Exciting Broadway Fire.

broke out late to-day on the fourth floor of a manufacturing building on

Lower Broadway caused a panic among a hundred or more girls employed there.

Several climbed out on the narrow win-

dow ledges overlooking Broadway. The firemen ran up scaling ladders as soon

as they arrived, and also spread the fire nets. Two young women jumped before the firemen could reach them. One was caught in a net and escaped

with a fractured leg. The other fell into an awning, which held for a mo-

ment, and then gave way, dropping her into the arms of a policeman. She suffered severe internal injuries.

Fell at Heidelburg.

In the minor issues there was considerable business around yesterday's prices. Outside the exchanges sentiment is still hopeful of an early turn in the trend of prices. From New York a much better demand is noted for silver

bullion and dealers predict a recovery in the price of the metal. NIP'S FEBRUARY STATEMENT.

During February the Nipissing Co. mined ore of an estimated value of \$144.384, and shipped ore of an estimated value of \$190,640. The important developments of the month included the striking of ore in a raise from the 210voot level of voin No. 26; the cutting of veins Nos. 72 and 101 at depths of 75 feet, and the continued good showing at the Fourth of July shaft. Nipissing Mines Co. directors will meet on March 22 to take action on dividend due to be

- KERR LAKE DISTRICT.

Many New Valuable Veins Have Been Recently Encountered.

According to information down from Cobalt, the Kerr Lake District is making history fast that will lead to great things for the camp. Both the Crown Reserve and Kerr Lake have been encountering new ore bodies of the greatest importance. Crown Reserve has cut into several new very rich veins in the past three months. The new strike of the Kerr Lake near the Lawson line is wonderful. People who have seen it say it is about 7 inches wide and runs 70 to 80 per cent. pure silver. The Hargrave management, learning of the Kerr Lake's latest big strike, has started a tunnel to cut a strong vein on their property known as the West Centre vein, near son line. The tunnel is being driven in about 100 feet below the apex of the vein. Work is going on continuous-ly on the Jacobs or No. 3 vein of the Kerr Lake, which runs across from the Kerr Lake into the Hargrave pro-perty. The shaft is now down 170 feet, and a cross cut will soon be run to tap this famous vein. Kerr Lake has derived its principal revenue from this

Silver in Good Demand.

NEW YORK, March 10.—A good degree of silver buying marked London and Paris to-day. The German and French mints are in the market and commitments for shipment to East India and China are increasing. Re-ported sales of silver in London today totaled 6,000,000 ounces. Zimmerman & Forshay say of the silver markets: "The statistical position of silver is consilidating. While the volume of business is not large as compared with the former periods when low level Silver Bar—400 at 49½. day totaled 6,000,000 ounces. Zimmerthe former periods when low level prices served to improve the demand, yet there is a gain in selling to East Indian and Chinese markets and Ger-

many is taking more interest in sil-
