## New Waists For Spring Arrive Daily

The past week has witnessed still further additions to our brilliant showing of new Spring waists. It is a triumphant  
gathering of the season's newest and best that we announce for Monday.

The diversity of new effects in materials alone would furnish a subject for an hour's study. But it is the profusion of  
charming creations in trimmings that is really the feature of great interest; it would seem that there was no limit to the  
variety of new and beautiful arrangements.

We give these few descriptions as instances of wealth of choice provided:

**Women's Fancy Voile Waists**, made kimona style,  
front neatly tucked on either side of panel of colored  
embroidery, sleeve and collar have a row of volka  
dots embroidered in colors and finished with a small  
beading in a hand-made design, back finished with  
rows of small tucks and fastened visibly with small  
pearl buttons; sizes 34 to 44. Price .... 3.75

**At 5.00**—Women's smart looking taffeta silk  
waists in navy blue. Made with new sailor collar and  
kimona sleeves, trimmed with self-colored bands pretti-  
ly embroidered with red silk in floral designs.  
Price ..... 5.00

**Women's Chiffon Waists**, in a very dressy style,  
are made over net and are daintily trimmed in new  
beading effect, the pretty two-piece kimona sleeves are  
trimmed to match, yoke and cuffs of embroidered  
cream, neatly finished with piping of silk. Colors  
black, green, grey, champagne and navy. Price 4.00

**New Waists at 2.95**—Made with kimona  
sleeve neatly tucked, front has yoke of fancy cream  
net and cluster tucking, colors green, blue, wine and  
black; others of lace have dainty floral design form-  
ing square yoke, with same design in new kimona  
sleeve; white, ecru or black. Price ..... 2.95

**Women's New Striped Waists**, have yoke of  
fancy net outlined with deep bands of plain silk extend-  
ing over shoulder, forming the new kimona sleeves,  
which are finished with bands of striped silk to match.

## HOLDERS OF LITTLE NIP

Continued From Page 1.

on hand. The financial statement  
showed an indebtedness of \$10,000, while  
the amount of the over issue was im-  
possible to ascertain.

J. A. McDonald, representing the  
New York investors who have been  
prominent in the recent episode in re-  
lation to the company's stock, intro-  
duced a resolution asking that an in-  
dependent committee of the share-  
holders be appointed.

"By doing so we will get a straight  
account of the American share-  
holders' and this is what seems to be  
required. Let the meeting adjourn  
until this audit has been completed,  
and then we can have something to  
work on."

**Feared Liquidation.**  
J. Harvey Hall feared this was  
a scheme of the American share-  
holders to force the company into liqui-  
dation. The lease on the property would  
be forfeited by the time such a com-  
mittee could complete its work. He  
had absolute confidence in the direc-  
torate as at present constituted, and  
thought they were quite competent to  
go on with the investigation of the  
disgraceful affair.

"If we adopt the resolution," said he,  
"we will in all probability lose our  
property. I am not so sure that we  
want to lose it anyway, but for myself  
would rather let any assets we may  
have go to Canadian interests, than  
pass them across the border. These  
New Yorkers may be acting all in good  
faith, but they will have to borrow the  
money just as we will, and suppose  
they cannot or do not repay the loan,  
where will we get off?" (Applause.)

Mr. McDonald: "Will you please un-  
derstand that my motion is not on  
behalf of the New York shareholders?  
I made no mention of who should con-  
stitute the special committee. You can  
appoint three Canadians if you like.  
All we want is an independent audit."  
But the motion was soon lost sight of  
in the heated discussions which fol-  
lowed.

