HARRY PULLIAM DIED

TODAY WITHOUT GIVING
REASON FOR SUICIDE

NEW YORK, July 28.—Harry C. Pulliam, President of the National League of professional baseball clubs, died at 8:10 a. m. today, after shooting himself through the head in his room in the New York Athletic Club last night. Although a bullet from his revolver passed entirely through his head, severing both optic nerves, and causing instant blindness, Mr. Pulliam lived from 3:30 last night until this morning. He became unconscious soon after the shooting was discovered and was unable to make any statement as to his reason for committing suicide, but it is generally attributed to ill health. Mr. Pulliam was in his office yesterday.

BLUE BEDSPREAD.

India print enters largely into the decorator's scheme for summer cottages. With willow furniture and patterned chintz has come the demand for quaint bedspreads, and in many country homes they are made of chintz to match the long window hangings. Where white curtains have been chosen and where other flowered surfaces have been avoided, the bedspread of blue and white India print will give an air of distinction to the entire room. This material is delightfully cool in weight and in finish, and is one of the best known tub materials. It has been without loss of color for twenty years without loss of color, but why should not the far-famed dyes of the Orient outlast our later efforts?

MONTREAL, July 28.—The handicap McAvity of St. John had to concede to Sergeant of Montreal was too great for the St. John player. He was beaten by 6-8, 6-4, 5-love. The work feature of the day's play was the other capture of Poulkes of Ottawa.

It's Fun to be Well—Leave off coffee—use POSTUM hot, or iced with lemon—'There's a Reason'

CURRY DIVORCE CASE WAS RESUMED THIS MORNING

(Continued from Page One)

Witness denied that he had reported to Mr. Curry that Mrs. Curry had complained to him (witness) about the work. Re-examined by Mr. Teed, witness said that he was married when working on the Curry house. Witness said that on several occasions Curry had "yanked" at Mrs. Curry, but did not remember hearing Curry use profanity. In answer to a question by Mr. Skinner, witness denied that he anticipated Mr. Skinner's questions and would answer before the counsel was through asking a question. At one time Mr. Skinner remarked: "Witness, you have a splendid indirectness of falling off before you get to the objective point."

MRS. CURRY AGAIN.

Mrs. Curry's examination was then resumed by Mr. Teed. Counsel read part of Curry's testimony regarding the building of a raft. Curry in his evidence swore that his wife denied that she ordered a raft built, but afterwards admitted it. Mrs. Curry denied this. On this occasion Curry called her a liar in the presence of the witness's father. Witness denied that she ever had a row with Howard Seelye, as alleged by Curry in his evidence. Witness also denied that she abused Seelye on the occasion she missed the "Springfield." She only called Seelye "a very touchy young man."

Witness denied that she ever put poison in her husband's bed room. Witness remarked: "If I wanted to poison Mr. Curry I would not leave the bottles around."

Curry in his evidence swore on one occasion that his wife, who had gone to a picnic near the Curry summer house at Woodville's Point, broke into the house, and when asked by his father why he did it, his wife said: "What did you tell him?" Curry said: "What, teaching your little boy to lie."

Mrs. Curry denied that this conversation ever took place. Witness denied on the same occasion she told Curry to shut up and that she said she would yell "murder."

Witness denied that she ever said she "would scandal him," or "drive him out of the Union Club," nor "that she would drive his clients from him and would ruin his reputation," nor "that she would drive him to the poor house and take all his money."

Mrs. Curry also denied that she ever spread her domestic troubles all over the city. Witness denied that she ever poisoned Mr. Geo. S. Chabing against Curry. Witness swore that she has not seen or talked to Mr. Chabing for the last five years.

In consequence of a letter from her father witness went to see Dr. Thos. Walker, the Curry family physician. Here Mr. Skinner objected to witness giving the conversation with Dr. Walker.

"His Honor will take the matter under consideration and give his decision when the court meets at 2:30 o'clock this afternoon."

