. Now, thanks to Sargol, I look like a new man. I gained 22 pounds in 23 days."

"Sargol has put just 10 pounds on me in 14 days," states W. D. Roberts. "It has made me sleep well, enjoy what I are and enabled me to work with interest and

what I ate and enabled me to work with interest and pleasure."

"I weighed 132 pounds when I commenced taking Sargol. After taking 20 days I weighed 144 pounds. Sargol is the most wonderful preparation for flesh building I have even seen," declares D. Martin, and J. Meier adds: "For the past twenty years I have taken medicine every day for digestion and got thinner every year. I took Sargol for forty days and feel better than I have felt in twenty years. My weight has increased from 150 to 170 pounds."

When hundreds of men and women—and there are hundreds, with more coming every day—living in every

When hundreds of men and women—and there are hundreds, with more coming every day—living in every nook and corner of this broad land voluntarily testify to weight increases ranging all the way from 10 to 35 pounds given them by Sargol, you must admit, Mr. and Mrs. and Miss Thin Reader, that there must be something in this Sargol method of flesh building after all.

Hadn't you better look into it, just as thousands of others have done? Many thin folks say: "I'd give most anything to put on a little extra weight," but when someone suggests a way they exclaim, "Not a chance. Nothing will make me plump. I'm built to stay thin." Until you have tried Sargol, you do not and cannot know that this is true.

Sargol has put pounds of healthy "stay there" flesh on hundreds who doubted, and in spite of their doubts. You don't have to believe in Sargol to grow plump from its use. You just take it and watch weight pile up, hollows vanish and your figure round out to pleasing normal proportions. You weigh yourself when you begin and again when you finish and you let the scales tell the story. tell the story.

Sargol is absolutely harmless: It is a tiny concentrated tablet. You take one with every meal. It mixes with the food you eat for the purpose of separating all of its flesh producing ingredients. It prepares these fat making elements in an easily assimilated form, which the blood can readily absorb and carry all over your body. Plump, well-developed persons don't need Sargol to produce this result. Their assimilative machinery performs its functions without aid. But thin folks' assimilative organs do not. This fatty portion of their food now goes to waste through their bodies like unburned coal through an open grate. A few days' test of Sargol in your case will surely prove whether or not this is true of you. Isn't it worth trying!

If you want a beautiful and well-rounded figure of symmetrical proportions, if you want to gain some solid pounds of healthy stay-there flesh, if you want to increase your weight to normal, weigh what you should weigh, go straight to your druggist today and get a package of Sargol and use it as directed. Sargol will either increase your weight or it won't and the only way to know is to try it. A single package of Sargol easily enables you to make this test. Sixty days' use of Sargol according to directions, is absolutely guaranteed to increase your weight to a satisfactory degree or your druggist will refund all the money you have paid him for it. Sargol is