**Confusion in Stock.**  
J. H. Moss, the company's solicitor,  
was accorded a favorable hearing.  
"There are two main facts which this  
meeting has to consider," said he.  
"First, the company is in financial  
straits, and seriously so, and concert-  
ed action will be needed to save the  
property. Second, there is an over-  
issue of the stock, which demands a  
thorough investigation. We are face to  
face with this factor, and many legal  
complications are involved. Your edit-  
or will tell you that you cannot dis-  
tinguish between the good and bad  
stock. Unless this is cleared up, how  
can you carry on any business? The  
good and bad shares rank equally, and  
it is impossible to distinguish the sheep  
from the goats. You may represent a  
sheep, or it may be you are a goat,  
and even you yourself do not know  
which."

A voice: "We are all lambs, and  
shorn once at that." (Laughter.)  
Act or—

Mr. Moss: "Yes, and there are more  
lambs in the fold than it was built to  
hold. Now, as shareholders, you must  
get together and save your property.  
I have given the matter serious study,  
and I say to you that if you do not  
take concerted action now, in a few  
weeks there will be nothing left to  
decide who shall go to gaol."  
(Hear, hear.)

A shareholder demanded why they  
could not ask Peterson Lake for an ex-  
tension of the lease. The president  
stated that the Peterson Lake would  
do nothing to help the Little Nipising  
Co.

Mr. Madden, the former engineer in  
charge of the property, was asked for  
his advice as to future development  
work.

Only Need \$5,000.  
"The mine has been closed since last

December," he said. "I know the prop-  
erty thoroughly and I am convinced that  
\$15,000 is all that is necessary to put  
it in a paying condition. The share-  
holders could raise \$15,000 here and  
now, and I believe that is all that is  
necessary to keep them out of liqui-  
dating proceedings." (Applause.)  
"You believed flattering reports from  
your officials, you gave their estimates  
of ore in sight credence, and you paid  
no attention to my statements. Now  
you are deserted by the bunch of them."  
After some heckling, Mr. Chamber's  
resolution was ratified as a by-law of  
the company.

**An Alluring Offer.**  
A proposal was made by a Chicago  
and New York lawyer, representing  
American interests, as an alternative  
course. It was proposed to reduce the  
capital to one million dollars, place  
200,000 shares in the treasury, and allot  
the balance pro rata to present stock  
holders. The parties behind the move-  
ment offered to take the treasury stock  
(200,000 shares), at 10 cents a share,  
which would give the company \$20,000  
to go on with.

The shareholders wanted to know  
who the parties were behind the offer,  
but the information was not divulged.  
Harvey Hall: "If the directors want  
to give away a lot of valuable stock  
for nothing, let them take advantage  
of this offer. I paid for all my stock,

but from the revelations of the last  
month or so, it seems there is a lot  
of stock around this country and  
across the line for which absolutely  
nothing was paid. The man who is held  
responsible for the over-issue is said  
to have had funds supplied to him so  
that he could leave the country. What  
is the use of that? This scheme of our American  
friends would allow this unpaid for  
stock to be handed back in exchange  
for good scrip, and we want no recipi-  
ents of that kind. I believe this  
meeting has absolute faith in the di-  
rectors, and I say, let us leave the  
matter to them. Let them borrow the  
money to work the property. Let them  
raise \$20,000; it would be easy enough.  
And above all, let us find out just who  
is responsible for the fraud, and let us  
go after them, in the criminal and  
civil courts if necessary. And get after  
the people who hold fraudulent cer-  
tificates, too." (Hearty applause.)

**Little Nip's Hope.**  
President Ropson stated for the infor-  
mation of the meeting that the direc-  
tors were negotiating with the McKin-  
lay-Darragh people in an endeavor to  
raise them the J. B. 2 property. He  
also advised the shareholders to sell  
the claim if it were at all possible.  
Mr. Madden: "J. B. 2 is the salvation  
of the Little Nipising Company, de-  
spite the adverse reports which have  
been made by engineers in which they  
condemn the claim as no good. We

worked it once, and found good indi-  
cations of silver, but owing to the  
shortsightedness of the then directors,  
development was given up. The prop-  
erty adjoining one of the Big Nipising  
claims and they have struck one of the  
most sensational veins in the camp on  
their property. Let us hold on to our  
J. B. 2, for it is practically all we  
have."

