sports of greater black rust damage han previously expected put the wheat narket to-day on the up-grade. Closing prices were firm at %c to %c net dvance. Corn scored a gain of 1/2 to i%c, and oats a rise of %c to 1%c. The nnish in previsions varied from 2%c off to an increased cost of 7%c.

Some of the experts appeared to have seen new light regarding rust danger to wheat if the weather were to take an unfavorable turn. Humid days, it was stated, would quickly give rise to a serious condition, especially in bluestern fields, where the grain yet needs nearly two weeks to mature. On this account a half perhaps instead of a quarter of North Dakots was figured as still under menace. Export sales of as still under menace. Expert sales of 30 boat loads helped to offset the bearish effects of cool winds in the spring crop belt and huge receipts southwest. Visible Supply Increases.

Visible supply flucteases.
Visible supply flucte rresponding time a year ago, 6,922,000 shels, althe that total was due to ex-

DANGER OF FIRES NOW PAST

Call or send for the first two issues of "THE MINING CRITIC," protecting the public against wildcats, with lots of information on blind pigs, the temperance onslaught on the Northern Ontario country, the correct description of the fly and mosquito condition, and ungarbled facts re mining and its environs, with facts as to manipulations.

HARRY BUSH, Mining 43 SCOTT ST.

Engineers Point Out Fallacies of Reported Platinum Discoveries Near Porcupine --Metal Hard to Detect.

the country south of the Percuping World, received considerable attention from mining men in the city, but the

"I have had a large experience in mining," said Alfred G. Minter yesterexcept in the Ural Mountains in Russia, where it is found in quartz. In all other places platinum is mined in the alluvials, and in the west, California, product to the other minerals taker out. This has been done only during the last ten years. Before that time it was not saved, not because it is not in paying quantities in the soil. Comscale for the washing out of large areas, save platinum as the by-product to gold and silver. One might find it in sprinkles in the soil in North Ontario, but that does not mean that platinum is there in large quantities to

area which can be washed out with heavy machinery.' Platinum was formerly used as money in Russia, but when its commerclal possibilities became known, par-ticularly in dentistry instruments, electrical appliances, etc., the coins were melted up and the mineral sold at a great profit. During the last 15 years platinum has increased steadily i \$45 an ounce at the present time. It is extremely hard and heat that melts ficult to detect in the state in which i

MAY MOVE TO SOREL Petition to Rome May End St. John's College Tangle. MONTREAL, July 29 .- (Can. Press.)

not being lost sight of in the presen

-New developments in the Monnoir College difficulty have made themselves manifest by the presentation of a peti-tion to Rome on behalf of the citizens of Sorel, asking that the college be established there.

The petitioners, who have formed 10-stamp battery; also small mine equipment themselves into a committee for the ment boiler, compressor, holst, drilla, purpose of a ding in the establishment etc., will accept part cash, balance stock.

Walter Thurlow, Box 18, Cobalt, of Sorel, asking that the college be

purpose of a'ding in the establishment etc., will accept part cash, balance of a classical college in their town, point out that by allowing the disputed college to settle at Sorel, an easy way out of the existing impasse could be found. Sorel is in the Diocese of Ste. Hyacinthe, and the petitioners think it should therefore be acceptable to Bishop Bernard of Ste. Hyacinthe, who first moved against the interpretation of the state cinthe, who first moved against the 'ustitution when the priests who conduct And so Sensational Yarn of Dark Asit removed it from Marleville, in his Diocese of St. John's, in the Diocese of "HERO" IS REMANDED

Abraham Crownstein, the Russian Jew. who alleged he was a survivor of the Titanic, thereby reaping much glory and some little pecuniary emolument. appeared in police court on a charge of false pretences yesterday morning. His case was remanded until Aug. 6. "Our Hero" admitted that he was not a passenger on the Titanic. INQUEST ADJOURNED.

The inquest into the death of Geo. Merriman, who was found smothered in a pile of shavings at the Laidlaw lumber plant, Dundas-st., about a week ago, was opened at the morgue building, before Coroner McConnell and a jury yesterday morning. Evidence went to show that there had been no chute thru which Merriman could have fallen. The inquest was adjourned until Friday night.

archistic Plot Fades Into Nothingness.

MONTREAL, July 29.—(Can. Press.) A sensational bomb story, appearing in an evening weekly Saturday, under huge headlines, is denied by officials of the Allan Line here and the mistake is explained in a letter to the editor. The story stated that a large number of bombs had been found, together with other weapons, among the unclaimed baggage at the Allan Line shed. The outfit was termed "An Anarchist's Kit," aind was said to have been brought over by the Virginian one of her trips to St. John. N.B., before navigation opened to Montreal, and from there sent to the head office here. Knives of German make were among the tools and an anarchistic plot was the theme of the story

Mr. Hannah, representing the Allah Line, writes as follows: "That which you have described as bombs are floats for fishing tackle and were in a box containing a sporting out fit, and are still on the wherf, to be examined by yourself or anyone BRICK STRUCK HIM.
