

TO BUILD BRANCH TO LETANG THIS SUMMER IS BELIEF

Rumor Said to Originate With High Placed Railway Official

ST. GEORGE, May 19.—A rumor with solid foundation has reached St. George from a high railway official, to the effect that the branch line to Letang will be built this summer. This means that the limestone at Letang is to be quarried and the fact that big railroad men are developing enough to warrant the expenditure of big sums of money in building this branch would indicate that big interests are behind the project.

ONLY PEACE-TIME ARMIES AND NAVIES CAN BE RESTRICTED

Reduction of War Strength Held Impracticable For Conference

GENEVA, May 19.—Only peace-time armaments can be limited by any conference of nations. This provisional agreement was reached at today's session of the preparatory disarmament commission, which decided that it was impracticable at the present moment to think of reducing the ultimate war strength of countries.

In ratifying this conclusion, however, the commission agreed to a significant reservation by M. Paul Boncour, of France. This was to the effect that when the subject committee frames the exact formula, it must recognize that estimated reductions in peace time armaments should take into account the military, economic and geographical factors upon which the war-time power depends and also the rapidly with which assistance could be afforded to a state if attacked.

Thus the admission is made at the very outset of the deliberations that reduction of armaments is an exceedingly complicated problem which cannot be solved in terms of numbers of troops and guns. Not only economic and population factors must be taken into consideration, but also, in the opinion of France, some other factors, concrete reductions must depend to a considerable degree on the extent of the effective aid which can be rendered to an attacked state through operation of a scheme of mutual assistance.

SAINT JOHN TO BE FEATURED IN ISSUE

Publisher Here on Mission—Makes Suggestion re Maritime and C. N. R.

The port of Saint John will be featured in the June issue of the Journal of Commerce of Canada, it was learned yesterday from Mr. J. D. McElroy, president and managing director of the Garden City Press, publisher of the journal, along with six other publications. Mr. Harpell, who is here in connection with the meeting of the Canadian Manufacturers' Association, being a member of the executive of that body, also is gathering material for the Saint John number. James Crockett, a special artist employed for the occasion, was here some time ago preparing a beautiful colored cover, which will consist of a picture of this port.

The Journal of Commerce is running a series on the national ports of Canada which will be completed when it is published again in a special number to be distributed both in and out of Canada in order to make national ports better known.

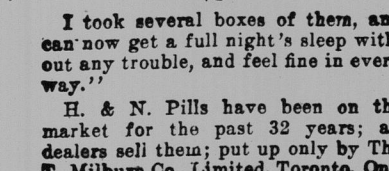

Mr. Harpell was much interested in Maritime problems and was anxious to get the views of people here in regard to the amelioration of them. One suggestion he had in mind was the taking over by these provinces of all Canadian National lines east of Montreal. He seemed much impressed with possibilities here and said that there was no spot in Canada that had the possibilities of development into a seaside playground as did the Charlotte county coast line with its many fine beaches. Mr. Harpell will leave this evening for Halifax, headquarters of the Canadian Fisheries Association, where he will attend a meeting of the executive of that body.

She Couldn't Sleep Heart Was So Bad

Mrs. J. D. McElroy, Charlotte town, P.E.I., writes: "About a year ago I was greatly troubled with my heart."

I could not sleep at night, and was so nervous I imagined that I could see everything in the room moving, and would have to turn on the lights before I could get to sleep.

After having read of your

I took several boxes of them, and can now get a full night's sleep without any trouble, and feel fine in every way."

H. N. Pills have been on the market for the past 32 years; all dealers sell them; put up only by The T. Milburn Co., Limited, Toronto, Ont.

HIGH COST OF BOAT MAY PREVENT TRIP

QUÉBEC, May 19.—A 6,000-mile route from Quebec to Greenland has been considered of late by Capt. J. E. Bernier, famous Canadian Arctic explorer, but it was learned today that unless he can obtain the boat he needs at a lower price than is demanded by her owners, the expedition, which would have started from this port on July 18, will have to be called off.

