BANQUET TO DR. PARKIN.

To Be Given at National Club—Admission Boys at U. C. C.

The British Empire League will banquet Dr. G. R. Parkin at the National Club on Wednesday evening.

Last evening Dr. Parkin addressed the boys at Upper Canada College at their regular Sunday service. A large number of the old boys were also present to meet the former head master.

In the course of his remarks, Dr. Parkin urged the boys to conduct themselves with the appreciation of the fact that they were some of the makers of the future of Canada. He lauded the ideals of Cecil Rhodes, who had endeavored by the gift of scholarships to unite the virility of the new world with the culture of the old.

Marshall Field Left \$100,000,000.

Chicago, Jan. 27.—Detailed figures on the estate of the late Marshall Field show he had accumulated more than \$100,000,000. The taxable personal property of the estate amounts to \$49,577,270, on which more than \$500,000 must be paid this year in taxes.

This is as against the valuation of \$5,000,000 placed on his personal estate by Mr. Field himself, and the valuation of \$25,000,000 which the assessors, under protest by the executors, took as a basis for taxation last year.

To the figures must be added \$80,000,000 in real estate, from which actual money paid in taxes will be more than \$300,000, making a total of taxes to be paid to the public by the Field estate of about \$1,000,000 annually.

The estate consists of personal property totaling \$25,851,941.50, with stocks and bonds listed at par, but with an estimated market value of \$55,000,000; \$20,000,000 worth of real estate in New York.

Deputation on Beet Sugar.

Hon. Nelson Monteth received a deputation from the Wallaceburg Sugar Company on Saturday, and was asked for a renewal of the bounty which expired with last year's payment. The request will be considered.

The Girl Who Earns Her Living

One of the marvelous developments of modern life is the advent of woman as a co-laborer with man throughout the entire industrial field.

It follows, then, that woman must adapt herself to new conditions. But this can't be done in one generation, nor in ten. In consequence she lives in an environment of unhygienic conditions, unsuited to her temperament and constitution.

The incessant strain upon her nervous system by reason of the new vocations she has taken up, strikes at the very foundation of her physical stability.

Work becomes worry, and this means destruction to the nervous system. Very complex in her physical relations to life, disease early seizes upon the woman who works, and she must therefore guard jealously anything that would tend to destroy her vitality or health.

Probably nothing is of more service than Dr. Hamlin's Pills, and every girl and woman can employ this grand tool, no treatment gives such results.

As a system tonic and blood renovator, no treatment gives such results. For maintaining good digestion, healthy appetite and the proper performance of the duties of the mother and housewife, it is impossible to equal Dr. Hamlin's Pills.

Dusky, sallow complexion is changed to a healthy, rosy glow, which proves that Dr. Hamlin's Pills circulate blood that is rich and nourishing.

Weak organs are filled with new life and vitality; weakness, irregularities and the common ills are prevented, and this means more to those who have lived in that half-sick, half-well condition that seems so hard to overcome.

When you feel poorly, when the head aches, back feels lame, and a drowsy, tired feeling creeps through you—that's what tells of the need of Dr. Hamlin's Pills; try them.

Sold in yellow boxes, 25c each, or five for \$1.00 at all dealers, and satisfaction guaranteed.

HAMILTON HAPPENINGS

VISITING SISTER, DIES.

Philip Ewart of Cobourg Suddenly Called—Happenings.

Hamilton, Jan. 27.—(Special.)—Philip Ewart, Cobourg, dropped dead Saturday evening while visiting his sister, Mrs. E. J. Wilson, 39 Grant-avenue. The remains were forwarded to Cobourg this evening. A service, conducted by Rev. Dr. Doyle, was held at the Church of the Ascension for 37 years, died yesterday afternoon, in his 71st year. The funeral will be held Tuesday afternoon.

A shed at the corner of Park and Hunter streets was set on fire this afternoon. The firemen arrived in time to prevent serious loss.

Thomas McMaster was locked up Saturday night, on the charge of cutting and wounding Joseph Kibble. The trouble started in a pool room at the corner of King William and John streets.

Lawrence Hatt, another of the prisoners sent down in connection with the car riots, has been released. He was sent down for three months, and had only three weeks more of his sentence to serve.

A stranger went thru the belongings of several of the boarders at the home of Mrs. Sims, 14 Canada-street, and got away with about \$40 and some jewelry.

Johnny O'Rourke, the 9-year-old youngster who was picked up by the police Saturday, and who said that he had been lost by an aunt, turned out to be a Hamilton boy, whose home is on 191 North Hesse-street. He told the police that his home was in Guelph.

