#### 135 prs. Lace Curtains

Great bargain in curtain department. Choice of number of first-rate designs: some with net centres. Sale price 89c pair.

## MUST LAY NEW WATER MAIN BEFORE PERMANENT PAVING

**Director Murdoch Brings Beard of Works Face-to-Face With New Problem—To Call For Tenders for Paving Two Blocks on Germain St.**

At a meeting of the board of works yesterday afternoon, after hearing a delegation of residents in Germain street, it was decided to recommend the council to call for open tenders for permanent pavement for the two blocks between Princess and Queen streets. The director reported that before any permanent work could be done, a new water main would have to be laid in the Duke-Queen street section, and connections made in the other. He was instructed to bring to the water board an estimate of cost. Ald. McDougall occupied the chair, and Ald. Elkin, Codner, Holder, Scully and Sprout were present with the director, street superintendent and common clerk.

The director reported that in view of the removal of his office to the city hall, a telephone in his house would be necessary, and he also suggested some minor changes in the rooms to provide for a private office.

#### PROVES NERVILINE CURES CHRONIC SCIATICA

**Neck Statement of a Well Known Newark Merchant Establishes That Sciatica Can Be Cured Quickly.**

It was four years ago I first was attacked by sciatica. The pains came and went, and at first were not severe. I took no precautions against relapse and the conditions grew permanent. Severe grinding pains like points of steel being forced through my flesh, affected my left side. I became almost a cripple, and on a damp or stormy day was afraid to leave the house.

"NERVILINE" was recommended and I rubbed on lots of it. In a week I improved, and by persevering with the Nerviline rubbing and taking it every night, twenty drops in hot sweetened water, I finally got the disease under control. In eight weeks I was cured. I have never since felt a twinge or an ache, and for those affected with Neuritis, Rheumatism, Lumbago, Sciatica, or any other muscular ailment, I can conscientiously recommend "NERVILINE."

For fifty years Nerviline has been a standard household remedy all over America. Many doctors and druggists use it in their own families because it is the best, strongest, most penetrating liniment made.

Beware of the unscrupulous dealer that endeavors, because of the extra profit on an inferior article, to induce you to take anything in place of NERVILINE. Large 50c bottles at all dealers.

The matter was referred to the director and street superintendent to report.

A delegation representing residents in Germain street, was heard with reference to their petition for permanent pavement. Those present were: W. E. Raymond, J. R. Stone, Major Bullock, F. E. Williams, E. L. Peters, W. Tremaine Gard, L. G. Crosby, E. T. Sturdee, Percy W. Thomson and H. C. Rankine.

The opinion of the recorder to the effect that the petition was not in order as it asked for pavement and limited the liability to \$250 a lineal foot, was read. He contended that by making the petition conditional it was not in accordance with the statutes.

Mr. Thomson said he thought it was only reasonable that the residents who were to bear part of the expense, should have some say in the kind of pavement to be used.

Mr. Crosby expressed himself willing to pay his share of the cost of any good pavement, and suggested that the petition should be asked to draw up a new petition in legal form.

Col. Sturdee said he was satisfied to leave the selection of a pavement to the common council. He had confidence they would select the best. Mr. Stone was in favor of the paving, and an old man who was present, said he would settle the matter.

After one or two other speakers had been heard the delegation withdrew. When the matter came up for discussion Director Murdoch introduced a new problem into the situation by informing the board that it would be no use putting down permanent pavement with the water mains in Germain street in their present condition. He explained that there were two mains between Princess and Duke streets, one new, which had never been used or connected, and an old main which was in use and constantly bursting. The first thing to do, he said, was to cut out the old main and lay the new one. The present main was inferior and it would not be safe to cover it up permanently. He had pipes on hand to do the work.

He suggested that possibly the residents in Germain street might be willing to contribute something towards the cost.

The mayor said the sooner something was done the better.

Ald. Codner moved that the council be recommended to call for open tenders for paving the two blocks.

Ald. Sprout doubted if the city was in a position to finance the water end of it. He suggested sending the matter to the board of renewal of the mains.

A recommendation from the director that a piece of asphalt sidewalk be laid in front of the Carleton branch of the Bank of New Brunswick at a cost of \$80, the bank paying half, was carried.

A report with reference to making a new roadway between Carleton and North streets was laid over until the next meeting.

The director was instructed to report on the condition of the sidewalk in Seely street. H. B. Schindler wrote asking the board to take the matter up as the street was one of the principal approaches to the park.

A communication from Manchester Robertson Allison, Ltd., protesting against their petition for permanent pavement, was read. It was referred to the common council, who will have before them a recommendation on the subject from the safety board.

The mayor suggested that it would be better to limit the time to 8 a. m. The director was instructed to report on a claim of \$120 from E. Stewart for the use of his lot for the last six years for the purpose of making asphalt.

