HERE AND THERE

THE Clinton *New Era* has started a relief fund for the famishing Russians.

MR. L. M. STAEBLER, publisher of the Canadian *Philatelist*, has just left on a two weeks' business trip to New York and Eastern States.

CAPT. A. M. TODD, one of the proprietors of the Clinton *News-Record*, has been seriously ill for several weeks, but is now gaining strength.

A SECOND paper has been started at Virden, called the *Chronicle*, it is neatly printed, and compares favorably in appearance with our provincial press.

"*The Canadian Press*" is the title of a new paper started at Campbellford by Geo. H. Newton. It is printed in the 8-page form and has a particularly healthy appearance for a new paper.

JOHN L. JAMIESON, second son of Mr. J. D. Jamieson, of the Belleville *Intelligencer*, died of typhoid fever, in Chicago, on Tuesday last aged 22 years. With his brother James he had recently established

a job printing office in Chicago. His parents have general sympathy in their sad bereavement.

EMERIAM DOWLING, a young man who was for several years employed as a printer at the London *Free Press* office, died at his parents' residence, Bridges Street, on 24th May. The deceased was a kind-hearted and obliging man, and his untimely death will be regretted by his fellow employees as well as by a large circle of friends.

THE Victoria *Daily World* was not issued on the 19th inst., the compositors having walked out. Mr. McLagan says the trouble arose over the refusal of one of the men to make a correction marked on a proof. He was discharged, and the "chapel" decided to sustain him by refusing to work. It was over a dispute whether the word "Independence" should be capitalized.

A SAD drowning accident happened in Victoria harbor, near the Gorge, on Thursday afternoon, 18th May. Four young fellows, named Walter Kurtz and Joseph Kelly, both printers, and George Sharp and Richard Thorpe, sailors from H.M.S. Warspite, went out for a row, Thorpe being slightly the worse of liquor. They paddled about some time without accident, until Thorpe, suddenly getting up, overbalanced the boat. Kurtz clung to the upturned boat, and at last reached shallow water with it, but the others are supposed to be drowned.

THE Chatham *Planet* says: "Mr. Innes, who is said to be a large stockholder in the Toronto *Globe*, will raise the question in the House of Commons of the importation of the Buffalo *Express*, Utica *Globe*, and Toledo *Blade* Saturday editions, which he hints are brought in by express without paying duty. Mr. Lister might add to his list half a dozen other Yankee sheets which are smuggled into this Canada of ours and bought up by reason of the 'sensational' features which characterize them. Besides, some of the importations are the vilest of the vile in journalism, and calculated to corrupt the morals of any who read them. Make a general crusade: Canada can and does well to supply its own people with newspapers."