A voice: "What is the use of hang-  
ing on to it if we have no money to  
develop it?"  
Mr. Madden: "We will find the money  
to work it. I know a man who will  
provide the funds to sink a shaft and  
take stock in the mine as security.  
J. B. 2 will yet put the Little Nipising  
Company on its feet, and I know it."

The Susquehanna Mining Co., which  
has a lease on the adjoining property  
at Peterson Lake, made a tentative  
offer to allow the Little Nipising to  
work their shaft to get at the lower  
workings. This would develop the  
Susquehanna property and would be  
the means of saving a considerable  
sum for the Little Nipising.

On the question of the directorate,  
which under the bylaws consists of a  
board of five, but which was only con-  
stituted of three, the names of R.  
R. Gamay, M. J. A. J. Harvey Hall, W.  
C. Fox and W. H. Parsons were sug-  
gested. No action was taken, how-  
ever.

## WHITE PLAGUE IN SCHOOLS

Nurses Discover Dread Disease—  
Hospitals Crowded With Children.

Already good work is being done  
by the Toronto school nurses in the  
battle with the white plague.  
"So far during February the nurses  
have discovered twelve cases of in-  
cipient tuberculosis in the schools, and  
have secured treatment for them. This  
makes fifteen cases since the first of  
the year," said Miss Lena Rogers, the  
superintendent of school nurses, in  
discussing the work of the nurses in  
the schools.

All such cases are referred to the  
Heather Club, an association of nurses  
that provides for tubercular patients  
among the poor. In the summer the  
patients are accommodated in the  
tuberculosis pavilion at the Lakeside  
Home for little children at the Island.  
The nurses have sent so many child-  
ren to the hospital for treatment that  
they are overcrowded, and have an-  
nounced that they will be unable to  
accommodate any more children until  
April.

## FINE NEW SUNDAY SCHOOL

## BORDEN-ST. "TECH" SITE BLOCKED BY ALDERMAN

Permission to Close Herrick-Street  
Refused by Works Commit-  
tee Yesterday.

The civic works committee yesterday  
refused the application of the board  
of education for permission to close  
Herrick-street for the purpose of erect-  
ing the new technical school between  
Borden and Lippincott-streets.  
Chairman Hodgson of the property  
committee of the board of education  
and Trustees C. A. B. Brown, Ellis  
McTaggart and Jackson were on hand  
to present the claims of the Borden-  
street site. They were opposed to the  
College-street site because of lack of  
the 2-2 acres left no room for growth,  
while there were six acres in the Bor-  
den-street site. They could sell the  
College-street site for more than it  
cost, they claimed.  
Ald. Maguire, Ald. McBride and Ald.  
Sweeney were all of the opinion that

the board of education had no right  
to indulge in land speculation.

Chairman Ald. Chisholm suggested  
that the action be deferred for further  
consideration. On the question of clos-  
ing Herrick-street being put to a vote  
it was defeated.

In connection with the motion of  
Ald. McBride regarding giving team-  
sters in the city employ two weeks'  
holidays, referred back from council,  
the city engineer wrote that all per-  
manent employees of his department re-  
ceived the vacation, which was asked.  
It was decided to ask Property Com-  
missioner Harris for a report as to  
whether the teamsters in his depart-  
ment receive two weeks' vacation.

## Work for Analysts

On a motion by Ald. McCarthy,  
seconded by Ald. Maguire, it was de-  
cided to instruct the medical health  
officer to secure samples of water at  
various points from which the supply  
is now drawn and make an analysis  
of them for submission to the com-  
mittee. In addition to this the de-  
partment is requested to make an  
analysis of the water obtainable at  
Mimico point, Scarborough Bluffs and  
Lake Simcoe. The information thus  
obtained will be available for the  
committee to be appointed by the coun-  
cil.

