DOUBLE-TRACKING NOT

North Toronto Business Men Bon't Like Project As It Stands-Mayor Advises Caution.

NORTH TORONTO, Sept. 25 .- (Spe cial.)—The big outstanding question in the town to-day to the exclusion of all others, is Councillor Lawrence's pro-posal to open up negotiations with the Metropolitan Railway relative to the double tracking of Youge-street. Among business men in the morning on their way down town, on the streets and around the town hall the question has aroused a lot of discussion, pro and ted is in direct opposition to the plan as laid down by the councillor. The Metropolitan Rallway has done to commend it to the good graces of the citizens, the suburban service being consistently treated as a side issue, while the rush service has been far from that which the management led the town council to believe would be The latter have been admittedly lax in the enforcement of the agreement between the town and com-

new Davisville Methodist parsonage on Joseph-street on Saturday afternoon, the seriously interfered with by the weather, was a notable event in the annals of Methodism in North Toronto. The new structure, together with the lot, will cost about \$3500, and will, when completed, be a credit to the town and denomination. Ambrose Kent, head of the old established house of Ambrose Kent & Sons, in a few well-chosen words, performed the duty of laying the cornerstone and was afterwards presented by Dr. Ball, on behalf of ailver trowel. Following the proceedings at the parsonage, the party adjourned to the church, where addresses were delivered by Mr. Kent, reminiscent in nature; Rev. Mr. Bartley, Rev. Mr. Sparling, J. W. Brownlow, Mr. Crowhurst and the pastor, Rev. C. W. Robinson. Davisville Methodists. Robinson. Davisville Methodists occupy an enviable position, in that the church is wholly free from debt and the parsonage is being built with good prospects of soon being similarly situlaboratory for radium in Paris, is

North End Citizens Are About Tired of the Long Delay.

DEER PARK, Sept. 25.—(Special.)—
A good deal of dissatisfaction has been aroused in the Deer Park district at the inexcusable delay shown by the city in improving the lighting facilities clear from the C. P. R. crossing to the limits of North Toronto. Thru the Mount Pleasant Cemetery hollow especially present day conditions are a positive disgrace and would do discredit to a country village. The surroundings are sombre enough without being intensified by Egyptian darkness. Is the city waiting for the hydro-electic? Does some arrangement exist be-DEER PARK, Sept. 25.—(Special.)— A good deal of dissatisfaction has been tric? Does some arrangement exist between the city and York Township, or is it simply the usual procedure incidental to red tape methods? The fire and light committee would do well to wake up and realize that Deer Park is an integral part of the city. an integral part of the city.

agreement between the town and company, and altogher the citizens, between the two, have been treated with scant ceremony.

A Valuable Franchise.

Now that a valuable franchise is sought to be acquired by the Metropolitan Railway, the cool proposition of Councillor Lawrence to barter away the privilege of double tracking Yongestreet for a paltry \$600 a mile is naturally resented. The councillor, who is evidently acting off his own bat, is not likely to meet with much encouragement from the other members of the council. That the notice of motion which was brought on at a late hour in the evening, was done without any prior arrangement with the council, is manifest.

Erickson Perkins & Co. had the following:

Wheat—Our Liverpool house cables us that their wheat futures are neglected and declining. France continues to buy cargoes, and that seems to be the only sustaining influence abroad. Prospects are for a fair increase in the visible supply Monday. Trade was light, and merely of a local character. The market ruled quiet, but fairly steady, within a narrow range. Corn—The weather continues mild, with no indication of frost. The cash demand was very quiet. Country offerings light, we can see nothing in the situation to change our opinion, and as long as the weather keeps favorable we think prices will work to a lower level.

Oats—There was no special feature to the oats market to-day. Prices ruled easier in sympathy with corn. We look for lower prices.

J. P. Bickell & Co. say at the close :

J. P. Bickell & Co. say at the close:

Wheat-Fluctuations past week confined to narrow limits, and governed most entirely by professional elements, as public interest is at low ebb. Receipts, the fair, are decreasing, and there is a slight improvement in cash demand. These factors, however, are offset by large stocks of wheat at primary centres, and until supplies show a tendency to decrease any sustained material advance is unlikely. We continue to regard market as a trading one, and at the moment moderate profits on either side should be accepted.