MEXICO EXPULSION OF NUNCO OPPOSED

Archbishop at Capital Addresses Protest to President Calles

MEXICO CITY, May 19.—The Most Rev. Morán Del Rio, Archbishop of Mexico City, has published an open letter addressed to President Calles, in which protest is made against the order for the deportation of Monsignor Caruana, the Papal Nuncio, who is now on his way to Washington.

The archbishop declares the deportation order was issued without sufficient cause and constituted another affront to the Holy See by the Mexican government.

Special despatches from Pachuca say that in the preliminary hearings in the case of the Roman Catholic Bishop Zazul, the prosecuting attorney announced that he intended to request the court to sentence the prelate to five years imprisonment.

The bishop is charged with having written a pastoral letter declaring that the religious clauses of the constitution themselves constituted a violation of the constitution.

BOYS SPEND NIGHT ON CHANNEL BUOY

Storm Drives Them to Hook on—Rescued Early Next Day

LONDON, May 19.—A thrilling story of a wild night spent on a navigation buoy, midway between the Isle of Wight and the mainland, was related recently by two Ryde youths, Edward Batt, aged sixteen, and William Wood, aged eighteen, who were rescued by a naval pinnace after being caught by a sudden storm while fishing.

They started from Ryde Pier one evening in a twelve-foot dinghy and proceeded in the direction of Stourbridge Buoy, five miles from land. Both lads are experienced fishermen but when a heavy storm burst over the Solent at midnight with a strong tide and wind sweeping out into the English Channel, it became impossible for them to return, so they made fast to the buoy and took shelter under the iron dome, where they sat in the pouring rain until the early morning.

A passenger steamer saw the boys' plight and informed the naval authorities on reaching Portsmouth.

ACROSS CANADA AND BACK

"Marvelous beyond conception" aptly describes the glories of Canada's Rockies. To be fully appreciated they must be seen. To start out on a trip by one's self into this unfamiliar but fascinating paradise-on-earth, to many appears quite a task. Realizing this, Dean Sinclair Laird, of Macdonald College, an experienced Rocky Mountain Traveler, for the third year in succession, has undertaken to conduct a party through this glorious wonderland.

A special train of dining, standard sleeping and observation compartment cars has been chartered, to leave Toronto on July 19 via the Canadian Pacific Railway. Stops will be made at Port Arthur and Fort William, which together form Canada's greatest grain port; Winnipeg Beach, the popular summer resort for Winnipeggers; Winnipeg, Canada's third largest city; and Regina, the capital of Saskatchewan; Calgary, Alberta's largest city; Banff, the world-famous mountain resort, by automobile for 104 miles to the Banff-Windermere Highway, the most spectacular drive in Canada; through Kootenay Lake to Nelson, the capital of Southern British Columbia; then through the Doukhobor country to Penticton, along Lake Okanagan Lake, and to Vancouver thence by steamer to Victoria.

Returning the trip will be by the main line of the Canadian Pacific through the great canyons of the Fraser and Thompson Rivers, and through the Selkirk and Rockies, affording scenery such as can be found nowhere else on earth; Lake Louise, the Pearl of the Rockies, the most perfect gem of scenery in the world; another day at Banff, Edmonton, the capital of Alberta; Saskatchewan, Saginaw, the city of optimism; Devil's Gap Camp, on the Lake of the Woods; near Kenora, thence to Fort William, where one of the fine Canadian Pacific steamers will be used across Lakes Superior and Huron to Port McNicoll, then rail to Toronto, where the trip will terminate.

Everything is included in the price of \$380.00, from Toronto; transportation, sleeping cars, accommodations in hotels, and bungalow camps, meals in diners, hotels and on steamers, and sight-seeing tours at points visited. The trip is open to all, and applications for accommodation, are now being received.

Fares from other points than Toronto will be named and descriptive illustrated booklet sent on application to Dean Sinclair Laird, Macdonald College Post Office, Que.

BIRTHDAY HONORED

Mrs. G. Byron Cushing, Queen square, yesterday celebrated her 81st birthday in good health and spirits. She was the recipient of a large quantity of beautiful flowers from friends in honor of the day, accompanied with good wishes for good health and happiness.

