

THE EVENING TIMES-STAR, SAINT JOHN, N. B., FRIDAY, MARCH 26, 1926

# Leger Says Cabinet Would Balance Budget And Lighten Future Financial Imposts In Proposing New Levies On Taxpayers

Larger Proportion of Hospital Burden in Saint John Will Be Apportioned Over Municipalities Having Patients Therein

EXPERTS TO EQUALIZE ASSESSMENT

Estimated Revenue Put at \$3,695,771 or \$38,161 More Than Collected in 1925, While Expenditures Are Computed At \$4,362,605, Secretary-Treasurer Tells Legislature

BY JOHN J. DUNLOP  
Staff Correspondent of The Times-Star.

FREDERICTON, N. B., March 25.—In 1927 direct taxation to make up any deficit for 1926 in the form of a levy on real and personal property and incomes based on the valuations for municipal and civic assessment faces the people of the province of New Brunswick, Hon. Antoine J. Leger, Provincial Secretary-Treasurer, announced in his first budget speech this afternoon in the House before a large crowd in the gallery.

Hon. Mr. Leger's maiden effort was surrounded by members of both sides and many spectators paid a striking tribute.

The new tax proposed does not come into effect until 1927. Hon. Mr. Leger explained to your correspondent in a special interview after his address. The province, he says, desires the right to balance current revenue with expenditure, and what the exact levy will be is a matter for the legislature to decide. Any deficit will be proportioned over the entire province on a just basis.

The keynote of the Hon. Mr. Leger's speech was that it would be the policy of the present government to lighten as far as possible the burden of future taxation and to this end, a gasoline tax of three cents and increases in the taxes on banks, fire insurance companies, life insurance companies, accident and guarantee companies, in addition to a readjustment of the amusement tax by which it is hoped to receive double the present revenue from this source were proposed. In addition, a larger proportion of the burden of the provincial hospital, Saint John, will be apportioned over the municipalities having patients therein. Hon. J. E. Michaud, moved the adjournment and will continue the debate tomorrow afternoon.

EXPERTS WILL BE HIRED  
The bill to be introduced regarding the direct tax provides that experts will be hired to go over the entire province to equalize the assessment. An appeal from their valuation is provided in the act and after the valuation is established and there is no appeal, the provincial secretary-treasurer is authorized to issue a warrant to the different municipalities and cities and towns for the amount required from each to make up the deficit at Oct. 31 of each year. The taxes will be collected in the same manner as ordinary taxes for civic and municipal purposes.

DEFICIT TO DECIDE TAX  
"The amount each tax payer will have to pay is to be decided by the deficit. If there is no deficit there will be no tax," said Hon. Mr. Leger. Despite the increases in taxes a deficit on current account of \$669,800 is placed at \$3,695,771 or \$38,161 more than actually received last year, while expenditures are placed at \$4,362,605. Interest alone eats up the enormous sum of \$1,214,651, or more than one-third of the ordinary revenue.

INTEREST RATE TO BE CUT  
One of the bright spots in the speech came in connection with interest charges when Hon. Mr. Leger announced that commencing on April 1, next, the bank interest would be

perenced than I am, if I did not ask the goodwill of those of the opposite side who may appreciate my initial endeavor.

WERE NOTABLE EVENTS  
During the past year, many noticeable events have happened which could, by a voice more authorized than mine, be profitably consigned to the journals of this house. There are three however which even the inexperienced speaker cannot pass in silence.

"The death of Her late Majesty, Queen Alexandra, saddened the whole British Empire. And we, faithful and loyal subjects of Her Majesty King George V., desiring to express our universal and profound sorrow, made use of this serious occasion to express respect fully to His Majesty, our sincere sympathy in the misfortune which has befallen the royal family. Endowed with all the royal virtues, she once filled with joy the noblest place in the greatest Kingdom. And it may well be said that she had the larger merits in shaping the title of her late husband, perhaps the proudest that any monarch ever earned, Edward the Peace-maker. With her husband she reigned and lived with love among her people and subjects; and her advanced years seemed to surround her, if possible, with greater respect and greater admiration. May her motherly devotion and her charitable disposition be a source of inspiration to the womanhood of the province."

LAST BALANCE SHEET  
"The last balance sheet places the capital liabilities at \$37,939,314.94 the balance sheet of last year (1924) made in the same manner and dealing with the same subjects did place them at \$38,077,297.32 or an increase in one year of \$2,222,026.62.

"It might be instructive to give for comparison a statement of the capital liabilities as published in the same manner for the past nine years:

1917	\$17,827,938.81
1918	19,097,097.29
1919	22,241,936.70
1920	24,344,481.97
1921	27,340,188.09
1922	30,428,603.98
1923	32,802,369.98
1924	38,077,297.32
1925	37,939,314.94

INCREASE IN DEBT  
"If we were now to examine the increase of our bonded debt, what would we find? And let me assure this House that I am doing it, not so much in the spirit of censure, but to find out whether we are going.

"Bonded debt 1917, \$15,809,885.80; "Bonded debt 1918, \$17,168,089.13; "Bonded debt 1919, \$18,985,759.79; "Bonded debt 1920, \$20,683,226.49; "Bonded debt 1921, \$22,097,476; "Bonded debt 1922, \$23,628,422.39; "Bonded debt 1923, \$25,058,000; "Bonded debt 1924, \$26,938,902.29; "Bonded debt 1925, \$28,044,500.25; "Bonded debt 1926, \$29,608,000.

"This great increase of our public bonded debt, the result of the increase in the public results or benefits accrued to the public from the augmentation thereof, cannot be but alarming.

REVENUE OR ORDINARY ACCOUNT  
"But the bonded debt is not all. An examination of the accounts shows that the deficit for the year ending Oct. 31, 1925, was \$757,889.97 (including Saint John & Quebec Railway deficit of \$208,470.05).

FINANCIAL AFFAIRS  
"And now let us consider the financial affairs of this province. Although the present government was in power at the end of each year which terminated on the 31st day of October last, it had then only been in control for one and a half

SOD HOUSE STILL STANDS  
HENDLEY, N.B., March 26.—A sod house, built 76 years ago, on the farm of Orr Page, still is in excellent state of preservation and is being used to house live stock. It has weathered dozens of storms and cyclones, Page says.

POPULATION INCREASE  
VICTORIA, B. C., March 26.—British Columbia's population has shown considerable increase since the census of 1921, according to figures compiled by government officials on the basis of school population. The population is now figured at nearly 600,000.