It is understood that E. A. Dalley has been appointed to take the place of Henry New on the board of license commissioners. The temperance people of the city have sent a letter to the provincial secretary, protesting against the removal of Mr. New.

The annual meeting of the H. G. and B. will be held Monday afternoon. There will be no dividend declared, although it is said the company had a very prosperous year. The minority shareholders say they have control of the situation and can block the extension schemes of the directors, who will be forced to buy them out at \$200 a share, with interest, the same as the other shareholders when the famous sale took place two years ago.

In Real Estate Doomed? The investors of Hamilton are creeping up to some extent. Hamilton is becoming the property of moneyed men. The cities surrounding are offering lots free for prices. We do not wish that, but we can offer a house and lot in the west end for \$1500. A. J. Douglas & Co., 10 John St., Tel. 2175.

Open ready for business, barber shop, Federal Life. Fred H. Sharp, eight years Hotel Royal.

See Billy Carroll's Pipes to-day at the Grand Opera House Cigar Store.

SURPLUS MORE THAN IT SEEMS
Lots of Other Cash Which Government Has But Gives Away.

It has been pointed out that the \$300,000-odd which the provincial budget is expected to show a surplus, does not include the nine-tenths of the price paid for Cobalt Lake, nor any part of the sum received for Kerr Lake, these two amounts being carried into the accounts for 1907. It will also be remembered that the revenue from railway taxation and from liquor licenses, which largely swells the total of \$7,000,000, is returned again in large measure to the municipalities, being thus merely a cross-entry. The Ontario government has also expended for educational purposes last year, so that the surplus shown is much more creditable than appears at a first glance.

BURNHAM AT SING SING.

Former Vice-President of Mutual Reserve Begins His Sentence.

Ossining, N.Y., Jan. 27.—George Burnham Jr., former vice-president of the Mutual Reserve Life Insurance Company, is in Sing Sing Prison, but has not yet been booked.

Burnham and another New York convict came up in care of deputy sheriff yesterday after the prison was closed. He was simply placed in a cell and received for. He and the other convict will undergo the formalities in the morning.

Warden Johnston said to-day he did not know what work Burnham would be put at.

New Mining Companies.

The Ontario Gazette announces the incorporation of these mining companies: The Toronto, capital \$750,000. The Crow Reserve, Limited, Toronto, capital \$250,000. The Ontario-Cobalt Mining Company, Toronto, capital \$100,000. The Cobalt Mines Syndicate, Toronto, capital \$250,000. The Ontario-Cobalt Mining Company, Toronto, capital \$100,000.

A total of five companies, with an aggregate capital of \$4,500,000. The three named companies all include as their provision, in their charters, the name of John Michael Ferguson, barrister.

O'Sullivan, law student; James H. Hall, gentleman, and Mary Donovan, stenographer, all of Toronto. The first of the three companies, namely, the Cobalt Mines Syndicate, has numbers George F. Hensel, broker, of Philadelphia, as its provisional directorate.

Activity in Beaver.

It is said that there is a great deal of activity in the rumor circulated a few days ago concerning the control of Beaver stock. It is said that a strong syndicate of Cobalt mining men have already deposited a large sum of money for the purpose of purchasing control of Beaver stock. This may account for the activity in Beaver stock, which has increased in value owing to the rich find made on the Temiskaming Company's property, which is practically a continuation of the Beaver vein.

DIED SUDDENLY.

Mrs. Ada Hall, wife of W. Myddleton Hall, barrister, 119 Spruce-street, died suddenly Saturday afternoon. She had been ill from nervous trouble for some time. Dr. McCauland, who had been attending her, is himself ill.

Dr. McCauland, who has been attending her, is himself ill. In order to carry out the formalities of the law Coroner Pickering will make enquiries.

KNOX CHURCH CORNERSTONE CEREMONY WELL ATTENDED

Lieut.-Governor Clark Expresses Pleasure at the Event—Other Churches Congratulate.

In the presence of a large gathering of the members of Knox Church the Lieut.-Governor, Clark on Saturday afternoon assisted in the laying of the corner-stone of the new church proper, now under construction.

Deposited in the stone were copies of the church periodicals and coins of the realm, together with a number of mementoes to the present location, the Church, shortly to be dismantled.

Following the laying of the stone the Rev. Dr. McLaren pronounced the dedicatory prayer.

At the public meeting held in the assembly room of the school prior to the last named ceremony, and presided over by Rev. A. B. Winchester, brief addresses were delivered by a number of the members of the Presbyterian and other denominations. The Rev. Dr. C. H. Hosack pointed out the field which would be opened by the removal to the present location, and declared that the work of the church, however happily equipped with respect to its material resources, would be utterly "to measure up to the standard" unless ended with the Holy Spirit.