An order was passed for the purchase of a horse for the use of Superintendent. There was some discussion on the question of making cement sidewalk in Douglas avenue but no action was taken.

In reply to Ald. Scully, the street superintendent said an asphalt gully would be in Carleton in a month.

The director reported that he intended to try pitch pine in place of spruce blocks on a section of the wood paving. At the suggestion of Ald. Baxter, the director will report on the question of laying some granite blocks or other form of permanent pavement in a section of Mill street now that the roadway has been taken up by the N. B. Telephone Company.

#### W. B. TENNANT DENIES THAT RHODES-CURRY DEAL IS CONFIRMED

In connection with the reported transaction of the Rhodes Curry Company business in Amherst to Upper Canadian capitalists, W. B. Tennant was interviewed last night on his return to his home in Coldbrook after a fishing expedition.

It had been generally understood that Mr. Tennant had the deal in hand. He, however, authorized denial that any connection with the deal had been made. He said that certain Upper Canadian interests had been trying to acquire the control but said nothing definite was known.

## SUSSEX IS ALIVE WITH CITIZEN SOLDIERS

**Camp is Now in Full Swing and the Militia Are About All on the Ground.**

Sussex, N. B., June 27.—Sussex is alive with soldiers garbed in uniforms of red, khaki, black and blue. On the streets, at the depot and more especially on the camp grounds, the defenders of our country are to be seen. The military siding, about a mile above the station, is thronged with militia men unloading their goods; transport wagons are being driven hurriedly hither and thither, in fact almost every body is busy, and as a result the "tented encampment" has the appearance of a bustling military encampment.

The weather which was very inclement during the early part of the day has now cleared off, and although a strong breeze is blowing, the air is delightfully fresh after the heavy rainfall.

All the corps which will camp at Sussex this year have now arrived. The following comprise the bodies encamped:

The 8th Princess Louise Hussars; 18th Field Battery; No. 7 Army Medical Corps; No. 7 Army Service Corps; Canadian Ordnance Corps; No. 8 Signal Corps; Co. R. C. R.; Section of Guides and Infantry Regiments, 71st, 73rd, and 74th.

The smallness of the camp compared with other years is easily noticed. With the exception of the guides and signal corps, all the bodies in camp have been cut down considerably in strength. The Army Service Corps have only seventy-five per cent of their number in previous years. This allows them seventy men. The strength of the 73rd Regiment is limited to fifty-three this year. Major Weaver is in command and Capt. Jones is acting quartermaster. Col. Walker arrived in camp today and is now directing the work of that body.

A section of the Guides is now on the way to Sussex from St. Stephen. They are under command of Brevet Major Messereau. From St. Stephen to St. John they will journey on horseback, making a map of the country en route. Having arrived in St. John, they will board the train there for Sussex, where they are expected about July 5.

The infantry regiments have as many men as they are permitted to carry this year. The 73rd Regiment has only six companies, but each of them is full strength. Lt.-Col. Messereau is in command and this is his first year as commanding officer. Major MacNaughton is acting adjutant; Major Howard Irving, musketry instructor and Capt. Pond, S. A., acting quartermaster.

The 72nd were in hard luck this morning. They arrived in a downpour of rain, which wet them through, but they did not mind this so much as the fact that they had nothing to eat until 10 o'clock, after having come in about 7 a. m.

The 71st Regiment is commanded by Col. McLeod, who is assisted by Major Grey as acting adjutant. There are eight companies of twenty-two men each in the 71st. The commanding officer of the 74th is Lt.-Col. Fairweather, Capt. Weyman is acting adjutant, Capt. Elgsey is acting quartermaster.

There is a fine body of cavalry in camp this year under command of Col. Wedderburn and Capt. Goodfellow, acting adjutant. The men and horses are in excellent shape. The former numbers 238 all told, and the latter 210.

The 19th Field Battery are well worth looking at. They have some of the best horses in camp and the men are very careful about them. Major Anderson is in command, and Lieut. Donald is acting adjutant and quartermaster. The battery has eighty-one men and fifty-six horses in camp.

The tent in which the sub-target guns are kept for practice has been pitched and Musketry Instructor Quarter-master Sergeant Edwards gave command of it. The following have been appointed provisional lieutenants: T. S. Ryder, R. H. McKendrick, T. R. McMillan, Capt. MacNaughton, the captain of major, and Lieut. MacNaughton to a captaincy. Capt. H. M. Jacques, P. A. M. C., is detailed for duty as sanitary officer.

The 72nd and 74th Regiments will parade tomorrow for musketry instruction.

## FIREMEN STRIKE ON EASTERN LINER

**Nine of the Ransom B. Fuller's Crew Left the Steamer at Eastport—Strikers Places Filled.**

The Eastern Steamship Company's steamer Ransom B. Fuller, which was expected to arrive in port last evening at 6 o'clock, from Boston and way ports, did not arrive until 1 o'clock this morning, being delayed at Eastport by the striking of her firemen.

