London, April 1.-Cabinet ministers who are members of the House of Com-mons are, according to a ciphering critic of the government, liable to fines aggre-gating £1,000,000, for not having been gating £1,000,000, for not having been re-elected to parliament when they re-signed at the time of Queen Victoria's death and again took up their offices. Mr. Labouchere raised the question against Mr. Balfour as a matter of mirilere and the denuty speeker ruled against Mr. Balfour as a matter of privilege, and the deputy speaker ruled that he ought to have raised it the first time Mr. Balfour reappeared in the House after resigning, if he raised it at all. There was a crowded attendance at the railway committee to-day, as it was understood that the Crow's Nest Southern Railway Company's bill, that is the one over which the C. P. R. and Crow's Nest Coal Company have been disputing, was to come up. On the suggestion of Hon. A. G. Blair it was laid over until a week from Thursday next: Alien Labor Bill.

In the House, Mr. Bernier introduced In the House, Mr. Bernier introduced three government bills of a departmental character, after which Sir Wilfrid Lau-rier moved the second reading of the bill to amend the Alien Labor Act. The Premier described the bill in pretty much the same terms as he did when introduc-ing it. He said that since the bill was introduced representations more med. ing it. He said that since the bill was introduced representations were made by employers that the clause which prevent-ed advertising for labor in the United States was too drastic. Employers ask-ed that they should have the liberty of advertising in the United States, for in-stance, for such labor that could not be secured in Canada. This matter was discussed with the labor organizations, who were very reasonable about it. They said they did not object to such labor, but what they wanted to guard against was the flooding of the country with labor during the time of a strike. An amendment would be offered in this di-rection.

Opposition argument against the bill was that it was not properly drafted to accomplish the object it had in view. It was also too cumbersome to put