STRAWBERRIES TAKE ANOTHER DROP

The Majestic brought down only a small quantity of produce this morning. The demand for strawberries has fallen off at Indianapolis and the berries are now selling from three to seven cents per box by the crate. Potatoes are bringing from 75 to 80 cents by the bushel. Beans sell for \$1 per bushel, while \$1 to \$1.25 is being asked for peas. There is a small supply of cucumbers, which sell at 50 cents a dozen.

SISTERS OF CHARITY

ENTER RETREAT TOMORROW

The local Sisters of Charity will enter a retreat tomorrow. Rev. Father Woods, S. J., of Baltimore, Md., will preach at the exercises which will continue for eight days. Accompanied by His Lordship Bishop Casey, of this city, Rev. Fr. Woods enjoyed a sail on the St. John River to Fredericton yesterday. He was charmed with the beauties of New Brunswick's famous river.

HEAVY SENTENCES FOR OPIUM DEN KEEPERS

New Chair Installed for Speaker Marcell.

City Clerk an Offender—Rain Storms Beat Down Western Wheat—Big Reception for Blesley Team.

TORONTO, July 28.—In future convictions keeping opium dens said Magistrate Kingsford, this morning, "I will inflict the full penalty of years of imprisonment, with hard labor. I mean this as a straight warning to all." He then fined Li Chung Satchew and Manthos as well as for keeping an opium den on York street. The public evidence now occurred, as well as Chinese, frequented the place.

OTTAWA, July 28.—The new chair for the Speaker has been installed in the House of Commons, and the late Speaker, Hon. Sir John A. Macdonald, has removed his. This is a custom which has prevailed in Canada since Confederation, and is in accordance with ancient British usage. In the Old Country, the speaker's chair is considered one of the finest specimens of wood carving in this country.

HAMILTON, Ont., July 28.—A summons has been issued for a city clerk, S. H. Kent, on a charge of neglecting to remove a privy vault in the yard of a house he owns on Nelson street. The Board of Health is the complainant in the case.

WINNIPEG, July 28.—Many fields of wheat are reported flattened somewhat by heavy rain last night. The storm, which swept over the greater part of the province, was accompanied by thunder and lightning and was one of the most severe storms of years. It was not accompanied by hail, however, and it is not thought the damage will be great.

MONTREAL, July 28.—When commandant Bertram and the members of the Blesley team, who covered themselves with glory on the famous run, reach Montreal a week from tomorrow on the steamship Tunisian. Preparations are being made to show the members of the team how they will be received when they arrive in the city. The team has sailed on the Tunisian, active work will be commenced towards the completion of the race. Some of the men who have brought fame to themselves and to Canada.

WILLARD MITCHELL TO BE THE ARCHITECT

Of New College Hall—Sackville Council.

Wants New Quarters—A New Opera House by Provincial Mtn.

SACKVILLE, N. B., July 28.—It is understood that plans from which the new Mount Allison Convocation Hall, in memory of the late Mr. and Mrs. Charles Fawcett, will be erected, are those which have been prepared by Willard Mitchell, the architect, formerly of St. John. It will probably be possible to call for tenders for the hall the course of a short time. The work of laying the foundation of the addition to the Ladies' College was begun this week.

The rumor is going around that the town council may shortly decide to make a change in regard to the location of the council chamber and town offices, and that the premises now occupied by the bank of Nova Scotia may be secured. Possibly the matter will be brought up at the August session of the council next Tuesday.

H. M. Wood, president of the new formed golf club, will offer a cup for annual competition among members of the club. In addition to holding the cup for one year, the winner of each annual competition will be awarded a pin or medal which will become his or her personal property. The club executive is arranging for the holding of monthly handicaps.

