ALLAN LINER IN PORT.

The Globe says: The arrival in our harbor today of the Allan liner, the Allan time, calls to memory the arrival of three decades ago, when the Allan line regularly traded to St. John.

The Allan time is the first Allan liner in thirty-one years to come to St. John. It is to be hoped that the Allan time will be a regular trade here for a few years, instead of the Lucerne, which is only 127 tons register.

The Allan time is a crack ship, and she will stay here during the winter season. Capt. Wallace reports he had strong westerly winds, often increasing to gales, during the whole passage, and when nearing the coast the wind was very strong. Last night the bay was entered and the Allan time was anchored in the harbor.

Wallace states he shaped the course for Partridge Island, and had a splendid run up, making and entering the harbor without the slightest difficulty. Speaking of the bay and St. John, he said they were easy of access. The only place to be avoided was the Lurcher shoals, and that was an easy matter if the lead was properly attended to. The vessel was well defined, and as soon as a captain found his vessel was in say forty fathoms of water he should immediately leave his vessel off, and she would quickly be in sixty fathoms of water. Of course, the currents are sometimes very treacherous, and the "set" of the tide cannot always be counted on, so it is best to depend upon the lead. It is John's to be known and to be carried on port, and it is a rock as it is on the eye of it, said Captain Wallace, a lightship on the Lurcher would obviate all the dangers of navigating the bay.

Capt. Wallace is a seaman of much experience, hence his opinions are of value, especially at this time when we hear so much about the dangers of the bay, owing to the unfortunate circumstances of a couple of steamers being wrecked last winter.

DEATH OF GILBERT DAVIDSON.

Death removed an old and much respected citizen Friday, 8th inst., in the person of Gilbert Davidson, who passed away at his late residence, Duke street, about six o'clock. The deceased was a native of Annapolis, Kings Co., but has for many years been a resident of this city. For the past eighteen years Mr. Davidson has conducted a successful commission business in the country market, and had a reputation of being a smart but strictly conscientious business man. Mr. Davidson had many acquaintances who will miss his cheerful and good moral habits, who never refrained from doing good or leading a helping hand when it was his duty. On Wednesday last the deceased was at his business post, but complained of not being well, and since then has been confined to his home. Mr. Davidson was sixty-four years of age, and leaves a large family, the loss of a loved father. One son is one of the firm of Brown & Davidson, grocery merchants, on Sydney street. Death is said to have resulted from rheumatism of the heart.

Plenty of deer are reported in Vermont, and great numbers of partridges escape the hunters' attention because all have their thoughts on deer.

MILITARY CHANGES.

(Montreal Gazette.)

It is rumored that even now the changes in the permanent force in Canada are not completed. It is said that Lieut. Col. Gordon will be transferred to Toronto to take command of the 2nd district and that numbers 3 and 6 districts (headquarters Montreal and St. John's, Que., respectively) will be united under one command, that of Lieut. Col. Otter, now of Toronto.

This uniting of two commands would leave out Lieut. Col. Roy, who was recently sent to St. John's, but it is stated that he in turn will be given command of the Quebec district. No. 1, Colonel Paquette, now in command of No. 7, it is said will be appointed deputy minister of militia.

The angry discussion aroused very recently in the rumor of this last appointment was quieted by the assurance that it was not to be, but the story has been revived with vigor, and is unhappily generally thought to be correct. These appointments hinge on the question, however, as to the retirement of Lieut. Col. Smith and Masson, under the age limit. Rumor says that this will be the case. As ages are computed on the last day of December the changes would, if brought about, take effect by the first of January.

Mr. Arthur Halliburton, permanent under-secretary of state for war, has been superannuated on reaching the age limit. He is a Canadian, from a hard-looking tramps were seen near the place.

THE ISLAND POTATO CROP.

(Charlottetown Patriot.)

Potato digging is not general, and the reports from all sections of the island are that the quality has never been surpassed. The quantity, too, is fully up to the average, although a short crop is reported in some sections. Our surplus stock will find a market in the United States at fair prices, notwithstanding the duty of 25 cents per bushel, which in this case at least, will be largely paid by the consumer, although the duty at the same time curtails business and were it not for it island farmers would get higher prices. It is too early yet to speak with confidence as to the prices, but the Keswick potatoes, placed for various reasons, will be the principal market of this province. We are glad to note, however, that potatoes are opening their market well, and we have heard of several loads of whites which were the last season, and which realized 35.00 per barrel. A large number of vessels have been chartered to load at the island, and work for the market in the United States at fair prices, notwithstanding the duty of 25 cents per bushel, which in this case at least, will be largely paid by the consumer, although the duty at the same time curtails business and were it not for it island farmers would get higher prices.
