 Donald Fraser of Fraser Companies, Ltd., Plaster Rock, is among the visitors to the city today. Mr. Fraser in addition to his lumbering business, carries on extensive farming operations at Plaster Rock. Last season he produced 2,000 bushels of high grade wheat. He was in charge of the freighter Montreal when she was torpedoed during the war.

**DEATH OF FREDERICK A. PETERS, FORMERLY OF ST. JOHN**  
 Frederick A. Peters of Vancouver died at the home of his daughter, Mrs. Albert Jones, of Allston, Mass., of fracture of the spine, caused by a fall down a flight of steps. It is thought that the fall was due to a shock. Mr. Peters was born in St. John on Aug. 8, 1837. He attended the schools here and at the age of 21 went to Vancouver, where he lived more than sixty years. He was interested in mills and general lumbering operations, always serving as foreman of any job upon which he was employed. His life was of the type that counts for good in any community.  
 Mr. Peters' wife, who was before her marriage Sarah Steward of St. John, died seven years ago.  
 The body was taken to Vancouver from Allston on April 9, accompanied by his daughter, with whom he lived, and two sons, Herbert of Charlottetown and James of Somerville. Another daughter, Mrs. Ida Glaspie of Superior, Wis., arrived Friday morning. The body was taken to the home of Mrs. William Brothers, another daughter, living here.

**ARRESTED IN WOODS**  
 Detectives Bring in Man Suspected of Breaking into Camp — A Warning Word  
 Charles Swett, who had been out of jail a few days on a seven years suspended sentence, was arrested by Sgt.-Detective Power and Detective Biddiscombe on last Thursday, suspected of breaking into a summer camp owned by John Leclachair, Grand Bay.  
 The detectives were in that vicinity, working on a case of attempted breaking and entering, and were traveling through the woods near Pokioik, when their attention was attracted by a man coming through the woods. They followed him to a camp situated in an out of the way place. The camp was a practically new tent, and it was said that it had been stolen some time ago. There were also some chairs, tables and cooking utensils in the tent, all of which were said to be stolen. A canoe, reported stolen from the Boy's Club at Grand Bay, was found. The detectives brought the man to the police station and his case will be tried later. Credit is due the detectives for their work.  
 In connection with robberies in stores in this city, the police department suggested that store keepers be careful not to leave large amounts in their tills. They also warn returned soldiers not to carry much money about them. They should put it in the banks. It is reported that some soldiers have been drugged and robbed recently.

**ST. JOHN YOUNG LADIES JOIN GOOD SHEPHERDS IN NEW YORK**  
 A large number of friends were at the depot last evening to say good-bye to two popular young St. John ladies who are entering the religious life as members of the Good Shepherd Order—Miss Josephine C. McGuire and Miss Catherine O'Leary.  
 Miss McGuire is a daughter of Mr. and Mrs. Martin McGuire of Exmouth street, and has been practicing her profession as nurse here with marked success since graduation from the New York City Training School, Blackwell's Island. Miss O'Leary is a daughter of Mr. and Mrs. Timothy O'Leary, Hard street, and has been a valued member of the N. B. Telephone Company's staff.  
 They go to enter the Monastery of the Good Shepherd, 90th street, New York, the head house of the order in the United States, where three other St. John young ladies already are Sisters of the Good Shepherd. During the last few days there have been many to call at the homes of Miss McGuire and Miss O'Leary to bid farewell and last evening's gathering at the station was an added demonstration of their popularity.

**SCHOOL HOLIDAYS**  
 The public schools close today for the Easter vacation which includes Good Friday, Easter Monday and Tuesday, a respite of five days, counting Saturday and Sunday.  
 In most of the schools throughout the city the series of periodical examinations bearing upon the final gradings marks are about over. The next big set of papers will be given about June 17, when the High School entrance tests are to commence.  
 In spite of the serious interruption to school studies made by last fall's influenza epidemic and the prevalence of other illnesses in its wake, it is considered that the schools are in particularly good shape at this juncture and by concentrated effort on the part of teachers and scholars it is confidently expected the term will be concluded with an average of good results.