The Norwegian American Line steamer Bergenfjord was due at Halifax yesterday with four cabin and 123 third class passengers for Canada, from Bergen en route to New York.

SEVERAL INJURIES IN N. S. COLLIERY DURING 24 HOURS

Bradford Matthews Gets Broken Collar Bone and Several Bruises

SPRINGHILL, N. S., May 19.—Three mining accidents took place during the past 24 hours, none of which proved fatal. Thomas Murphy, McGee street, had a finger cut off by getting it caught in a rope on an engine he was driving in No. 2 slope early this morning.

Bradford Matthews, of the same mine, was caught by a bump in the east 5,900 level of No. 2 slope, and completely buried. His companions dug him out immediately and he escaped with a broken collarbone and several bruises around his body.

At No. 6 mine this afternoon, Ted Downey was hit on the back by a falling lump of stone and was knocked down, his face and body being badly cut and bruised. All are doing well. Due to lack of orders the miners are only working two and three days each week.

ELECTORS DEAL U.S. GOVERNMENT BLOW

Apparent Defeat of Pepper in Senate and Other Losses Stir Capital

WASHINGTON, May 19.—The apparent defeat of Senator George Wharton Pepper in Pennsylvania, despite the fact that he had the backing of Andrew Mellon, Secretary of the Treasury, and the Coolidge administration, was the first of a series of reverses which will shake the confidence of the administration in the Senate.

Defeat of Senator Pepper is generally regarded as a blow to the administration, especially when considered with the defeat of Senator McKinley, an administration senator, in Illinois recently, and the victory of Senator Watson in Indiana without administration support.

Pepper's victory will greatly encourage the wets, but here it is not attributed to the wet issue entirely.

It is noteworthy that Senator Pepper supported the world court, as did Senator McKinley, and in general voted with the Republican organizations in the Senate and the administration. He had defeated the Progressive-Republican support by his course.

When predictions were heard here today that the Pennsylvania result would add greatly to the difficulty of President Coolidge getting a re-nomination in 1928.

Whitewash Wipes Out Criminals' Writing

LONDON, May 19.—The simple operation of a whitewash brush wielded by an unemotional spring cleaner has wiped out for ever records of the crimes of some of the most notorious criminals in the world.

The chief clerk at Old Bailey has for years housed during the trial of the famous murderers—Crippen, Smith, of the "Brides of the Bath" case, Mrs. Thompson, Stille Morrison, and many others.

Upon the walls of the cell were strange and interesting inscriptions written by these men and women, for most of them had the mania for writing on walls. The comments and the messages regarding the judges and appeals were remarkable. While no record was kept of these messages they had been allowed to remain untouched until now, when, under a general spring cleaning campaign, this wall was included in the white-washers' list.

PRO-ROD SOCIETY TO DINE MONTEAL, May 19.—The first annual dinner of the Society for Cultural Relations Between the Peoples of the Dominion of Canada and the Union of Soviet Socialist Republics will be held here tomorrow. Addresses by persons who have recently visited Russia will be delivered.

The steamer Baltic, of the White Star Line, is at Halifax on Sunday with passengers for Canada, from Liverpool and Queenstown, en route to New York.

AN INTERNAL BATH DAILY RECOMMENDED

A prominent physician made the remark recently that if people were half as particular in regard to internal cleanliness as they are about external appearance three quarters of our ordinary ailments would be eliminated. This medical man said people did not stop to think of the importance of keeping the system just as clean as one is careful to keep hands, face and body. The result is that the intestinal tract becomes clogged and waste material which should leave the body daily stays there for an indefinite period doing a harm few people realize. So many ills are traceable to these clogging poisons! An internal bath sounds novel, but it is much easier to take than any other kind! A spoonful of Sal Litosol before breakfast (or any other meal), dissolved in a glass of tepid water acts as a gentle cleanser of the bowels—provides a soothing internal bath that rids the body of dangerous toxic poisons and gives one that feeling of freshness, vigor and well-being. A further advantage of the internal bath lies in the fact that a healthy body ensures an alert and active mind which makes for greater efficiency and happiness in one's daily work.