It was important to remember the poor; it was equally as important to minister to the souls of the rich. It was a serious matter to consider the same receptive field for Christian work among the rich as the poor.

Dr. W. F. Wilson conveyed the greetings of the Methodist Church throughout the city and joined in hearty congratulations at the onward march of the Presbyterian Church.

The climate of Canada, said Rev. J. B. Slocock, responding for the Congregational church, was not favorable to the growth of their churches, but across the line and overseas it occupied the position of a "big sister."

Lieut.-Governor McLaren presented at this stage of the proceedings with a silver trowel by John McGregor, chairman of the committee, and Mrs. Clark with a magnificent bouquet by Miss Ruth Winchester. His honor referred at length to the difficulties encountered in the removal of the church, and reviewed the history of Knox Church from its inception.

"No even of my life," said his honor, "has given me more pleasure than the duties to which I have been assigned to-day."

Among the leading clergy and laymen present were: Rev. Prof. Kilpatrick, Prof. Robertson, Rev. W. F. Wilson, Dr. McLaren, A. E. Armstrong, Rev. J. E. Robertson, A. E. Armstrong, Rev. E. C. Tibb, Rev. Mr. McGregor, Rev. T. C. Brown, Rev. Mr. McKinley and Dr. Davidson.

The new church, when completed, will rank among the most beautiful churches on the continent, and will cost \$150,000.

In its architectural design the builders have adhered to the Gothic style of the "decorated period." From foundation to roof, every vestige of the exterior frame work is to be carefully selected Queenston limestone.

The tracery work above the doors and dividing the window panels will be solid stone thrust, beautifully carved.

Facing Spadina-avenue on the west side, the magnificent structure will be a tall needle-like spire, flanking the north front corner, tapering to a height of 215 feet over.

From the avenue the church will be a "wheezy chest colds."

When it is hard to expand the chest because of tightness and cold look out for trouble. To delay is dangerous. All the inflammation is drawn out in one day by "Nervine," it penetrates deeply, relieves congestion and breaks up colds. For sore throat, weak chest and tendency to cold, no treatment is half so certain as "Nervine." Fifty years in use as Canada's household remedy—worth its weight in gold—cures every ache and pain—costs only 25c a bottle anywhere.

Toronto Furnace & Creamatory Company.

72 King E. Phone M. 1907

entered by a group of three large oaken doors, with deeply revealed Gothic tracery, and leading to a series of arched doorways, the heads of the arched doorways are to be filled with rich stone tracery, and the moulded base accessible by an easy flight of stone steps broken up by landings.

Directly over the front entrance are situated three imposing three-arched windows, with stained glass, the centree light of which is to be 27 feet clear.

The main entrance communicates with a long vestibule of mosaic floor traversing the entire front of the church, and ending in a series of winding staircases leading to the gallery of the main auditorium. The gallery will be finished in plaster ornament, and supported by twelve large iron columns with fluted plaster caps. Over the organ and pulpit will be suspended a large carved arch. The interior will be finished in plaster, and all windows will be beautifully stained and tracery, shedding a rich, mellow light upon the interior by day and clearly defined from without by night.

A congregation of 1000 will find ample seating space in the body of the church.

The pulpit and choir space will be elevated moderately, according to the most approved ideas, and surrounded by gorgeous brass railings.

Sunday School Opened.

The Sunday school, which is now complete, and was formally opened yesterday, will be used for church purposes until such time as the main structure is completed, and in a doubt the finest in the city at the present time. It embodies three floors and a basement, and is a model of simplicity to accommodate any and all functions and services pertaining to the modern institutional church. In the basement will be boys' and girls' lavatories, and a working kitchen communicating with a second kitchen and the rooms above by a dumb waiter. Associated with the boys' lavatory are three thoroughly modern shower baths, to be used in connection with a Sunday school gymnasium.

The ground floor contains a social parlor, kitchen, vestry, session-rooms, ladies' and gents' toilet-rooms with marble fittings and very large and beautifully fitted up lecture-room.

Two floors above will be devoted to Sunday school purposes, and contain a library and eleven classrooms, grouped around a large central auditorium. Directly above the classrooms is a spacious paneled oak gallery arranged so

as to provide twelve brightly lighted classrooms, each communicating with the main auditorium by sliding front panels.

The interior of the Sunday school is to be finished in stucco plaster, stained yellow, with plaster of paris mouldings, the woodwork throughout being of dark stained oak.

The large central opening acquired by the economic arrangement of the gallery classrooms gives excellent opportunity for lighting the Sunday school lecture-room by means of a large skylight.

It is hoped that the building will be completed about midsummer.
