A FAMILY FESTIVAL

On Friday evening next, the Jewish festival of liberty, known as Pesach. the situation between coal merchants conclude the feast on April 9. Services will be held in all the Jewish The Passover is a domestic function observed in every Jewish household. It is inaugurated with a beautiful home ceremony, in which the whole family participate. This home "service" is motor truck drivers, \$31.25 a week; motor truck drivers, \$33.75 a week; of Seder, is used by Jewish families quaint songs and stories, awakens forced to lay off perhaps 60 hours. For this reason and because of the quaint songs and stories, awakens a love of liberty.

During the Passover week, Jewish families eat the unleavened bread, dollar an hour, matzoth, which is one of the several symbols employed in the celebration of the festival to emphasize the lesson The matzoth is also known as the "bread of affliction," and is a memor-ial of the hasty flight of the Hebrews

from Egypt.

The Coming of Spring.

As the spring is incident to the awakening of nature from the subjugation of winter, so to the Jew is the Passover festival a symbol of liberty and freedom and an escape from

tyranny and bondage. The historical event associated with the Passover is the chief element in its significance. In Exodus xii., ch. 14, vr. 28, the children of Israel are enjoined to observe the feast of unleavened bread thruout every generation, on account of the hasty flight of their ancestors from slavery. This escape from the bondage which had prevented them from enjoying their birthright of freedom and self-determina tion is commemorated in the Passover HOUSING GUILD ISSUE celebration. During the darkest days of oppression, the Passover restored confidence in the Jew and a firm belief in the final triumph of liberty over persecution, oppression and bigotry.

In the old days, wine was freely used during the Passover festival, and also a sauce called haroseth, made of dates, raisins and vinegar. The unleavened bread was dipped into this sauce before being eaten.

The principal of taking wine during Passover is a part of the festival of today, but, of course, the O.T.A. somewhat mars its full performance. Can Get Wine.

The World yesterday made some in quiries into this matter, and found that owing to the present state of the temperance legislation no Jewish householder will have any difficulty in obtaining from Montreal all the wine he requires. The Ontario licensing commissioners have made no special arrangements this year for as they consider it quite unnecessary, in view of the importation facilities from Montreal. Certificates signed by a rabbi will not this year be accepted Rabbi Jacobs and his brethren have not availed themselves of a clause in the O.T.A., by which they can ask for Inverness. special facilities for wine for religious purposes. They take the same view as the commissioners, that all wine necessary for Passover festival can and will' be obtained from Montreal.

BALDWINS MUST PAY TAXES

The appeal of Baldwins, Limited, against the assessment made on their land, formerly belonging to the imperial munition board, who held it exempt from taxation for two years after the war, was dismissed yesterday by the court of revision, Chairman Drayton said as the matter now stands the property is not exempt and must be taxed. The taxes are in the neighborhood of \$18,000.

SALARY QUESTION NOW UP TO COUNCIL Tigress

Heads of Civic Departments Recommended for Big Increases.

City council at its next session will have to pass judgment on the question as to whether civic employes are to receive twenty per cent, general in-crease in salary. The board of control at several private meetings discussed this matter and came to the conclusion that the special high cost of living bonus should be converted into an approved wage increase. They have sent a recommendation on to council that a 20 per cent. increase be granted to Toronto's civic employes in receipt of \$3,000 or less per annum. A table compiled for consideration

by the members of council shows that nearly four thousand, or 3,723 employes, are affected by this recommendation. Of those receiving \$1,248 or less, yearly, there are 2,183 in all civic departments. Those receiving from \$1.249 to \$2,000 yearly number 1.483 and from \$2.001 to \$3000, eighty-