Aldermen McBride, May, Sweeney and  
McCarthy were appointed a committee

to report on the renting of areas. The  
city engineer reported in this con-  
nection areas leased by the city for  
\$25 per year were drawing a rental  
of as high as \$1000 per annum for  
barber shops, shoe shine parlors, etc.,  
and he was of the opinion that the  
city should share in the profits.

Ald. Maguire and McBride were of  
the opinion that the proposed exten-  
sion of the street railway tracks from  
Yonge to Teraulay-street would sim-  
ply result in this portion of the street  
being used as a storehouse for cars  
during rush hours. As a consequence  
the engineer requested that the mat-  
ter be referred back to give him an  
opportunity to prepare a plan. The  
request was granted.

The recommendation for a sewage  
system for East Toronto was voted  
on to the board of control. The city  
pays \$86,157, which is 60 per cent. of  
the cost.

The recommendation for heavy  
asphalt pavement on College-street  
from Manning-avenue to the west side  
of Dovercourt-road was again referred  
back.

## No Exhibition This Fall

night decided to abandon the proposed

fall and open on Labor Day.

# MEN, BE STRONG AND HAPPY

There is Happiness in Vigorous Manhood. Don't You Want It?

IF I SAY I CAN CURE YOU I AM READY  
TO PROVE IT AT MY EXPENSE.

My Dr. McLaughlin Electric Belt builds up broken-down  
men, restores youth and manhood, and makes men look and  
feel strong. It will cure every case of Rheumatism, Nervous De-  
bility, Weak Stomach, Kidney and Liver Troubles, Lame Back,  
Sciatica, Varicocele, Lost Vitality, and every evidence of weakness  
in men and women. It will not fail, as it infuses in the weak-  
ened nerves the force of life and strength.

Put it on when you retire; you get up in the morning re-  
freshed and vigorous, with courage in your heart and a clear  
head, full of ambition for your daily work.

It gives the vitalizing power of electricity, without burning  
or blistering, to every weakened part, developing full vigor and  
removing all the effects of dissipation forever.

I want all weak persons, who are not what they should be,  
to use one of my Belts, and when they are cured tell their  
friends of its wonderful effects. My Belt is also an absolute  
remedy for Nervous Debility, Backache, Rheumatism, Stomach,  
Liver, Kidney and Bladder troubles. It is arranged for women  
as well as men, and cures female weaknesses.

Now, take a letter like this one, that Mr. A. G. ROFFET,  
Wahigoon, Ont., writes me. I venture to say, would rather part with \$1,000 than forfeit the  
good he has received from the use of my Belt. These are his words:

"Dear Sir, Your Belt has been a boon to me. Two emisions have ceased. My Rheumatism in the shoulder has gone.  
I must say that I feel life is now worth living for. The most noticeable thing is the blood; it seems to have increased  
very much in circulation. Before using your Belt I took a swim in the lake I very soon got cold, but now I am in the  
water every morning at 6 o'clock and I don't feel cold at all. I think your Belt will do all you claim it will, and then some-  
more."

Thousands of men have written me in a similar way, which proves that electricity is life. Take the  
case of Mr. W. J. HONEYFORD, Collingwood, Ont., who says:—  
"Dear Sir—I have found your Belt to be a great help to me, and since using it I have regained my usual weight and  
can sleep well. I feel that I have had my money's worth; in fact, I can say that your Belt is all you say it is. If there  
are any from here who want to talk to a user of your Belt, send them to me, for I am satisfied with your Belt."

My Belt, with special Electrical attachment, will restore your vigor. It will check all loss of vital-  
ity and strengthen every organ of the body. It cures Nervous Debility, Varicocele, Rheumatism, Lame  
Back, Lumbago, Sciatica, any case of Kidney Disease that has not gone as far as Bright's Disease,  
Stomach Trouble, Constipation. If you haven't confidence in electricity, let me treat you at my risk. I  
will give you the Belt on trial, without one cent of risk to yourself. All I ask is that you give me  
security for the Belt while you wear it, and you can
