

HOLLOWAY'S Lozenges } WORM { Candy !

ONE great cause of disease in the human family is to be attributed to Worms. They attack all ages, from the youngest up to the adult, but more frequently between the ages of three and ten years. They often produce alarming effects without being suspected. They are not only a cause of disease, but by their irritation aggravate all other diseases. Their presence deranges the whole system, causing the following

SYMPTOMS OF WORMS:

Indigestion, irregular appetite, moaning and restlessness during sleep, grinding of the teeth, swelling and hardness of the abdomen, with frequent slimy stools, countenance pale, picking at the nose, offensive breath, low spirits, irritable and feverish, frightful dreams, headache, pain in the stomach, urine turbid, convulsive fits, and a gradual wasting away of the flesh, etc. When any of these symptoms are noticed, do not delay in getting relief for the sufferer.

An excellent domestic remedy for Worms and which is perfectly safe, is to be found in

HOLLOWAY'S WORM LOZENGES & CANDY.

They are vegetable compositions, and as easily taken by children as common candy, which makes them very desirable medicines to administer, especially to small children. They act specifically on the Worms, and are sure to kill and expel them from the stomach and intestines.

A single trial is sufficient to convince parents that these are excellent worm medicines, which will do the work thoroughly. They not only destroy worms, but dissolve the superabundant slime or mucus so prevalent in the stomach and bowels of children. This mucus forms the bed in which worms produce their young; it is, therefore, very necessary that it be removed, if you desire your children to be free from worms, and in a healthy condition.

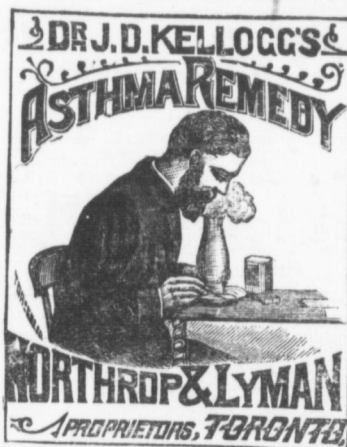

Holloway's Worm Lozenges are put up in large boxes and sold at 25 cents, and the Candy in sticks at 12½ cents. Full directions with each.

A DETECTIVE'S LEAP.

Mr. Thomas Flynn, Chief Detective, Grand Trunk R. R., says: "Business called me a short time ago to a village near Kingston. While the train was in motion I jumped off; in so doing I alighted on the sloping part of the ballast, where the track had been raised, with such force as to severely sprain my knee. I was driven to Kingston and had to be assisted to my room. I immediately procured a bottle of Dr. Thomas' Electric Oil, and although my leg was so badly swollen that I could not bend my knee, after three applications of this oil I was out of bed and walked to the station. This was on Saturday afternoon, and on Monday I was able to attend to my business as usual. I also used this wonderful oil for sore throat, and it cured it."

Asthma is known by a quick laborious respiration which is generally accomplished with a kind of wheezing noise. Sometimes the difficulty of breathing is so great that the patient is obliged to assume an erect position to prevent suffocation. It is generally ushered in with great listlessness, want of sleep, cough, hoarseness, oppression of the chest, flatulency, difficulty of breathing, etc., and commonly occurs in the night.

Dr. J. D. Kellogg's Asthma Remedy is a specific for this dreadful disease. It has a very soothing effect, diminishes the sensibility of the membrane of the throat and air passages, and gives immediate relief to that distressing tightness of the chest which causes so much pain and anxiety. If the reader is afflicted with Asthma, or has a friend afflicted, we would ask him to read the following testimonials, which speak for themselves, and what this medicine has already done it can do again if the directions are followed.

Mr. John Rafferty, Mount Albert, writes: "For four years I have suffered with Asthma, and could get no relief until induced to try Dr. J. D. Kellogg's Asthma Remedy, when it gave me almost immediate relief. I have not had a severe attack of it since. I believe another box will make a permanent cure."

Mr. W. Hoperoff, Charltnch, writes: "A customer of mine suffered greatly from the Asthma, and spent a small fortune trying to get relief, but until he tried Kellogg's Asthma cure nothing helped him; one box of Kellogg's has made a new man of him."

Mr. Jas. Thomson, Hudson Bay Company's Office, Portage la Prairie, writes: "I have found Dr. J. D. Kellogg's Asthma Remedy invaluable."

Mrs. L. Jackson, Deseronto, sends us the following: "For 17 years I have been troubled with spasmodic asthma. Eminent physicians have treated me, but I could get no relief. At last I got a small box of Dr. J. D. Kellogg's Asthma Remedy from Mr. Egar, our druggist, and I cannot in words express my gratitude for the benefits I have received from its use. It gave me immediate relief, and I can honestly recommend it to all asthmatics."

Sold by all medicine dealers; small boxes 25c., large boxes \$1.