When the vessel left Eastport, apparently everything was alright, but on her arrival at Lubec, about four miles from Eastport, nine firemen stopped work, went to the office and received their pay and left the vessel. The vessel was then taken back to Eastport by the engineers, and after a delay of several hours, a new crew of firemen, to bring the ship to St. John and return, was procured, and the Fuller resumed her voyage.

She had on board fifty-seven passengers, most of whom remained on board all night and will disembark this morning. The Fuller will leave on her return at 7 o'clock.

Captain Mitchell, the commander, would say very little in regard to the trouble among the firemen, but it was said on board that the men were receiving union wages, but had struck in order to force a recognition of the union by the management of the company.

A crew of firemen have been sent from Boston to Eastport and will join the Fuller there today.

It was reported last night that the Calvin Austin, which sailed from this port earlier in the evening, was carrying an auxiliary crew of firemen as well as had reached the company that the regular firemen intended to strike as soon as the steamer got into United States waters.

Among the theological students ordained at the Holy Heart Seminary, Halifax, yesterday, were: Deacon, J. Doucet, Chatham (N. B.); sub-deacon, M. Howland, St. John; tonsure, M. Launigine, Chatham (N. B.).

## Indigestion

Stomach trouble is but a symptom of, and not itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and salivary complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

## Dr. Shoop's Restorative

SOLD BY ALL DRUGGISTS.

## FINE CHANCE FOR BRIGHT STUDENTS

**International Travelling Scholarships Proposed for "all Round" Men—Canada Gets Four of Them**

London, June 29.—A scheme for the interchange of university students between the United States, Canada and the United Kingdom, involving in its inception but very different from that established under the will of the late Cecil Rhodes, is in process of formation with every prospect of success. The idea, which is supported by an influential committee headed by the Right Hon. H. H. Asquith, prime minister of Great Britain, and Lord St. Leonards, high commissioner of Canada, and includes the heads of the chief universities in the United Kingdom, with the endorsement also of the presidents of the American and Canadian universities, aims to provide opportunity to students of the three countries to obtain some real insight into the life, progress and customs of other nations with a minimum of inconvenience to their academic work and at the least possible expense.

In the first place the promoters suggest the provision of certain travelling scholarships, the selections for which should be along the lines of the Rhodes scholarships, the selected candidate in addition to his academic qualifications, to be what is popularly known as an "all round" man.

Twenty-eight of these scholarships are proposed, fourteen to be available for universities in the United Kingdom, ten for America and four for Canada, the Canadian and American students securing them to be given a ten weeks' tour in Great Britain under the guidance of a university man, the British students on the other hand to be given a similar tour of America and Canada, always during their respective long vacations.

The selection of scholars will be subject to the following rules:

(1). On the distribution of the scholarships by the committee to the various universities, the authorities of the institutions concerned shall nominate a number of eligible students in excess of the number of scholarships available, and from among these, the scholars shall be chosen by the student body.

(2). The Canadian and American scholars shall have completed their junior (third) year and shall not have begun their fourth.

(3). Preference shall be given to men who have shown interest in international, national, industrial, civic and social problems.

(4). Scholars must keep a detailed written record of their visit, together with their impressions, for inspection by the executive and general committees as well as by their university authorities.

(5). Reports should appear in as many universities and other magazines and newspapers as possible. Papers should be read before student organizations and discussions should be arranged in debating and other societies on matters arising out of the visit.

(6). The authorities of the universities which will be visited will be asked to appoint representative members of the staff and student body to meet and confer with the visitors in a personal and informal way.

(7). No student shall be elected to the scholarship more than once.

(8). Facilities will be provided for the scholars to meet leaders in many spheres of activity and lectures will be arranged where necessary; but so far as possible information will be imparted personally.

The total cost is estimated at \$87,500 for the three years, of which it is proposed that the United Kingdom shall contribute \$34,000, the United States \$25,000, and Canada \$9,000.

## The Nox Tasteless Liqueur, Drug and Tobacco Cure.

We have yet to hear of one failure to cure where a fair trial has been given. Can be given without the person knowing it is harmless and absolutely without taste. Mother, sister or wife, you would be doing a great work by giving this remedy to some member of your family. We will mail a full month's treatment for five dollars. The Sobell Drug Co., St. Catharines, Ont.

## VISITED THE SALOONS

Liquor License Inspector J. B. Jones and the liquor license commissioners last night made a tour of the barrooms and hotels. One of the commissioners afterwards said that in most instances they had found everything as the law required. In one or two places there were some matters which would have to be attended to but in no case was there anything to call for police court proceedings.

It is the intention of the inspector and commissioners to make these visits frequently.