C. P. R. IS PROVIDING FOR BRANCH LINES

Special to The Telegraph-Journal, WINNIPEG, Man., May 19.—That the Canadian Pacific Railway Company was making ample provision for improvements to roadbeds, equipment, and for the construction of branch lines, was stated here this morning by Mr. Grant Hall, vice-president of the system.

Mr. Hall is in the west on a tour of inspection, and will visit western centers and the coast cities before returning to Montreal. Mr. Hall emphasized that the western lines would be maintained at the customary high standard of efficiency. With respect to the Edmonton Dunvegan and British Columbia Railway, operated by the C. P. R. under lease from the Alberta government, Mr. Hall said that the statement relating to the final disposal of this road would have to come from Premier J. E. Brownlee.

RAINS INCREASE FLOODS

ROME, May 19.—With the waters of the Northern Italian rivers gradually but steadily receding, heavy rains began again at midnight and lasted through the early part of the morning, threatening to extend the flooded areas.

DEBT NEGOTIATIONS HELD UP

PARIS, May 19.—Negotiations concerning the French debt to Great Britain have only been suspended, M. Peret, French minister of finance, said today on his return from London. He said that representatives of the Bank of France and British financial experts are continuing their work in London.

PAIR TO GET TESTAMUR

MONTREAL, May 19.—Two students, W. S. Hatcher, B.A., of Newfoundland, and Norman Egerton, B.A., of Montreal, who have completed their theological course, will receive the testamur of the Diocesan Theological College of Montreal, at the convocation tomorrow evening.

BILL IMPENDS FOR SO. AFRICAN FLAG

Decision Causes Protests on Union Jack Exclusion From Design

CAPE TOWN, May 19.—Notice of a bill defining the nationality of the Union of South Africa and providing for the new national flag was given in the House of Assembly today by Hon. D. F. Malan, Minister of the Interior. The design for the new flag, which was accepted recently by the Heretofore government, as stated in a previous cable, comprises a vertical red strip and horizontal strips of green, yellow and blue.

Professor Walker, of the Cape Town University is the winner of the government's prize for the accepted flag design. It is understood that the bill to be submitted to the house by Dr. Malan provides that on state occasions the Union Jack must be flown as well as the new flag.

The question of the new flag for South Africa is regarded generally as an academic matter, but strong protests have been made in Natal against the exclusion of the Union Jack from the design of the flag, and the advocates of the retention of the national flag of the British Empire are becoming increasingly active. Durban gave a lead in this direction today by flying the Union Jack.

MURDER COMMITTED WHILE TRIAL IS ON

NAPLES, May 19.—During the trial here of two brothers-in-law who were charged with murder, the wife of one of the accused men killed one of the chief witnesses with a knife-thrust in the presence of the whole court. The witness was a woman aged 65, whose evidence gravely implicated one of the prisoners. As she was leaving the witness-box she passed in front of the man's wife, who struck her savagely in the chest, throwing her to the ground. It was at first thought that the witness had merely been struck with the first, but when the attendants rushed to assist her she was lying in a pool of blood and the other woman was holding a knife. The witness died soon afterwards. Pandemonium broke out in the court. While the police arrested the assailant the two brothers-in-law fought like madmen in the prisoners' cage and the public rushed toward the murderers.

How Gray Hair Can Be Bobbed

The thickest gray streak shows up when the hair is bobbed. Make it youthful with Brownatone. Easy to use, no delay. Apply once and thereafter only as new hair grows in. Positively safe, contains no harmful ingredients. Natural shades secured. Brownatone is sold and recommended by all dealers. Two sizes—50c and \$1.50. Two colors, lightest blonde to medium brown, and dark brown to black. Trial bottle for test sent for 10c. Indicate color wanted. The Keston Pharmaceutical Co., 1508 Stearns Bldg., Windsor, Ont.
