## COBALT---Nugget Weighing 118 Pounds Taken Out at Larder Lake---COBALT

## HOLDERS DISSATISFIED WITH REGENT EVENTS

Liquidation in Leading Cobalt Stocks is Assisted by Professional Operations.

The suspension of the Trethewey dividend, which was announced at the lose of last week, was not felt fully the earlier part of this week, Shareholders thruout the country took a day silver Bar Rothschild Cobalt Co... Cleveland-Cobalt ... before coming to a conclusion, and if the market must be accepted as an index of the opinion held it must be Peterson Lake dex of the opinion held it must be conceded that shareholders in mining stocks are thoroly dissatisfied with the way things have been working in the more prominent companies in the Cobalt Cantal Cobalt Contact Silver belt camp. Both Foster and Trethewey were heavily dealt in the first few days of the week, when new low records were made for both the stocks. Consolidated Min. & Smelt Canadian Gold Fields. records were made for both the stocks. Most of the transactions were traceable to the dealings of brokers acting for themselves, who took advantage of the nervousness of holders to depress stock in anticipation of a good deal of liquidation, from the small holders. ment and real mining the results will ultimately warfant a good deal better

rations at the camp are still being held up by the persistent inclemof the weather. This state of conditions, however, cannot last very much longer, and when the various developments can be proceeded with unhindered, the results as will be

shown by larger shipments show as a tonic to the market.	uld ac

NUGGET FROM LARDER.

Fine Sample at Ottawa From the Reddick Mines.

dick mines at Larder Lake and brought have proved that he has ultimately done so in this case. It said hat for morths he quietly studied feldspar, both on and off duty, until he knew both on and off duty, until he knew breasury and a par value of \$1 for the was taken out at the nine-foot level of a new strike made on one of their claims by Edward Chamney, the suclaims by Edward Chamney, the superintendent. This strike is parallel to the one made by Col. Rogers a month ago, and is over 30 feet in width, and shows marvelous richness all over. The colonel very sensibly states that it would be ridiculous to have an assay made of this large nugget, as it carries such very high value that the result would be doubted by some people, unless they have seen the property for themselves. This nugget is 

covered up the remainder. He was is turning out so well, will interest his accompanied by J. Barnet MacLaren friends. The mine is at Bedford Statand a well-known mining expert on his trip, which was a very difficult one they have a complete outfit in taking going out, owing to the frightful depth the spar from the mine across two of mud on the trail; but the return lakes, and to and over the K. & P. Railway, and over a special dock in Mendigo Lake route, taking only ten Kingston without breaking bulk and hours from Reddick Bay to Wendigo. They ran five rapids with the canoe and had to portage six times en route, at which places the 118 pound nugget could easily have been estimated to weigh a ton by the time some of the portages were crossed. Two of the portages were crossed. Two of the portages were over half a mile and street railways, Harry Richardson will portages were over half a mile and street railways, Harry Richardson will portages were over half a mile and street railways, Harry Richardson will portages were over half a mile and street railways, Harry Richardson will portages were over half a mile and street railways, Harry Richardson will portages were over half a mile and street railways, Harry Richardson will portage were over half a mile and street railways, Harry Richardson will portage were over half a mile and street railways, Harry Richardson will portage were over half a mile and street railways, Harry Richardson will portage were over half a mile and street railways, Harry Richardson will portage were over half a mile and street railways, Harry Richardson will portage were over half a mile and street railways, Harry Richardson will portage were over half a mile and street railways, Harry Richardson will portage were over half a mile and street railways, Harry Richardson will portage were over half a mile and street railways were served to the firm of the buches the camp maket.

All these deals have involved large sums of money. The R. L. Bernier Co. of Chicago are also known to be making good weigh a ton by the time some of the portages were crossed. Two of the portages were over half a mile and were very rough. The ice left Larder Lake on Monday at 3 o'clock and steam and gasoline boats commenced running immediately, which will prove a convenience to passengers, and for getting in freight on Larder Lake. The employes of the company are having a nice change in their menu now, as every evening they go out fishing, and catch great numbers of Salvelanus.

The description wheat to friends know that from wheat to street railways, Harry Richardson will street railways from the is interested. ## BY STUDYING MINERALS

Is Earning \$25,000 a Year.

Ottawa Journal: It is said that a Kingstonian is making about \$25,000 a year out of feldspar, and that some dian Pacific Railway branch (formerly another way in which the mineral resources of Ontario have panned out well, and it is understood a good deal well, and it is understood a good deal of this ore is being sent across the line. The Journal has received the following account of the matter from a Kingstonian:

Two hundred acres are to be included in the new company, and the property lies in the heart of the rich proven district of Cobalt, surrounded by the O'Brien, La Rose and Nipissing mines ingstonian:
"Several years ago a slick American and directly adjoining the same

OTTAWA, June 8.—Col. Rogers re-turned this week from the Dr. Red-dick mines at Larder Lake and brought have proved that he has ultimately agement will make this one of the most

record breaker.

The colonel states that the dyke where he made his strike last month proved by actual measurement to be 76 feet in width instead of 50 feet, as he stated before, the isnow having covered up the remainder. He was a companied by J. Barnet MacLaren friends. The mine is at Bedford State and had a mountain of it, he got in, and can stay in, and with a moderate profit can clear up about \$25,000 a year for many years.

"Mr. Richardson is well known in Ottawa, and this account of the mine he has been interested in, and which covered up the remainder. He was is turning out so well, will interest his accompanied by J. Barnet MacLaren friends. The mine is at Bedford State of the colonial to have purchased the Gamey or Wright lot, located near the Gamey or Wright lot, located

dition of Mine is Satisfactory.

NEW YORK, June 8.-In a circular issued to the stockholders, the management of the Cobalt Central Mines guste Langebahn, formerly of London, has now reached an advanced stage. The shaft on the Big Pete vein is down about 140 feet. The No. 1 drift has reached a distance of about 175 feet. Another drift has been started at the 115-foot level, and is now in for a considerable distance. In all of these workings the ore is of uniform value, indicating that the vein is of a permanent formation and may be mined to a considerable depth. Outside , development has been considerably refor the time they are on the docks tarded by the severe winter weather.