Professor A. W. Brander, of Amherst, has a short time ago completed the musical score of a very beautiful Latin cantata, "The Story of the Cross," which was produced in Amherst, and has just finished the music of the first act of a fairy opera entitled "The Enchanted Princess." The book and lyrics are by Rev. W. W. Norwood, rector of All Saints Church, Springfield, N. S., who has recently been called to the rectory of St. John's.

When the yerba mate, or native tea, of Paraguay, is cultivated the seeds are treated to an acid bath before planting. This softens the hard shell which surrounds the kernel of the seeds and enables them to sprout in three or four months. If planted in their natural state it requires three or four years for the seeds to germinate.

PARAGUAY TEA.

When you enter the Bank of England by any door four pairs of eyes watch you, though you are unaware of this fact. Situated close to the doors are hiding places in which are four guards of the bank. You cannot see them, but they can watch you with the aid of reflecting mirrors in which they can see your entrance and exit and every movement from the time you enter the portals of wealth to the moment you leave them.

STEAMER CAIRNCRAIG IS A TOTAL WRECK

Train Wreck on Kent Northern Railway.

Address for Judge Barry—Mr. Tiffin Denies That C.P.R. Will Get Running Rights—McAvity Loses.

HALIFAX, July 28.—Captain Logan, representing the London Salvage Company, arrived at the scene of the wrecked steamer Cairncraig, near Canso today, and held a survey on the ship. It was found that during the last twenty-four hours the plates on the starboard side had broken, buckled and gradually opened up a rent in her side about two feet wide. The steamer's masts are also loosened and she is gradually settling with the action of the sea. All hope of saving her has been abandoned and it within the next few days she does not break altogether apart or disappear out of sight she will probably be sold at auction. Captain Logan has given orders to dismantle the ship.

FREDERICTON, N. B., July 28.—This afternoon, when a few miles from the Junction, the Kent Northern Railway was exceedingly ornate, and is considered one of the finest specimens of wood carving in this country. A 23-A summons has been issued for a city clerk, S. H. Kent, on a charge of neglecting to remove a privy vault in the yard of a house he owns on Nelson street. The Board of Health is the complainant in the case.

WINNIPEG, July 28.—Many fields of wheat are reported flattened somewhat by heavy rain last night. The storm, which swept over the greater part of the province, was accompanied by thunder and lightning and was one of the most severe storms of years. It was not accompanied by hail, however, and it is not thought the damage will be great.

MONTREAL, July 28.—When commandant Bertram and the members of the Blesley team, who covered themselves with glory on the famous run, reach Montreal a week from tomorrow on the steamship Tunisian. Preparations are being made to show the members of the team how they will be received when they arrive in the city. The team has sailed on the Tunisian, active work will be commenced towards the completion of the race. Some of the men who have brought fame to themselves and to Canada.

MR. MURDOCH'S VIEWS ON THE CONCRETE LINE

In the opinion of Engineer Murdoch a four week delay in the construction of the concrete aqueduct of the Loch Lomond water system extension put in by McArthur and McVey, can be considered tolerably serviceable.

Up to the present time about one-eighth of the entire length of the aqueduct has been completed at a cost of over \$2,000. Engineer Murdoch does not think it would be necessary to entirely rebuild any part of the work. He holds the opinion that something more than oversight is responsible for existing conditions, but would rather not specialize upon whom the blame should be attached. Specifications which called for broken stone or screened gravel which could pass through a 1/2 inch mesh, have, in Mr. Murdoch's opinion, been laid aside and stone of much larger proportions used. This fact tends to a weaker piece of work and while examining parts of the aqueduct being repaired, the engineer found the concrete disintegrated and easily broken by the hand.

Repairs, however, can be made without shutting off the city water supply, which will necessitate a considerable expense, but Mr. Murdoch considers this extra outlay preferable to endangering life and property by shutting off the Loch Lomond supply. He was of opinion from the first, that concrete for the construction of water mains and for the present results fully justify his stand.

ST. JOHN CLEARINGS. Week ending 29th July, 1909, 41,533-81; corresponding week last year, 31,237,423.
